and ConfrontingTheChurches.com with live links.

*I walked in on my fiancé's suicide,
became the murder suspect and learned
he was in organized crime.*

I was 25 years old.

*I had no clue what he was involved in, or how to
get out of it... thinking and hoping it would all go away.*

*There came a moment in this nightmare when I remembered having several
meaningful encounters with God while I was very young.*

*My dad was a pastor so God was a common topic and I was in a spiritual
place several times a week so "stuff happened".*

*Nobody was around coaching me into anything so I knew GOD WAS REAL,
but Dad left the ministry,
church attendance dwindled to major holidays only,
and in a few years my parents divorced and all three of
us kids went into the errors of the 70's culture.*

*I hadn't thought of God in over a decade, **UNTIL NOW!***

I would later learn that he was involved in organized crime and that his business was likely a money laundering operation. Obviously, someone thought I knew something and wanted to make sure that I was scared into retreat or put away.

There came a moment in this nightmare when I remembered having several meaningful encounters with God while I was very young.

My dad was a pastor, so God was a common topic, and I was in a spiritual place (church) several times a week, so spiritual stuff happened to me.

I read the Bible from cover to cover at 7 years old (with a little help) when it came as a birthday gift. It's still on my bookshelf today.

I had a PROFOUND spiritual experience at 9, without anyone around me coaching me into anything. I never shared it with anyone. I don't think I knew how to explain it and I didn't think the adults would have the

right answers, so I just tucked it away, but it left me with the full awareness that GOD IS REAL, not knowing how much I would need that insight later in life.

From where I am now, I'd say these were all intended life experiences to help me accomplish a very difficult purpose as an adult...akin to trying to save people who think they're "safe".

There is a difference in salvation and safety that begs for clarification.

One is spiritual and one is physical because
we are spiritual beings having a human experience!

Both are vital to understand and care for.

I fell on my face and offered God a deal and a few months later at my arraignment,

I saw His hand move the world in my favor in a profound way
when I was exonerated by Judge Myron Love.

Yep, Judge Love set me free.

It was this experience that let me know that God could hear me, see me, and would still respond to me
despite my long absence...

SO, I CHASED HIM!

How could I not?

The priority of my life became hearing Him speak to me.

It took six years of crying out every waking moment for this "gift" to evolve.

"Talk to me. I can't help You on this planet if I can't hear You.

I NEED You to speak to me..."

I didn't realize that when I did begin hearing Divine Guidance,
that it would put me at odds with the entire culture,
especially the church crowd.

I was now listening to God
and the entire world around me was listening to other humans
and adopting their much more convenient ideas.

I tried reading the Bible again but just couldn't connect with it
and felt it was more important to HEAR GOD speak,
"We can always do the Bible study part later" ...
I NEEDED to see God's hand move the world again
more than I needed to know scripture; at least that was my thinking.

I continued crying out every waking moment though I had no tangible assurance I was even being heard but vividly remembered Judge Love showing up when I had no assurance that prayer was heard either. All seemed quiet for several years so in 1986 I fell in love and married a man who exceeded my dreams, and we soon were expecting our first child. I had some minor health challenges during the pregnancy, but nothing seemed extreme, and she was born healthy.

Six months after her birth my minor symptoms became more concerning.

We'd begun attending church, so I did what other Christians did and went forward for prayer. The standard prayer throughout most churches sounds like this, "Father we bring Kathy before you today and we ask that you bless the doctors with wisdom and knowledge in their diagnosis and treatment of her and it's in the mighty name of Jesus we pray. Amen".

So, like everyone else, I began seeing doctors, 11 of them in 18 months, several of whom were "specialists" in their field of study. What seemed odd is they all seemed to act like one part of the body had nothing to do with another part and what answers they did present seemed to conveniently let them off the hook for having to know what was wrong with me.

"It's your genetics" or "it just happens to some people" or "your body is attacking itself".

I was given a diagnosis of being "infertile" with a 9-month-old standing between my knees.

**I found it odd that the doctor seemed agitated when I responded to that
with what I thought was a very reasonable question,**

"What happened?

I was fine 18 months ago."

That should've triggered a quest for her to see what had changed in my life.

I learned that genes are only a potential to acquire a trait or disease, in other words,

genes REQUIRE a trigger.

Something to make them become active...in other words

they are only a genetic tendency not a predetermined reality that you will get a certain disease
because you have a "genetic marker" for it.

None of them asked about my eating or lifestyle habits, no questions about my environment, or whether I was in and around healthy relationships. Never did I hear one say, "I simply don't know" and none of them were inclined to check out other factors. I found ridiculous explanations and no answers so by the time 18 months elapsed I was worse, much worse.

They wasted my precious time, subjected me to more stress, gave me Rx medications that didn't help, caused other issues, and ultimately didn't address the cause so it remained and

continued doing its damage to more people than just me.

The church people seemed annoyed that I wasn't getting well when they prayed for me and decided that I must have "hidden sin" that prevented God's mercy from healing me or that I "didn't have enough faith to accept the biblically promised healing".

They acted like everyone was getting well except for me when that wasn't the case at all.

RARELY is how often healing testimonials were shared and if someone gave one, a few months would elapse, and they'd be right back at the altar seeking healing prayer again for the same or a different problem.

Now let me also say here that miraculous healings can and do happen.

It isn't often, and someone needed to figure out why.

We had to be missing some important teachings!

John 14:12-14 The Message

11-14 "Believe me: I am in my Father and my Father is in me. If you can't believe that, believe what you see—these works. The person who trusts me will not only do what I'm doing but even greater things, because I, on my way to the Father, am giving you the same work to do that I've been doing. You can count on it. From now on, whatever you request along the lines of who I am and what I am doing, I'll do it. That's how the Father will be seen for who he is in the Son. I mean it. Whatever you request in this way, I'll do.

Jesus did miraculous healings and states quite clearly that we are "given" the same work to do.

My Spirit-led training revealed several principles we were violating. Yes, periodically some human's life purpose can be so important to His agenda on this Earth that a miracle can happen despite all criteria not being met but generally, His principles or conditions need to be heavily considered and met, if at all possible, to increase the likelihood of gaining His intervention.

One principle was revealed when Jesus said often after healing someone,

"Go and sin no more or something worse may come upon you."

The words I heard in my inner man after reading this further illustrated,
"There's no point in healing you if you have no clue what made you sick as you will only return to it."

He also taught me that there's a big difference between someone needing miraculous healing from an injury and someone needing healing from disease.

It's typically appropriate for someone who's injured to seek a miraculous "healing" but a person with diabetes and autoimmune types of diseases usually dictates that knowledge is what's needed. They need to be educated as these conditions are caused by diet, lifestyle, and environmental issues.

Once these issues are addressed it's reasonable to also seek supernatural intervention, but if these things aren't corrected, a healing isn't likely or will not last.

The Holy Spirit typically won't instantly make someone smart about things that are making them ill, but He will guide a seeking heart.

In fact, as soon as you get on the same page in your thinking and doing... you'll almost see Him run out in the street to meet you, anxious to help.

He loves it when we become willing to be led, to be part of the solution, to "learn of Him".

I have personally been transformed in this process from an ignorant human, vulnerable to the whims of a predatory culture, who was often sick and had no idea why or how to get well and stay well, into a conscientious consumer who hasn't been to a medical doctor for "illness" since 1990.

I've said for decades,
"If most people ate, lived, and medicated the way I do
I expect 75% of mainstream medicine would be completely unnecessary,
maybe more.

As a consumer I was creating the very world I wouldn't want to live in
where creepy corporations were in control of most of the food supply, driving out generations of family farmers and precipitating disease, thereby elevating the presence of pharmaceuticals, environmental damage, political corruption, and general evil.

None of this was in line with my true values once I saw who and what I was supporting.

"I haven't been to a medical doctor for illness since 1990"

which correlates with when I completely surrendered my rights to eat and drink whatever I wanted and instead sought to learn and understand what our Creator Father instructed us to do. I learned to honor my body as a "living sacrifice" and saw repeatedly how that behavior correlates to having spiritual discernment, also known as the ability to "know God's will" in your life circumstances.

Bottom line, when you treat your physical body as though it were a holy temple you will have a stronger intuitive sense...a more sensitive awareness of the world around you, where you are to go, what you are to pursue and not pursue, who to invite in and who to restrict.

You'll just know stuff that you need to know...if you bother with that one little detail.

This principle we see in Romans 12: 1-2.

New Living Translation

"And so, dear brothers and sisters, I plead with you to give your bodies to God because of all he has done for you. Let them be a living and holy sacrifice, the kind he will find acceptable. This is truly the way to worship him. ² Don't copy the behavior and customs of this world, but let God transform you into a new person by changing the way you think.

Then you will learn to know God's will for you, which is good and pleasing and perfect."

I prefer the New Living Translation for this passage as I feel it's the most literal to the experience I was guided into and is what I was shown when I asked our Creator Father why I was able to have such a vivid experience with him while watching so many typical professing Christians seem so clueless and unable to find answers for themselves or others.

"...This is truly the way to worship him..." was the clue!

After 35 years on this journey I can affirm that it is indeed
a gateway to transformation.

I was sick so my answer to prayer came in the form of an intense desire to read books.

An informed soul is easier to guide versus someone who has
no clue and isn't interested in knowing how to help themselves.

Delegating that task out to others who profit from your lack of knowledge can lead you into toxic methods that serve as a "revenue extraction" process but does nothing to restore health.

We NEED to be engaged in the process
and to do that you need some basic understanding.

I do know this...

A loving parent gets excited when one of their children wakes up to an important concept like the idea of taking personal responsibility for the care of their life.

And when we get "in alignment" with these deeper values of "wisdom and common sense" is when spiritual things get rolling in our lives because we're showing our Father that we can be trusted with more important matters.

I had to become an active part of the challenge to overcome hurdles,
or more specific, some problem my own ignorance created.

Regardless, I can tell you from firsthand experience that
God gets excited when we WAKE UP and REALIZE that
we are in fact poisoning ourselves with the "delicacies" of the world
with reckless abandon and decide to not disrespect Him and this "temple" gift like that.

Instead, what I actually witnessed is the church goers have acquired some idea that because they can identify Jesus in a lineup and are well intentioned nice people that they will have a different outcome or won't face consequences for violating the instructed self-disciplined care of our body as His temple.

I used to see the look in the eyes of my "Christian" clients when they got a scary diagnosis, as if they were shocked their body did that to them when they had done nothing to make their health a priority.

One of these clients owned a construction company, and I reminded him,
"All equipment needs maintenance. Putting a Jesus sticker on it won't change that."

He didn't seem amused, but it was a perfect analogy.

He was more concerned and informed about his construction equipment's maintenance needs.

What a shame that his human temple didn't get the same regard.

Ultimately, the search led me to Wisdom as a primary basis for my lifestyle.
Wisdom, common sense, acquired knowledge from reading books that matter, and a heavy and
prayerful reliance upon the Holy Spirit to guide my journey became my norm,

As an act of devotion and gratitude = WORSHIP.

Sadly, nobody in the churches wanted to admit that people weren't getting well from their culturally accepted ways and realized we might need to review our sources, practices, and principles being relied upon.

Using Medical Doctors

"Trauma Only" became my rule for using allopathic/traditional doctors.

In the early years I used them to help me diagnose things and then I'd go see what I found in
the natural medicine, common sense and logic arena
that wasn't a chemical cocktail made by proven profiteers.

At a certain point in my journey, it became true that

I now have a better chance of knowing what's wrong with me and what to do than the so-called
medical professionals do and have proven this over and over,
thus the book God insisted I write that took 29 years to finish.

The story continued to unfold, presenting new challenges to learn from and overcome.

The book will help readers see what that process looks like and the methods I used.

One reader wrote,

"She's been to hell and back and knows a few things about healing".

<https://gettingwellgodsway.com/2020/05/02/shes-been-to-hell-and-back-and-knows-a-thing-or-two-about-healing/>

Returning to Our True Source

Since God knows where every remedy is in nature and where every advanced option is it seemed prudent to make hearing that Inner Guidance a priority,

over and above the human ideas or as the Bible calls it, the "noise of many waters".

There are a few exceptions but a natural method to heal has consistently been found instead of an Rx drug that masks symptoms.

It didn't always come as fast as I'd hoped but in recent years there's so many amazing natural products to heal so many conditions + the internet...you should make the effort to learn.

I was on a Rx thyroid medication for many years but was able to find a solution and successfully ditched the 90-milligram prescription of compounded thyroid they said I'd be on for life.

When Jesus was getting ready to leave this Earth,
He told some of the disciples that He was "going away" and they couldn't come
BUT, the "Spirit of Truth" would come and teach them "all things".

John 14:22-29 ▼ Living Bible ▼

22 Judas (not Judas Iscariot, but his other disciple with that name) said to him, "Sir, why are you going to reveal yourself only to us disciples and not to the world at large?"

23 Jesus replied, "Because I will only reveal myself to those who love me and obey me. The Father will love them too, and we will come to them and live with them. **24** Anyone who doesn't obey me doesn't love me. And remember, I am not making up this answer to your question! It is the answer given by the Father who sent me.

25 "I am telling you these things now while I am still with you. 26 But when the Father sends the Comforter¹³ instead of me—and by the Comforter I mean the Holy Spirit—he will teach you much, as well as remind you of everything I myself have told you.

27 "I am leaving you with a gift—peace of mind and heart! And the peace I give isn't fragile like the peace the world gives. So don't be troubled or afraid.¹⁴ **28** Remember what I told you—I am going away, but I will come back to you again. If you really love me, you will be very happy for me, for now I can go to the Father, who is greater than I am. **29** I have told you these things before they happen so that when they do, you will believe in me.¹⁵

I took this as fact and began chasing knowledge from that vantage point.

I now had no excuse for wandering around lost and unable to find answers
or relying on the world system who profits from my lack of knowledge.

We are repeatedly warned in scripture to be "set apart" from the world and suspect that should look more like how the Amish live, in tight community, according to many WISE ideas of self-sufficiency and security, INSULATED from many of the evils of this world.

Sadly, the 501C3 churches severely downplayed this directive and now have brought the fallen world's ideas into the sanctuary and the congregants forgot their TRUE SOURCE and began "trusting in, relying on, and having confidence in" this worldly way to the exclusion of scripture, wisdom, and common sense.

BTW: that's the definition of the word "believe" in the Amplified Bible.

So how does your lifestyle measure up?

When you have a problem where do you turn...to the ideas and remedies of "the fallen world"?

Doctors? Rx drugs?

What do you routinely DEMONSTRATE that you "trust in, rely on, and have confidence in"?

Some questions you should ask yourself?

Has anyone taking this Rx drug ever gotten off of it because it healed their condition?

If not, why not?

If the prescription drug can't heal the condition, what can?

Is there a lifestyle change I can make that would resolve the issue?

What if the economy implodes and I'm not able to obtain these prescriptions, what then?

Shouldn't we seek to HEAL instead of just maintaining the disorder?

It became clear that we are to seek to live in a manner that aligns with biblical wisdom, common sense, and serves the "highest good" not just for myself but for my loved ones, my faith family, the community at large, and the world?

I became willing to take personal responsibility and to seek to understand and learn so, I can avoid repeating whatever caused the problem.

I would no longer go mindlessly through my life putting "Jesus' stickers" on my health.

Scripturally speaking we have a part to play in maintaining our health,

learning why we got sick,

and the response-ability to correct it

lest we reflect the attitude in this verse in Proverbs,

"Like a dog returns to his vomit,

so does a fool return to their folly."

If we don't identify the cause and fix it, sickness will continue or return.

Health challenges are "warning messengers"

intended to inspire change or cause us to adjust our course, not necessarily a prophecy of doom or a lifetime of prescription medications. When you KNOW there are safer options it becomes kind of fun to steer around all the worldly traps. Again, this means we need some basic understanding in how this "vessel" needs to be cared for from the Manufacturer and not from a television commercial intended to steer viewers to profiteers.

If you don't have basic knowledge, you'll end up "blowing to and fro" with every product, guru, or idea that comes along.

Reading books that teach will give you this "basic training" and helps you either connect, reconnect, or connect on a deeper level with our Creator Father and then you'll be more easily directed to further needed answers or needed warnings as you refine your listening and obeying.

Expect a few wrong turns but know that "If you get lost you can always be found".

I wasn't driven by rebellion...

I was desperate to find answers the churches nor the culture had.

SO, I CHASED GOD DOWN, AGAIN!

I began by cancelling all pending medical tests and the follow-up appointments and slid down the wall crying. It was a cry of surrender as I declared,

"It's me and You God and if this doesn't work, I'm coming Home early and You're going to have a PR problem as I leave behind a husband and young child. I'm listening and will follow where You lead but I must know that it's You, so I need to hear You clearly.

I'm done assuming that humans have my answers.

If You send me to a doctor, then my follow through would be an act of obedience. If I seek them on my own, that is an indication that my faith is in human ideas more than in You which isn't accurate...".

Fortunately, there was a forgotten experience at 21 years old that was lying dormant but certainly influencing me. It was when a grand mal seizure threatened my freedom (my driver's license) and mainstream doctors in literal "Ivory Towers" didn't have the answers but a back woods doctor who practiced medicine in a nearby small town knew and gave me back my life.

Like many humans I didn't stay in learning mode and wandered from the path this precious healer had begun with me subjecting my body to more "poisons" at the hands of the world's corrupted foods and "medical" practitioners. This time, at 30 years old, I believe my sickness led me to become teachable and remain teachable so I would never again "return to my folly".

I'll therefore encourage you strongly to enter and accept this opportunity and not turn away.
I could've avoided a lot of error had I parked myself at this doctor's feet and is actually
a true-life regret as I'm certain he would've taught me everything he knew.

After praying that "I GIVE UP" prayer God was quiet for six long months.
I grew worse but I didn't change my commitment to waiting for Him and Him alone to tell me what was wrong, what to do, and what I needed to learn AND APPLY.

That stillness was a test to see if I meant it or
if I was looking for a quick fix and giving empty promises to get my immediate needs met.

I passed.

Another young couple down the road gave birth to their first child shortly before our baby was born.
It was a stillborn son and none of us living nearby saw what the warning revealed, which was large and
obvious and about 75 yards from their home and 250 yards from ours.
It would be another 30+ years before I'd see the message in that detail of my life
that caused me to write this creation you're reading.
God brought it all back full circle so I could see and share His concerns with you.

We shouldn't forgot an important biblical warning as our world has evolved:
"Behold I send you in as sheep among wolves.

Be ye therefore wise as a serpent, harmless as a dove."

We have not done the "wise as a serpent" part very well and have done quite a bit of
damage by making foolishness (the absence of wisdom) acceptable among us.

Why Self-Education is Important

I started reading books about getting well and building health until I had 5 or 6 at a time going and still do. This act inspired diet and lifestyle changes as I learned more and more.

Reading books that matter
ignited my spiritual life
because
growth requires
an engaged mind!

And having a library
around means I'm often
guided to timely content
giving the profound sense
of being helped on this
life journey.

It's a beautiful exchange
that enhances transformation

BreakingFreeToTransform.com

I had to be part of the solution, or His part wouldn't matter, or wouldn't last.

I wrote an article posted on the [GettingWellGodsWay.com](https://gettingwellgodsway.com) book site about this:

God's Part In Your Health Recovery and Your Part

<https://gettingwellgodsway.com/2021/01/29/gods-part-in-your-health-recovery-and-your-part/>

Once I broke free from the delusion that a pastor was going to pray a magic prayer

or a doctor was going to prescribe some magic pill
and instead chased God down for guidance,
I was able to reverse my reportedly "incurable" diseases
such as Hashimoto's Autoimmune Disease.

The Advanced Cervical Degenerative Disc Disease they said would fuse my neck vertebra by 1993 never happened because I stopped eating and drinking the garbage "non-foods" offered by this fallen world that are also served at the churches, the hospitals, schools, in vending machines outside of the doctor's offices and in nursing homes...

and therefore, endorsed as "acceptable".

The disabling inflammation episodes known as "Fibromyalgia" are understood

and I don't do what triggers them now.

As it turned out these conditions weren't "incurable" but the mainstream, Rx-writing doctors just didn't know how because they're taught to sell drugs, not to actually cure anything.

I then broke my spine in July of 1994 when I fell from a bridge into a shallow river while cycling with a friend. This event was noted in a journal 9 months earlier though I didn't understand it fully until...

The x-rays showed that I was paralyzed from the waist down, but God thankfully had other plans. In fact, a friend who lived 3 hours away felt strongly encouraged to come visit the night before, even leaving an event at her home she'd planned for a year.

She just happened to be trained in first aid and recently finished a course on "Water rescue with an emphasis on potential back injury".

Had I been handled wrong at any point during my transport, due to shards of bone inside the spinal column, I could easily have had a different outcome.

How does He do this?

The attitudes in us I'm going to address next exist because we live in a fallen world and a ton of money and time has been spent to make us think, behave, and live the way we do.

However,

according to the Bible we're also a "stiff-necked and rebellious" people.

We're inclined to our own ways and not keen on being corrected or having something we enjoy taken away from us.

The same description can be applied to children,
so the missing piece here is our maturity.

That too is required of us according to scripture.

"Brothers do not be children in your thinking.

Be infants in evil, but in your thinking be mature."

1 Corinthians 14: 20

"So that we may no longer be children, tossed to and fro by the waves and carried about by every wind of doctrine, by human cunning, by craftiness in deceitful schemes.

Rather, speaking the truth in love, we are to grow up in every way into him who is the head, into Christ..."

Ephesians 4:14-15

"For though by this time you ought to be teachers, you need someone to teach you again the basic principles of the oracles of God. You need milk, not solid food, for everyone who lives on milk is unskilled in the word of righteousness, since he is a child. But solid food is for the mature, for those who have their powers of discernment trained by constant practice to distinguish good from evil."

Hebrews 5:12-14

"But be doers of the word, and not hearers only, deceiving yourselves. For if anyone is a hearer of the word and not a doer, he is like a man who looks intently at his natural face in a mirror. For he looks at himself and goes away and at once forgets what he was like. But the one who looks into the perfect law, the law of liberty, and perseveres, being no hearer who forgets but a doer who acts, he will be blessed in his doing."

James 1:22-25

This is the one I often reference when I sign books:

"Therefore, let us leave the elementary doctrine of Christ and go on to maturity, not laying again a foundation of repentance from dead works and of faith toward God, and of instruction about washings, the laying on of hands, the resurrection of the dead, and eternal judgment.

And this we will do if God permits."

Hebrews 6:1-3

"The world is unprincipled. It's dog-eat-dog out there! The world doesn't fight fair. But we don't live or fight our battles that way—never have and never will. The tools of our trade aren't for marketing or manipulation, but they are for demolishing that entire massively corrupt culture. We use our powerful God-tools for smashing warped philosophies, tearing down barriers erected against the truth of God, fitting every loose thought and emotion and impulse into the structure of life shaped by Christ. Our tools are ready at hand for clearing the ground of every obstruction and building lives of obedience into maturity."

2 Corinthians 10:5-6, The Message

Most people don't like to read or study, we aren't inclined to self-discipline, we don't like to realize we've been lied to or conned or admit when we're wrong.

If you put these attitudes and behaviors in a religious environment,

it's prone to become toxic

and prevents deeper truths from being presented and accepted.

It stunts growth

Be mindful that Christianity is still very young so there's a lot of information to sort through and verify and "try on" even and we therefore need to acknowledge that we may have some wrong ideas. We also need to acknowledge there's been a massive effort to manipulate, corrupt, and hide important truths.

In fact, the more books I read and videos I watch the more I realize this is fact.

Blatant lies, mysteries and conspiracies to deceive for various reasons.

No matter what,

the experiences I've had from a traditional Christ-centered "foundation" have served me very well.

It was the churches, the institutions of men that failed me,

and they've failed the culture too as you'll soon see!

and that's what birthed this journey and inspired the book to be written.

This simply has to stop...this worldly way with a "Jesus sticker" slapped on it has prevented much deeper truth from surfacing and has empowered evil in the absence of applied truth.

Once you see how the elite families infiltrated the world, including the medical system, seminaries, the schools, the media, and more, you'll begin to understand how a mass of people can be misled to the degree that their way of life "nullifies their claims of faith".

"And the people did evil in the sight of the Lord."

I was rereading "Through the Bible in One Year" and began chuckling out loud at how many times the new day's reading in the Old Testament began with,
"And the people did evil in the sight of the Lord".

Oddly, this was typically after the Israelites had a corrective sermon the day before about something they'd done or failed to do so there should've been a long period of good behavior and yet it seemed the very next day the reading would begin,

"And the people did evil in the sight of the Lord".

It happened so much that a reader would begin to question the intelligence of the people.

My point is that we need to realize that humans, especially religious or passionate ones, are capable of great harm. Remember, it was a religious mob that yelled "Crucify Him".

If we don't crucify our ego (Easing God Out) and keep our "mob nature" in check we are capable of blocking new insights and missing opportunities that lead us into deeper spiritual experiences, maturity, and entrusted gifts needed in our world.

"Church" has become just another group of pig-headed souls who don't like to read
so they make up their beliefs to fit what they prefer to be true
And "Miss God's Truth", "Get it Wrong" & "Harm Others".

Patting Jane the Baptist on the Head...

My experience has felt like I was raised in a village away from the rest of the world.

A lot of people in the village were becoming ill and nobody really knew what to do.

The priests and medicine men had no answers so I "went over the mountains" to see if I could find some.

Instead of being grateful that I was willing, most of my fellow tribesman were upset
that I wasn't continuing to merely profess "belief" in
"the ways of the tribe" though it became clear these "ways"
weren't working for most of us, not just a few.

I found answers...simple answers of logic and common sense

but very different from what the modern priests and medicine men had been teaching.

It made no difference if what I learned was logical, effective, or seemed Wisdom-inspired,
if it casts even a suggestion that the tribe's ways weren't correct,
then it was to be rejected...period end of subject.

I returned to the village eager to share and was already better for having applied what I learned
but the village people weren't happy with me.

In fact, they resented me.

They weren't even interested in what I'd learned that could help them.

They couldn't see that "this way" would help advance peace rather than chaos as
"this way" I was shown meant that good people, good products,
and good medicine would be the mainstay.

Instead of financially supporting evil fake food vendors and fake medicine men who'd come into our village
to sell their foreign wares, making our children sick
and polluting the environment, we could be healthy and whole!

**"Be sober [well balanced and self-disciplined], be alert and cautious at all times. That enemy of
yours, the devil, prowls around like a roaring lion [fiercely hungry], seeking someone to devour."**

1 Peter 5: 8 Amplified Bible

"A nation of sheep begets a government of wolves".

Edward R. Murrow

I want to "turn sheep into lions" ...armed with knowledge and empowered to maneuver through this fallen world and to discern and yield to the guidance of wisdom to meet God's high standards and avoid pitfalls.

Knowledge is spiritual warfare.

Health is spiritual warfare!

Sadly, both have been abandoned.

Why Me?

I'm unique in a few important ways that likely qualified me for this role.

First, I don't require approval from others before I'll act.

I'm willing to stand entirely alone if I'm standing for what's right

but I still care enough about people to try to get them out of danger.

I don't profess to have all the answers we need, but I intend to show you where and how I'm getting led by the Holy Spirit to find what I've found.

I want to teach you how I "got my spiritual fire lit" so you can also see what gifts and insights come forward from you when your own fire gets lit!

We will all benefit from more people engaged with finding and doing their life purpose.

I am different than most of you.

This should be expected of someone bringing in new insights.

I have been where most of you and your shepherds "fear to tread" so yes,

I have developed some different ideas than are traditionally accepted.

Romans 14 would tell you to embrace me with love and acceptance.

That's not at all what happened.

Why Now?

In Romans 1: 16 it teaches that Jesus was rejected by the Jewish people

as part of God's plan allowing Him the justification

to then have the gospel presented to the Gentiles (Greeks).

Another time, "God hardened Pharaoh's heart" when He's the one who sent Moses

to demand that Pharaoh, "Let my people go".

Nine times God did this.

Time and time again we see this idea presented revealing

God's Sovereignty.

He's totally in control even when it doesn't look like it.
He does what needs to be done however He wants to do it,
through whomever He chooses to use, sinner or saint.
I've also learned from experience; there's always a reason and
His timing is always perfect.

When I wonder why it would take 35 years for the professing "Body of Christ"
to hear a perfectly reasonable message that basically said,
"Coke machines, junk food, and prayers that only acknowledge a Rx-writing doctor
are not in alignment with wisdom and biblical teaching",
maybe it just wasn't time for me to be heard.

Maybe I had to come to a point that I was willing to stop and create this deep appeal!
Maybe for "such a time as this".

John 9 ▼ Amplified Bible ▼

Healing the Man Born Blind

9 While He was passing by, He noticed a man [who had been] blind from birth. **2** His
disciples asked Him, "Rabbi (Teacher), who [a]sinned, this man or his parents, that he would
be born blind?" **3** Jesus answered, "Neither this man nor his parents sinned, but it was so
that the works of God might be displayed and illustrated in him. **4** We must work the works
of Him who sent Me while it is day; night is coming when no one can work. **5** As long as I
am in the world, I am the Light of the world [giving guidance through My word and

**Born blind so that on a certain day in a certain place specifically for the purpose of
having his sight restored by Jesus so many witnesses would believe
"there's something different about that Jesus guy".**

And there He goes again with that timing thing!

Continuing...From Scripture

Let's see how God responds to willful ignorance.

**"Don't be misled—you cannot mock the justice of God.
You will always harvest what you plant."**

Galatians 6: 7 NIV

If you plant a garden of ignorance, guided by the ways of the culture/world, instead of making your eating, living, and medicating to be in alignment with wisdom and self-discipline then you should expect a worldly yield of consequences that match the non-effort to live in accordance with The Creator's Ways. I heard early in my conversion, "Kathy, you don't get a different set of consequences just because you claim to know Jesus. Try that attitude with the law of gravity and see if it works. If you don't make your health a priority, nobody else is going to do that for you". I learned in time that God will go with me as I face my consequences but He typically won't remove them.

Then there's this verse below that essentially says,

"If we fail to care about the things that can save us that God will get sick of this avoidance and respond by causing us to be "greatly deceived, and they will believe lies" and ultimately be condemned.

It's my opinion that this doesn't apply only to spiritual salvation!

If we don't care about learning how to maintain our "temple" as an act of devotion and worship "God will cause" or God claims the right to cause us to be greatly deceived..."

2 Thessalonians 2:9-12 New Living Translation

⁹ This man will come to do the work of Satan with counterfeit power and signs and miracles. ¹⁰ He will use every kind of evil deception to fool those on their way to destruction, because they refuse to love and accept the truth that would save them. ¹¹ So God will cause them to be greatly deceived, and they will believe these lies. ¹² Then they will be condemned for enjoying evil rather than believing the truth.

Therefore, covering your eyes and ears to avoid spiritual maturity will land you in hot water!

Remaining willfully ignorant about important physical matters has consequences.

This is what's happening to a very dear friend right now.

Like many, she's been sitting on the church pew for 25 years, singing in the choir, and living a typical ChRxtian lifestyle. She tolerated me because she loves me. She also brags that she was the first one to buy the book GOD insisted I write. She, however, was not the first one to apply the information that leads to transformation. She's almost a sister but she never stopped to "take in" the things I teach, like most of the church goers and now she's in a mess because she

"avoided the truth that could keep her safe" is another way of saying that.

I was living my story right in front of her and her choice to minimize the value of the teachings put her eyebrow deep in a very scary health situation.

She didn't make "God's Ways" a priority, so He apparently felt no need to warn her before she made a very bad "health care" decision.

I expect she represents "Most ChRxtians" sitting in the churches today and is a perfect inspiration for me to keep writing this appeal.

What happens when we insist on living life according to our own desires:

Psalm 81:12-14 Living Bible

12 So I am letting them go their blind and stubborn way, living according to their own desires.

13 "But oh, that my people would listen to me! Oh, that Israel would follow me, walking in my paths! 14 How quickly then I would subdue her enemies! How soon my hands would be upon her foes!

We lose the advocacy of the Heavenly Realm!

Wisdom Shouts in the Streets

20 Wisdom shouts in the streets.
 She cries out in the public square.

21 She calls to the crowds along the main street,
 to those gathered in front of the city gate:

22 "How long, you simpletons,
 will you insist on being simpleminded?
 How long will you mockers relish your mocking?
 How long will you fools hate knowledge?

23 Come and listen to my counsel.
 I'll share my heart with you
 and make you wise.

24 "I called you so often, but you wouldn't come.
 I reached out to you, but you paid no attention.

25 You ignored my advice
 and rejected the correction I offered.

26 So I will laugh when you are in trouble!
 I will mock you when disaster overtakes you—

27 when calamity overtakes you like a storm,
 when disaster engulfs you like a cyclone,
 and anguish and distress overwhelm you.

28 "When they cry for help, I will not answer.
 Though they anxiously search for me, they will not find me.

29 For they hated knowledge
 and chose not to fear the Lord.

30 They rejected my advice
 and paid no attention when I corrected them.

31 Therefore, they must eat the bitter fruit of living their own way,
 choking on their own schemes.

32 For simpletons turn away from me—to death.
 Fools are destroyed by their own complacency.

33 But all who listen to me will live in peace,
 untroubled by fear of harm."

Proverbs 1 above says if we don't listen to Wisdom,

He will laugh when we are in trouble!

Or as in my friend's story above, He just won't warn you!!!

Let's Continue...

As stated earlier, one of the issues God told me to share with the churches for the past 35 years is that He didn't want Coke machines, and all that represents, at the churches.

When I first began sharing this the only issues were that it wasn't healthy for our temple.

In the book I make several points about how they acidify the body, deplete vital minerals, and are very dehydrating, requiring 32, 8-ounce servings of water to replace what 1, 8-ounce serving of Coke burned up.

The next issue presented when I learned that Pepsi was using aborted fetal cell lines to develop flavors.

You'd think a pro-life group would get behind the idea of boycotting those products and yet they remain at most churches today.

And now,

Fluorescent nanoparticles present in Coca-Cola and Pepsi-Cola: physicochemical properties, cytotoxicity, biodistribution and digestion studies

Shen Li ¹, Chengkun Jiang ², Haitao Wang ^{2 3}, Shuang Cong ^{2 3}, Mingqian Tan ^{2 3}

Affiliations + expand

PMID: 29261040 DOI: [10.1080/17435390.2017.1418443](https://doi.org/10.1080/17435390.2017.1418443)

Abstract

Foodborne nanoparticles (NPs) have drawn great attention due to human health concerns. This study reports the detection of the presence of fluorescent NPs, about 5 nm, in two of the most popular beverages, Coca-Cola (Coke) and Pepsi-Cola (Pepsi). The NPs contain H, C and O, three elements with a tunable emission and with a quantum yield of 3.3 and 4.3% for Coke and Pepsi, respectively. The presence of sp^3 -hybridized carbon atoms of alcohols and ethers bonds was confirmed by NMR analysis. The NPs can be taken up by living cells and accumulate within cell membrane and cytoplasm. Evaluation of the acute toxicity of the NPs revealed that the BALB/c mice appeared healthy after administration of a single dose of 2 g kg^{-1} body weight. Analysis of glutamate pyruvate transaminase (GPT), glutamic oxaloacetic transaminase (GOT), urea and creatinine showed that there were statistically, but not biologically, significant differences in some of these biochemical parameters between the test and control groups. No obvious organ damage or apparent histopathological abnormality was observed in the tested mice. The biodistribution study in major organs indicated that the NPs were easily accumulated in the digestive tract, and they were able to cross the blood-brain barrier and dispersed in the brain. In vitro digestion of the NPs showed a significant fluorescence quenching of the NPs. This work represents the first report of foodborne fluorescent NPs present in Coke and Pepsi, and provides valuable insights into physicochemical properties of these NPs and their toxicity characteristics both in vitro and in vivo.

Keywords: Coca-Cola; Foodborne nanoparticles; Pepsi-Cola; biodistribution; cytotoxicity; digestion.

I'm pretty sure we shouldn't be consuming technology by mouth that's being taken up in our digestive tract AND crosses the blood-brain-barrier and is "dispersed in the brain", especially in our Wireless Wild West World.

"At 1/10,000th of a watt, the blood-brain barrier opens, allowing blood proteins inside to disrupt brain signals and start killing brain cells. A cell phone typically transmits at 2 watts."

Waking Times
Wireless, Chemtrails and You

Think of the implications for the vaccine-injured! What is your cell phone and Wifi doing to them? Alzheimers patients!

Go to NoATT.blog and read the Featured Post

You should be asking why they'd want to do that?

And if you start connecting technology in the body to technology in the air you'd be quite shocked by what all is able to be done with this scenario and unless you want to be a remote-controlled "bot" you might want to start paying attention to what the fallen world system is feeding you and doing to your environment to make their nefarious plans come to fruition.

First, God wanted "the churches" to get rid of the Coke machines, junk food, and Rx drug over-reliance as an act of devotion and common sense.

Then it became a matter of morality with the aborted fetal flavoring agents, and still the churches weren't willing.

Now, I can assure you He's trying to protect you from literal technology in these drinks for reasons most readers aren't ready to see but I'm going to attempt to show you anyway.

Wrap your mind around the fact that:

"The Lord will withhold no good thing from those who do what is right."

Psalm 84:11 NLT

He isn't trying to ruin our good times.

He's trying to protect us from the fallen world, from evil's plans!

I headed off into my years of reading and changed my lifestyle over and over as I learned more, praying for continued guidance and seeing immediate improvements to my health literally within a few days from following initial directives. Sadly, when I tried to share what God was teaching me the church people made it very clear that they weren't interested. There weren't any extremes suggested only that God didn't want the Coke machines, junk food, and prayers that only acknowledge a Rx-writing doctor in a church.

Nope!

They had their "ways" and weren't interested in what wisdom dictated. They weren't interested in any ideas that meant they would need to become informed participants in getting well and staying well even from a biblical perspective.

Frankly, it was shocking to see and experience.

Below is a quote from a favorite Bible (The Message-Conversations by Eugene Peterson version) that brought me great comfort.

It's no picnic trying to bring a message of repentance to an indulgent nation.

Note, I don't call myself a prophet but I do carry a message from God for mankind.

It was nice to see that Jeremiah also had to deliver some tough truths and how God expects they should be delivered "truth honestly spoken" and responded to.

.)

Jeremiah didn't twist words or doctor the truth, for the task of a prophet isn't to smooth things over but to make things right with God. The function of religion isn't to make people feel good but to make them be good.

What about the love of God, you ask? It's true; God loves us. But his love is passionate and seeks faithful, committed love in return. He doesn't want tame pets to fondle and feed; he wants mature, free people who will respond to him genuinely and sincerely. For that to happen, truth must be honestly spoken, honestly heard, and honestly responded to. Shame must be felt. Sin must be confessed. And self must be toppled from its pedestal. EP

here's my wording:

It isn't the messenger's job to make the message palatable or to sweeten it up.

The messenger's job is to share the message honestly, not to make people feel good about it or feel good about themselves but to make the people live in accordance with God's

ways so He'll be pleased with them and their lives will be a testament to His presence.

Some messages don't feel good and aren't happy, but still must be given, heard, and responded to in a manner of deep acknowledgment (shame)
and SELF re-evaluated.

And again, we see the call to mature...

He "wants mature, free people who will respond to him genuinely and sincerely.

For that to happen, truth must be honestly spoken, honestly heard, and honestly responded to.

Shame must be felt. Sin must be confessed.

And self must be toppled from its pedestal."

"We are spiritual beings having a human experience."

I continued my journey and was blessed with some coveted gifts along the way.

One of them was a "gift in discernment" to the point that I knew stuff I didn't really want to know but,

"That's how it works. You don't just get to tune in to the nice stuff...

you will also be much more aware of evil and darkness."

Another gift was a **gift in healing...**

Which I was told was for my own education and that I wasn't to tell the pastor or offer it in the church.

Periodically someone presented in my life that I laid hands on in my home for 2 hours as if I was in a classroom until I began learning the lessons He wanted me to learn.

When a healing didn't happen, I got to figure out why not and see what that taught me.

What seemed most blatant was that most health issues were because of what they were eating, drinking, believing, and doing, and where they had placed their confidence, primarily in human ideas instead of God and His ways.

When I'd share with a recipient that they needed to learn what they were eating and drinking and steer away from manmade junk they'd look at me as if I'd lost my mind to suggest that they become an informed participant in the care of their "temple".

THIS is what's being produced in the modern churches!

I reconnected with a woman who'd been in my dad's church when I was a child and used the "gift" on her and a healing event took place in my living room that shocked me so much that I backed off of offering the sessions realizing what this could do to the order of my life if this became known. I didn't want people showing up at my home all hours of the day and night insisting that I "Heal Them" or their child or...

"so they could return to the error that caused the issue in the first place".

She quit her seamstress job and bought a health food store and became very active in acquiring knowledge. It was the woman she bought the store from who vomited up a bunch of "chunks of tissue and bile" when I prayed for her. She was a very interesting learning experience and was the second time the outcome was more than I expected but again showed me that defying physics is nothing for God and I now have it in my "faith bank" and know the possibilities.

This likely makes me a more suitable vessel for future events, knowing I won't panic or act irrationally.

**The problem was that I became aware that people weren't willing to change their ways
and realized how inappropriate that was.**

We can't create sickness AND expect God to heal us so we can continue doing it.

I went into a deep depression for 3 weeks.

Finally, I gained the courage to tell God,

"Thank You very much for this gift but I don't want it.

**If people aren't willing to do their part to maintain any healing they receive,
then I'm not willing to help them ignore Your wisdom
and standards and take You and me for granted..."**

The silence was broken a few days later when I heard Him say,

"Now you know how I feel".

And that moment is when I believe the book idea was born though it would be a few more years before God would make that known to me.

I can say with conviction that God responds to EFFORT and loathes laziness.

I've watched many good people pass away with tons of prayers being said because they weren't willing to change, or read a book, or pursue what they say they wanted.

They wanted "it" handed to them so they could continue unfettered
and

He's not that kind of Father

And I'm not that kind of healer.

As previously mentioned, He will walk with us through our consequences
but He's not likely to remove them.

HE LIKES EFFORT...lots of EFFORT, just like any good parent.

Obeying the Call to Write the Book

God told me He wanted me to write it in June of 1992. Two years later I hadn't written one word.

I'd already learned that the church crowd wasn't willing to hear or heed and felt it would threaten my marriage if I did for reasons I couldn't articulate.

I wasn't wrong.

July of 1994 when I fell from an unrailed bridge while cycling with a friend is what caused me to start writing. The broken back gave me plenty of time to contemplate matters and I began writing the first day I woke up in my own bed after two months in the hospital. I worked on it for 16 years of our 25-year marriage and he never mentioned it one time.

I expected he'd get over that at some point.

Instead, he started drinking heavily with coworkers in his out-of-town-all-week-job and I never got to see a better ending to this story.

Circumstances eventually made it clear that if I was going to finish this book and calling, I was going to have to give up my husband, my daughter, and my new grandbaby I'd cared for heavily for the first 19 months of her life while her mom attended a vocational school.

I was doing this while I was deeply resented by my daughter and husband and facing another health crisis due to mold exposure in my office, which created massive systemic inflammation AGAIN.

I was also feeling a \$150,000 financial business loss in the 2008 crash. It was a business that finally brought me respect, accolades, and deeper spiritual experiences and it too was taken.

Over time, everyone and everything that stood in the way of the book, or didn't support its creation, had to be surrendered.

While I saw why this was necessary, it broke me deeply for over a decade.

I kept typing because things kept happening to show me this was an important mission.

I left them in March of 2011 and published the book in April of 2015, after 21 years.

It immediately began dropping readers to their knees in tears.

Four of them were men and that's when I knew for certain.

Until that moment I was only following that Inner Guide and hoping my sacrifices would matter.

"There is no greater love than to lay down one's life for one's friends."

John 15: 13 NLT

I saw God reach out to my husband and daughter several times, but He just wasn't their priority.

Granted, they didn't have the same level of encounter I'd had, even as a child.

They hadn't "chased Him" and seen His hand move the world repeatedly...I had.

I do believe they saw enough to be accountable, but I also see that
what God wanted me to do couldn't be done in an environment of chaos.
He had a "take no prisoners" mindset and I'd made Him an "open-ended" deal.
"My future for His presence" when I was in trouble,
I had no choice but to continue showing up.

What's Possible from Living a Surrendered Life?

One benefit is that I haven't been to a mainstream medical doctor for illness since 1990.

I was taught how to "possess my vessel in sanctification and honor"
as First Thessalonians 4:5 puts it.
Or in my words,

"I learned how to take care of my physical body so I wouldn't be humiliated, dishonored
and financially drained in the process of managing my health".

While I'm very grateful for the trauma skills of mainstream medicine,
when it comes to restoring health, they have an unacceptable track record
with methods that defy basic common sense, can and do harm,
and financial goals that conflict with what's best for the patient.

Rx drugs are not vitamins

and most health
issues are due to nutrient deficiencies,
toxic overload, toxic relationships,
and these days, the environment, (chemical and electrical).
Rx drugs address none of that!

None!

If the consumer is the most powerful force on the planet

and a large demographic group like "Christianity" has accepted wrong ideas, harmful remedies,
wrong mentors, and wrong systems that destroy health, creates a negative financial impact,
are destructive to the environment, and threaten the future,
the world ends up looking like our world currently looks.

Hopefully when we know better, we'll do better and therein lies my mission.

To inspire CHRISTians to eat, live, and medicate to create a healthier body, mind, and spirit so they'll have
better spiritual discernment and be encouraged to find their life purpose and develop their unique gifts
outside of the established norms that no longer serve us!

Stay With Me...you're about to see the Hand of God again!

A few days after I uploaded the book on Amazon.com another providential event happened.

A woman contacted me who'd just received the book.

"I stuck my thumbnail in what I thought was a random place and my eyes
fell on the name of Dr. Tenpenny.

Does she know she's in your book...she's about to, she's my neighbor and my doctor."

I laughed and said, "Well that would be God's doing. I put Him in charge of marketing."

I then explained that becoming its author had ripped my life apart.

"When I finished it, I held my laptop up toward Heaven and told God
'Here's the book I'm pretty sure You asked for.'

I don't know what happens with a book from this point, but I'm emptied out.

I'm exhausted, I'm broke, and honestly, I'm a little angry.

So, You're going to have to take it from here..."

This call made it apparent that He had done just that!

In a few months this world-renowned medical doctor introduced me on a
nationally syndicated radio show.

You can listen to that interview on the GettingWellGodsWay.com website:

<https://gettingwellgodsway.com/2015/09/23/archived-audio-from-interview-on-the-robert-scott-bell-show/>

I then received a private message from a woman reporting that
she'd had a miraculous healing while reading the book.

"I took a page out of your playbook and..."

I put her video story she recorded and supporting screenshots on the GettingWellGodsWay.com book blog.

Search for the words "reader has supernatural healing..." or click the link below:

<https://gettingwellgodsway.com/2018/02/04/reader-has-supernatural-healing-reading-the-book/>

Then another woman reached out,

" I don't know how to eat for my condition" of Rheumatoid Arthritis".

I suggested she "Tell God. Ask for His guidance and then wait to see what happens."

She wrote to me a few hours later in tears telling me that she'd done that and then went to the natural foods' grocery store and a Hispanic woman stepped out in front of her and said,

"God sent me to show you how to eat..."

and she walked her through the entire store showing her what to eat and what not to eat, teaching her why and why not, quoting bible verses where appropriate.

"Kathy, I think she was an angel."

Kathy agrees...it sounds exactly like my own journey.

BTW: this reader was very active in church and best friends with the pastors and church leadership but had no awareness that God would engage with her in this way.

This is part of the private message exchange we had after she came back from shopping.

Amen! He knew exactly what I needed!

I'm still taken back from the experience and that God really loves me and hears me!

I'm still crying, I guess in a sense of disbelief that He heard ME, someone who isn't but a grain of sand compared to Him... completely and utterly humbled...

As you see in the stories above, once you commit to living a lifestyle like this there are moments when it does feel like you've stepped off into a bit of magic...

more fully into God's awareness of you is how it seems.

As if we finally tuned in to the exact broadcast frequency.

The information, products, and people I need show up consistently, and they will for you as well IF you get in alignment with God and His Ways and stop expecting Him to bless wrong efforts.

I do struggle with His timing sometimes but that's when the testing of my faith happens.

I'm also not saying life is perfect as my story clearly illustrates that the challenges can keep coming.

I'm saying that you will PERCEIVE that you're being helped from the cosmos as you migrate through what many call this "Earth School" where the priority seems to be maturing and development of our "spirit", which can dictate that challenges be overcome.

Then a woman in Australia who heard the Dr. Tenpenny broadcast reached out through Facebook and I emailed her the book introduction which she read and then read to her husband.

She eventually read the entire book to her husband and the entire brood of seven children!

Her husband wanted to talk by Skype and halfway through the 3-hour call he said, "I have to tell you that about ten minutes after we started talking, I started crying and I haven't been able to stop. When you speak, I hear God talking and I haven't heard Him in a very long time."

He continued sniffling for the remainder of the call.

Then another man reached out and bought 50 copies of the book
to pass out around his town in Maryland.

At the end of the call, he too began crying and said,
"You're a messenger sent by God and if we don't listen to you,
we deserve what happens to us next."

Then another woman reached out,
"Reading, reading, reading your book and wondering why it isn't mandatory reading for all".

A woman I worked with bought the book
and her husband approached me at a birthday party sharing that he was waiting for her to come home from
work and picked up the book and began reading the introduction.

"When Desiree came home, she found me on my knees in the living room in tears.
You're right!"

Then a man I met in the grocery store who approached me.
He ended up buying a book from me. About six weeks later we spoke on the phone, and he too began crying.
He's an electrical engineer so when he read what I'd written about our wireless/electrical world
he cried saying,

"OMGosh, we've overlooked something very important and now to be frank, I'm scared".
I didn't relieve him of his fears as we had a shared experience of having our eyes go completely out
of focus as if aligning with an electrical/current. It also happened to my mom, but he was in a room
full of witnesses confirming that humanity is in unfamiliar and dangerous territory with all of this.

I shared this issue in the Public Health Warning document I created in the fall of 2022 showing how
humans and migratory birds are known to have magnetite crystals in their brains that help guide them, and
how they're reportedly getting lost in our modern world.

I created a document in the fall of 2022 after 7+ years of wireless injury.
It's my effort to show you what all is being built around you and what's happening to your fellow man,
children, pets, wildlife, and the eco system that you should know about and respond to.
I put it on the NoATT.blog site where you can read and follow live link and print copies to distribute.
<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/04/18/public-health-warning-document-w-instructions-for-action/>

"We've arranged a society based on science and technology in which nobody understands *anything* about science and technology. And this combustible mixture of ignorance and power sooner or later is going to blow up in our faces."

-- Carl Sagan, in his final interview on 5/27/96

TheTruthAboutTechnology.org

My phone was going crazy with notifications from people talking about the book and the race was on!

But then...something happened that changed everything!

If it's not already obvious, little happens "randomly" in my life.

Everything seems to be God making me live out that "deal"

and using my life to teach others.

He's big on trying to help humanity see what they need to see, and He had one more HUGE insight to share, so the book got an update and another update and another...

to its current new title, new cover, and new content

that makes it read like yesterday's news.

The Book Had Been Out About 18 Months When

I began having some unusual symptoms and couldn't figure out the source

until I upgraded my cell phone and noticed my hands ached when I held it.

A few weeks later I touched the screen of my mom's cell phone, and a pain shot up my arm that felt like a blood pressure cuff was at the point where you think you might slap the nurse, and it remained at that intensity for two hours before it began easing up.

I knew something serious had happened to my nervous system and suspected it was highly unlikely that any doctor would know what to do for me or would even have any options.

I also expected this wasn't going to be a "quick return to normal".

Fortunately, the previous years, the book I'd written, and my online connections with other health hackers, laid a great foundation for God to continue guiding me through these now, much more treacherous waters and one of them replied to my hasty inquiry.

"If you've ever been sensitive to mold or heavy metals then you're at a high risk for being sensitive to electrical and magnetic fields especially from wireless tech."

WHAT?

Well let's see, the **mercury dental fillings** at 21-years-old caused a grand mal seizure but nobody caught the connection so yes, I'd say that could be a trigger. Those "mercury" dental fillings ended up being a big part of the other health issues I developed as they made me more conductive in a crazy electrified modern world and became a free radical factory destroying my thyroid.

I likely have one of those "genetic mutations" known as MTHFR, which is very common and means my body cannot detoxify from exposures to toxins as quickly as others.

There's quite a few of us on the planet with you.

We are God's early warning message system.

There's reportedly 10 to 15% of every species that are "the weaker ones" and when we start saying, "I don't feel well when I'm around _____", people should listen.

The same way they listen and respond to a fire alarm.

We are environmental warning messengers because the bees can't type and make calls, so, God has some of us humans do that part.

Yes, there are some goofy people among us that we might consider as having mental issues, but with all the poisons being unleashed on humanity from the food, air, water, and beyond perhaps the benefit of the doubt should go to the person complaining for a change, instead of the benefit of the doubt being given to the product or the corporation who put it out.

You can learn more about your fellow man, (your warning messengers)
and the MTHFR gene mutation at this link:

<https://www.amymyersmd.com/blogs/articles/mthfr-mutation>

THIS EXPERIENCE I had adding methylfolate becomes much more meaningful once you recognize that **Multiple Sclerosis (MS) is the erosion of the myelin sheath around the nerves and so many other**

diseases are also a result of this "sheath" being eroded. Having nerves without an insulated coating on them in a wireless wild west world is not a good experience!

Here's one more link for google docs on this genetic mutation:

https://drive.google.com/drive/folders/1EmTzfDb6IphfzEk_uh1jv9uNDX2ffs6?usp=drive_link

As stated earlier, those genes need triggers and in order to undo the issue presenting you have to see what triggered them and deal with it on every front.

The WEEP Initiative is a Canadian Effort website about this condition and has many great tips on identifying sources and surviving them:

<http://weepinitiative.org/index.html>

They have a dense blog at the link below about the subject of EMR
(Electromagnetic Field Radiation aka EMF's)

<https://weepnews.blogspot.com/2009/03/electromagnetic-radiation-out-ouruhia.html>

Mold is another toxic intruder that's making people sick

and is mostly unrecognized by mainstream medical practitioners, as are parasites in general.

People like to believe that "civilized Americans" don't have parasites, but these micro-organisms of many varieties such as worms or fungal organisms are living, eating and eliminating critters just like we are. They eat, drink, pee and poo and if they're in your body these waste products are called "mycotoxins". They can be found in our soil and therefore in our fresh vegetables and can be acquired through contact with our pets. Parasites and fungal organism should not be eliminated as relevant factors of health maintenance and recovery.

Mold is what drove me out of my beautiful office and threw my body back into massive inflammation.

Dr. Klinghardt says that wireless technology actually causes fungal organisms to be 600 x more active. If you stop and think about that I imagine a "fungal storm" in the body, which will not lead to health but will tax the system as it attempts to overcome this.

Again, if you don't properly identify what's CAUSING the issue and turn that off then it's akin to mopping a flooding room without turning off the source.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/02/27/the-new-virus-is-fungal-guess-what-microwave-radiation-does-to-fungus-makes-it-600-x-more-active/>

As it turns out, **Multiple Chemical Sensitivity** (MCS) is also an expected companion of a person who's "electrically sensitive" as it agitates the same neurological pathways. For many years before I was ever

injured by electrical currents, I'd have to literally hold my breath and make a fast and determined run down the laundry soap aisle at the grocery store because it gave me a headache or a general ill feeling.

Last year Mom accidentally bought some Gain-scented disposable dusters.

I was shocked that it felt exactly like I was being exposed to a wireless technology.

I even asked if she'd used her "for emergencies only" cell phone on and brought it in the house?

I reported in the book (2014 statistics) that the USA was processing and distributing 30,000 pounds of chemicals per person annually and most of it wasn't being safety tested.

So, yes, I expect some fellow humans aren't feeling well or acting their best.

You'll find a PubMed, Nat'l Library of Health article here showing scientific conviction that chemical exposure plays a role in this condition so

if you're already noticing that you don't like being around scented cleaning products,
scented laundry products, people with cologne...

THIS IS A WARNING SIGN

about your potential sensitivity to electrical and wireless,

which is a cumulative condition so more chemicals + more wireless won't lead to abundant health!

Electrohypersensitivity as a Newly Identified and Characterized Neurologic Pathological Disorder: How to Diagnose, Treat, and Prevent It

Dominique Belpomme ^{1,2,3,*}, Philippe Irigaray ^{1,2}

► Author information ► Article notes ► Copyright and License information

PMCID: PMC7139347 PMID: [32168876](#)

Abstract

Since 2009, we built up a database which presently includes more than 2000 electrohypersensitivity (EHS) and/or multiple chemical sensitivity (MCS) self-reported cases. This database shows that EHS is associated in 30% of the cases with MCS and that MCS precedes the occurrence of EHS in 37% of these EHS/MCS-associated cases. EHS and MCS can be characterized clinically by a similar symptomatic picture, and biologically by low-grade inflammation and an autoimmune response involving autoantibodies against O-myelin. Moreover, 80% of the patients with EHS present with one, two, or three detectable oxidative stress biomarkers in their peripheral blood, meaning that overall these patients present with a true objective somatic disorder. Moreover, by using ultrasonic cerebral tomography and transcranial Doppler ultrasonography, we showed that cases have a defect in the middle cerebral artery hemodynamics, and we localized a tissue pulsometric index deficiency in the capsulo-thalamic area of the temporal lobes, suggesting the involvement of the limbic system and the thalamus. Altogether, these data strongly suggest that EHS is a neurologic pathological disorder which can be diagnosed, treated, and prevented. Because EHS is becoming a new insidious worldwide plague involving millions of people, we ask the World Health Organization (WHO) to include EHS as a neurologic disorder in the international classification of diseases.

Keywords: electrohypersensitivity, multiple chemical sensitivity, neurologic disease, oxidative stress, melatonin, O-myelin, inflammation, histamine, radiofrequency, extremely low frequency, electromagnetic fields

Electrohypersensitivity as a Newly Identified and Characterized Neurologic Pathological Disorder:

How to Diagnose, Treat, and Prevent It

https://pmc.ncbi.nlm.nih.gov/articles/PMC7139347/?fbclid=IwAR1DrLjrNI-Am9mUaaq-8MiGyL7pAPI_y8SJDMpi635548J6MPOIhrsXFgQ

For me, it's impossible not to see this as intentional overloading of the human body!

Everywhere I look I find evidence that THEY KNOW what they're doing.

Therefore, it behooves us to avoid as many of their pitfalls as we can.

THIS is best done by acquiring knowledge!

When did we forget that we shouldn't trust the government?

The great news is that

there are meters to confirm healthy & unhealthy electrical issues,
and a wise person would acquire some and learn to use them to filter their environment from this
stuff instead of mindlessly bringing it all into your environment.

Remember, "Behold I send you in as sheep among wolves. Be ye therefore wise as a serpent...".

We are not in friendly territory on this Earth and should not forget that fact.

There are many consumer-level meters available.

We'll talk about those and other protective measures at the end of the document
where you'll likely want to spin off and do a bit of research.

Taking some basic readings can help confirm complaints
and provide guidance to methods to improve readings by filtering or "caging" the technology.

An Electrical Engineer Speaks Up

When I was first injured, I posted an inquiry on NextDoor.com asking if anyone could comment
on the safety of the massive cell tower in our neighborhood.

NextDoor.com almost immediately deleted my post and disabled my account for even asking
but before they did, I captured this reply:

What you are saying is all true. I am an Electrical Engineer who
worked in the Semiconductor field for 20 years and we used to do
EMI testing for compliance (which is an arbitrary value set by the
people who are supposed to be protecting us but they are also
sitting on the boards of these private corporations, so definitely a
conflict of interest.) and the reason for that is to make sure that I am
interested in coming and learning more about EMI and cell phone
effects on soft cell tissue. I am afraid a whole generation of young
people are being insidiously harmed by this and the so called
protecting agencies do not care. Yes, wiring your home is good, I
have done that to my house as well and I also have wired my house
so most of my bedrooms are quiet and do not have these toxic EMI
and electrical fields. I have a RF meter that I go around to check for
strong fields and tend to avoid those places. You can put me in
your contact list. Here is my e-mail: [REDACTED] I am sad
and also excited that people are beginning to see the harmful effects
of it and as more people learn of the toxic effects of technology we
can force our corporate peddlers that claim to be "doing good" but
in reality are destroying or at least causing major harm to this human
project.

I created a document in the fall of 2022 after 7+ years of injury and isolation where I work from a hardwired, grounded, screenfiltered stationary desktop computer and only use a corded landline telephone. The document at the link below is my effort to show you what's being deployed around you that you aren't aware of and I keep finding more!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/04/18/public-health-warning-document-w-instructions-for-action/>

In that creation you'll read of an experience me and Mom had the very week they turned on a new red light about a mile from our home. Be aware that my mom does not have "electromagnetic hypersensitivity" and has never shown any tendencies to chemical sensitivity. The new red light was next to two large new apartment complexes, all with "not smart" electric meters, and the red light had some new white rectangle box hanging on the line. Another intersection down a few lights had at least 4 antennas and several new kinds of "hardware" hanging on the power lines and mounted on a pole on one corner.

It was like a sea of technology being deployed.

Be sure to note the comments below the image...looks like I'm not alone in my calling to help open eyes!

I was outside collecting eggs from the coop when my eyes suddenly felt like they lined up vertically for about 10 full seconds. I noted that I had on rubber soled shoes and was therefore "ungrounded" but certainly had the notion that some new tech had been turned on nearby. A few days later it happened to my mother, and she had no idea it had happened to me as she was out of town and I hadn't told her.

The only difference is that her eyes felt like they were aligning horizontally.

Therefore, it's affecting people who aren't as sensitive as I am too!

The electrical engineer I met in the grocery store shared that he was working on a project with a group of associates, and they were at one of the men's apartments when his eyes started aligning in an abnormal way.

He shared that it lasted several minutes and was witnessed by his coworkers.

Noted is that they were in an apartment complex so lots of "not smart" electric meters, WIFI signals, laptops and cell phones were in his immediate environment.

He has no history of being electrically or chemically sensitive.

Through all of this I learned

that a knowledgeable building biologist aka an EMF mitigation expert, or some basic knowledge about meters and filters can be a more important first step to resolving health concerns than a Rx-writing doctor or even a natural health practitioner.

Any medical professional seeking to guide you toward better health who doesn't look at your diet, environment (including electrical measurements), and relationships can be well-meaning but completely miss the likely sources of illness, and thereby, miss the obvious remedy.

Symptoms of Microwave Illness		
https://www.microwavedvets.com		
Headaches	Difficulty Concentrating	Tinnitus
Dizziness	Memory Loss	Hearing Loss
Nausea	Brain Damage	Irregular Sleep Pattern

Body Metals Redistribution	Sperm Motility	Chest Pain/Pressure
Leukemia	Miscarriage	Heart Arrhythmia
Lymphoma	Electromagnetic Sensitivity	Heart Palpitations

A true doctor would examine all of your life!

I used to do this by having a detailed intake interview with my clients.

What foods do you eat? What's your choice of drink?

Do you drink soft drinks? How many? What kind?

Do you drink water? How much? What kind?

Do you consume sugar? How much? What kind?

Do you drink coffee? How much? What kind?

Do you use salt? How much? What kind, refined or unrefined?

I went over their lifestyle with them in detail and would usually be able to tell them what I saw as a likely cause of whatever they were having issues with just by this process alone.

IN THIS MODERN WORLD,

a true health practitioner

would understand that wireless (and wired) technology is a source of sickness

and either know how to remedy it or know someone who knows how.

They'd make a point of knowing your electromagnetic exposure history as many are doing a "scan" for a knee, the next doc orders a mammogram, the next doc wants a chest Xray and before you know it, you're loaded up with electromagnetic radiation beyond the advisable limits but as a rule

the medical offices aren't asking these questions

and the patient has no idea they should be speaking up.

Sadly, I'd venture to say that all of them, except the safe tech practitioners, are carrying an unprotected cell phone exposing themselves and everyone around them to pulsed, microwave radiation and have no clue it's even an issue...YET.

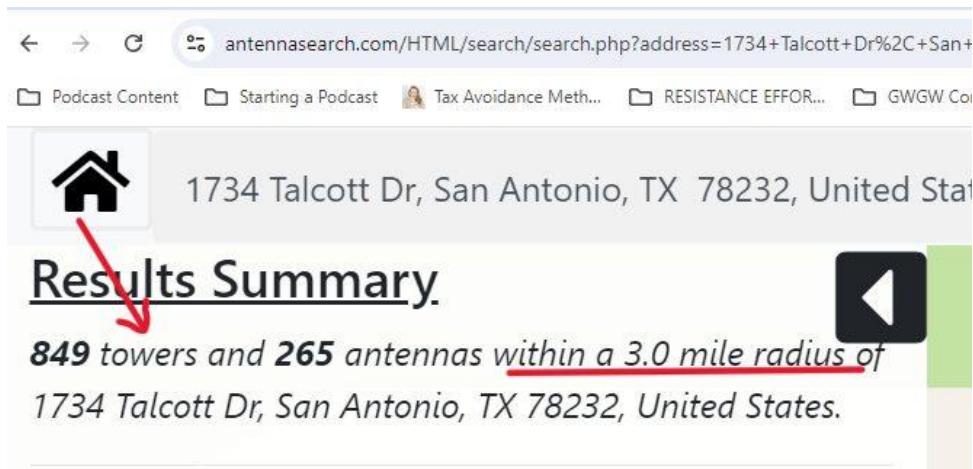

One thing I do online is point out the wireless assaults to the people posting pictures of themselves sick and in the hospital or in their bed or around other sick people.

Most egregious is this kind of thing:

Terminally ill children being given THC extracts and all the buzz about using "plant medicine".

While everyone around these children are carrying a cell phone, holding the baby with a cell phone in their hand right by the baby's head no less, cell phones on the nurses, the doctors, the lab techs, Wifi in the buildings, and their homes, and ten cell towers in a 3-mile radius or like my friend,

849 of them and 265 antennas in San Antonio, Texas.

Results Summary

849 towers and 265 antennas within a 3.0 mile radius of
1734 Talcott Dr, San Antonio, TX 78232, United States.

"Not smart" electric meters OR an entire bank of them possibly on their bedroom wall, satellites leaking radiation in low earth orbit, weather, military, and airport radar.

And NOBODY sees the connection???

Hello?

My book will have you looking in your closet to see how many polyester clothes you're wearing and what kind of shoes you're jamming your feet into and if you have any time outdoors without sunglasses and shoes.

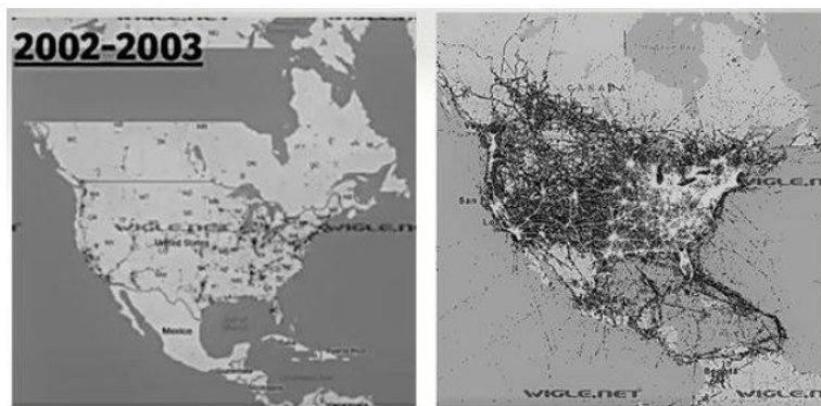

A practitioner can learn a lot from a visit to the client's home or at least a detailed intake.

A Home Visit allows you to FEEL things in their world you won't learn on an intake.

Let's Take A Look at our Modern World

You can go to WIGLE.net to construct your own map of tech saturation.

How would you like to be "hyper sensitive" to wireless technology in today's world?

As of 7/29/22 there were 18 million cell towers. Today, 8/14/24 there are now 24 million+ cell towers!

As of 7/29/22 there were 920 million Wi-Fi networks. Today, 8/14/24 1 billion, 386 million, 997 thousand, and 90. (1,386,997,090)

As of 7/29/22 there were over 1 billion BT devices. Today, 8/14/24 there are now almost 3 billion (2,902,779,521)

It's like the entire world has taken up cigarette smoking and those of us who feel the effects of this are completely ignored, as if that's an intelligent response. The same attitude is being shown towards the environment in favor of technology.

When you go look at TheTruthAboutTechnology.org
you'll likely be horrified.

Be sure to visit the Images That Teach category there too!

This is our eco system that feeds us and it's under assault
by a mostly invisible but measurable weapon!

CWD = Chronic Wasting Disease
aka a Neurological Disease similar to Mad Cow Disease

- Dec 9, 2023...CWD FOUND IN 1/2 of states in the USA. First time ever in Yellowstone and Kentucky in recent weeks. THIS level of electrification of our world has never been done before so what would you expect?
<http://neighborsorganizingagainsttrespassingtechnology.blog/2023/12/10/one-half-of-them-in-the-usa-now-have-cwd-chronic-wasting-disease/>

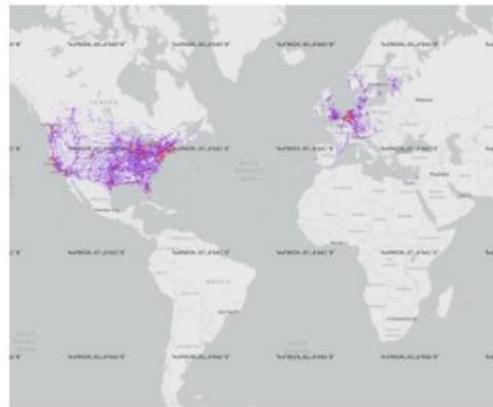

<http://neighborsorganizingagainsttrespassingtechnology.blog/2023/12/10/one-half-of-them-in-the-usa-now-have-cwd-chronic-wasting-disease/>

Here's another view of this progressive invasion:

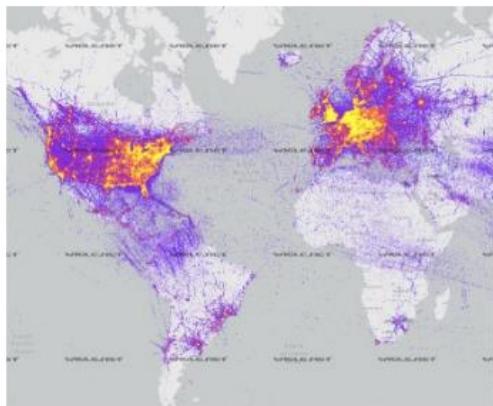

2G (1996)
17,000 cell towers (USA)

3G (2006)
195,613 cell towers (USA)

4G (2016)
210,000+ cell towers (USA)

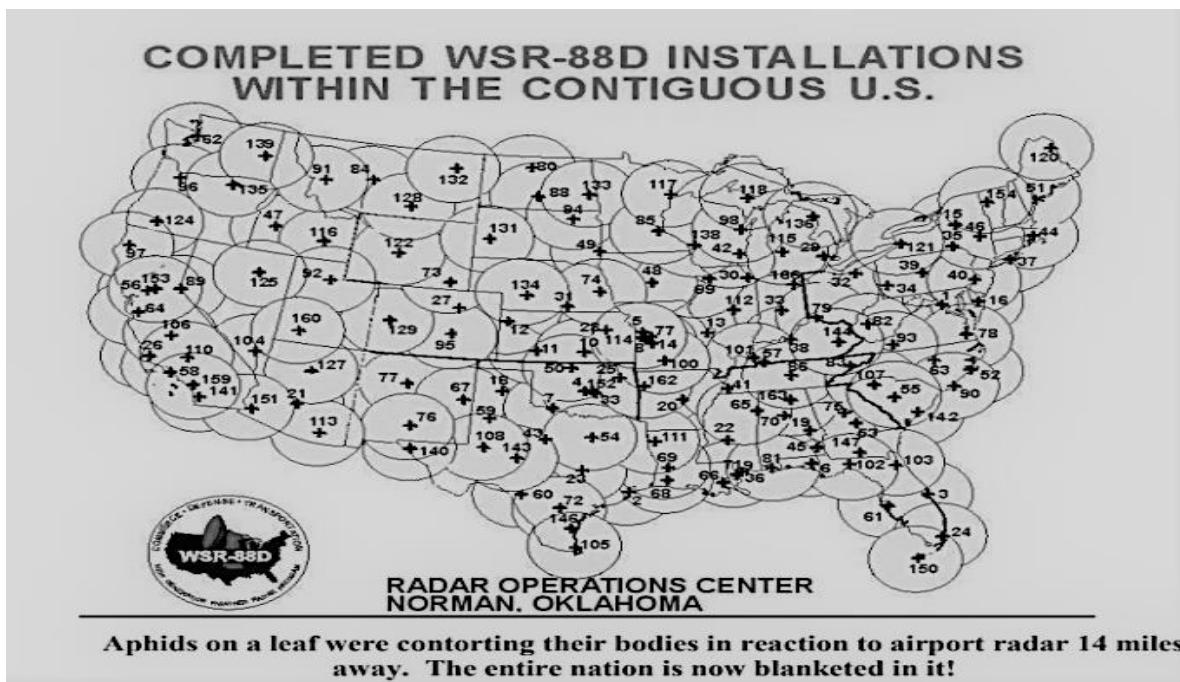

5G (2019 and Beyond)
800,000+ NEW towers by 2025 (USA)

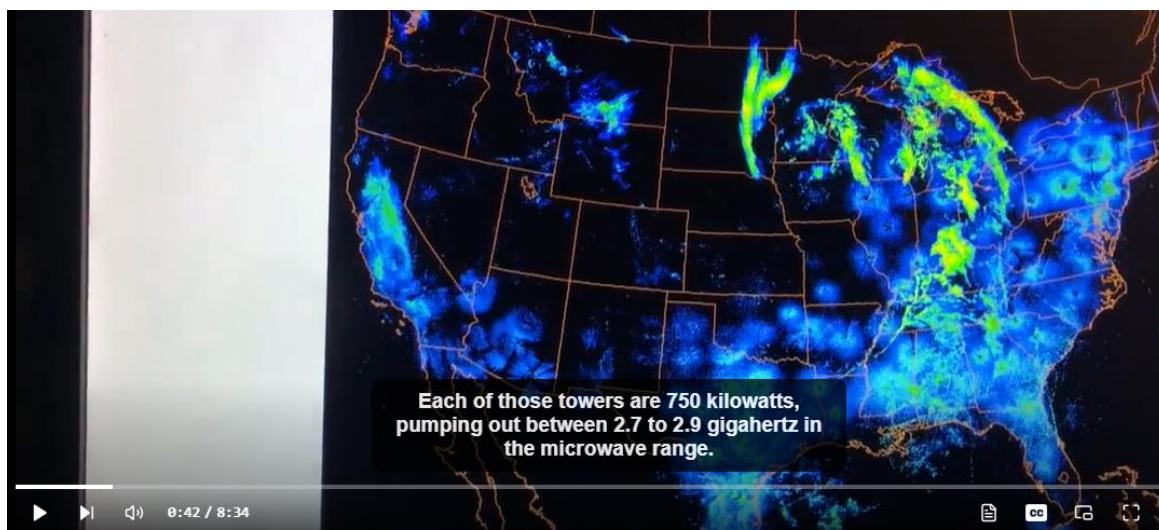

Below are the radar installations across our country!

This is "blanketed electromagnetic radiation".

Notice the areas of common densities in these two maps!

Telecom's Weaponized 5G Caught in the Act While we Sleep

NEXRAD Exposes Telecoms' Dirty Secret: The 5G Smoking Gun. Been feeling funky lately?

REINETTE SENUM
APR 29, 2024

Beyond the Edge

Political Insights from the Edge Looking In

At this link you'll be able to view an 8+ minute video showing what's happening in that lower map

where you'll see our world being "lit up" by microwave radiation/towers for 12 hours at

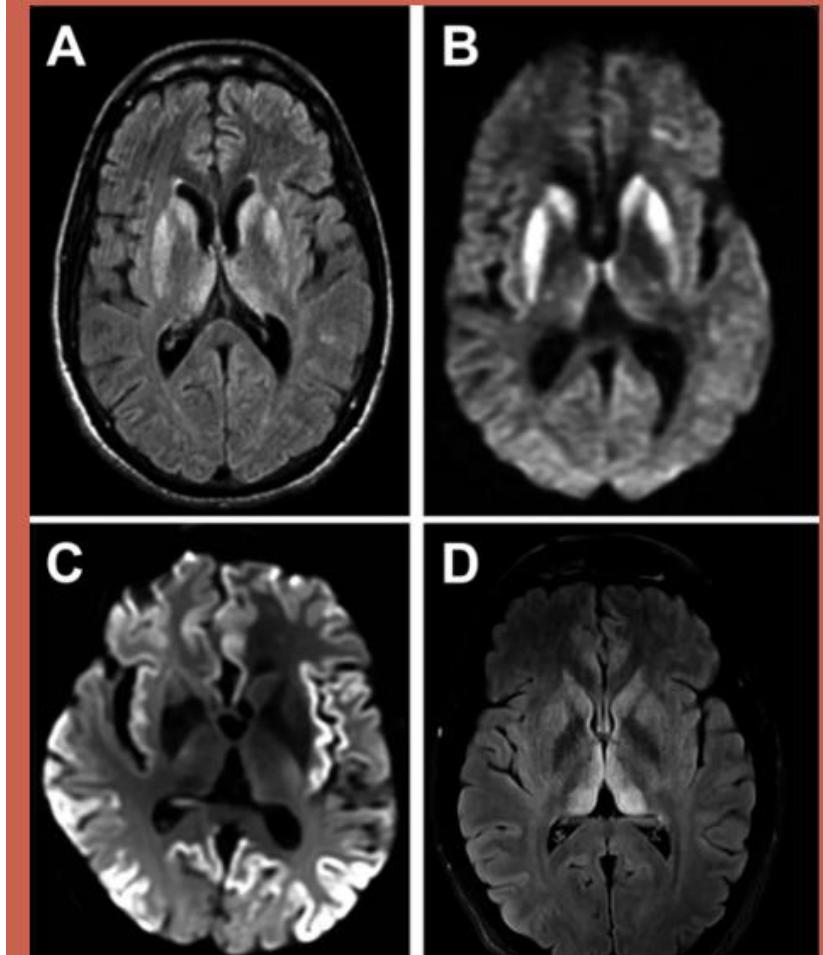

night. https://reinettesenumsfoghornexpress.substack.com/p/telecoms-weaponized-5g-caught-in?utm_campaign=post&utm_medium=web&triedRedirect=true

Note the reference to Mad Cow Disease in this graphic below and remember the CWD noted in Deer!

These 750 kW pulses from 159 NEXRAD towers and 160 Doppler stations emit 2.7-2.9 GHz frequencies, disturbingly close to those of a microwave oven. And they're hitting us for 12-14 hours straight each night while we sleep.

Why is this alarming? A growing body of research links chronic low-level microwave exposure to various health issues. It can suppress [melatonin production](#), disrupting sleep and circadian rhythms. EEG studies show it alters [brain activity](#) and electrical signaling. Animal studies suggest it impairs immunity, alters heart function, and even causes [misfolding of peptides](#) - a known factor in neurodegenerative diseases like Alzheimer's, Parkinson's, and Creutzfeldt-Jakob (the human form of mad cow disease).

Share

I brought up the idea that the new FORCED electric meters here in the Ozarks, known to be deadly and having Alzheimer's as the top listed adverse affect could be a big factor in the CWD in the White Tail Deer population on a local "facebook chit chat". It prompted this screenshot after fielding some expected laughter and mocking,

but then this happened and I caught it:

I've written everyone in the state of Arkansas and NOBODY CARES.

You should be asking why and who's doing this.

At this link you'll see a video of aphids flipping their bodies in unison.

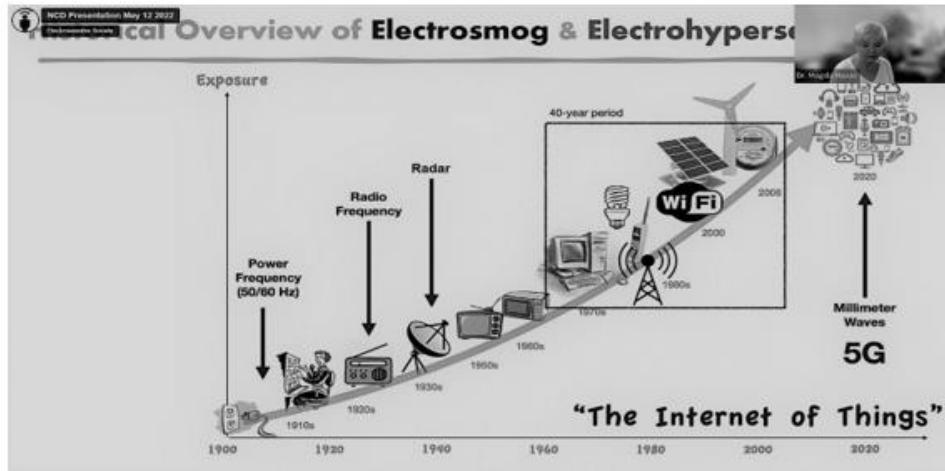

They finally determined they were reacting to an airport radar installation 14 miles away.

We are playing with things we don't understand as if we do.

Titled: Dancing Aphids-Radar Excitation-John Ott YouTube.com

<https://www.youtube.com/watch?v=018C2oG2Rcs>

Go watch that little 4-minute video and you'll see clearly how living things are affected by our stupid human ideas!

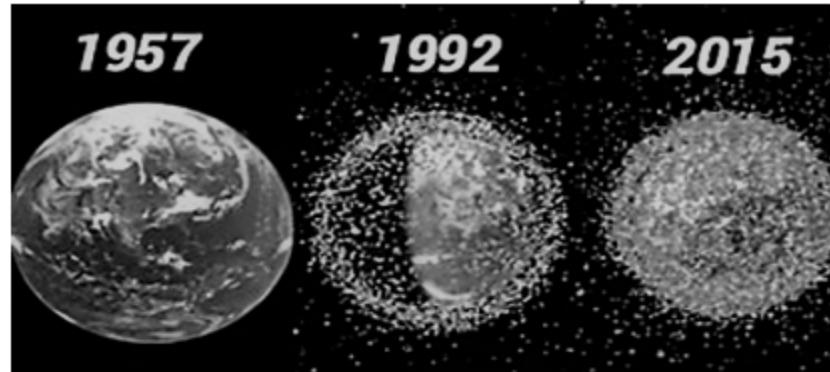

It's gone too far! Meter readings, human reports, wildlife studies say, "it's gone TOO FAR"!

"...it was not uncommon to be met with the sometime scathing suggestion to go live in the Amazonian wilderness, as that seemed the only place left for us. Sadly, this assumption proved to be false. The Amazon is actually now one of the most EMF contaminated places on Earth...in the form of 'twenty-five enormously powerful surveillance radars, ten Doppler weather radars, two hundred floating water-monitoring stations, nine hundred radio equipped 'listening posts', thirty-two radio stations, eight air-borne state-of-the-art surveillance jets equipped with fog-penetrating radar, and ninety-nine 'attack/trainer' support aircraft, [all of] which can track individual human beings and 'hear a twig snap' anywhere in the Amazon." WIFI REFUGEE: PLIGHT OF THE MODERN DAY CANARY by Shannon Rowan (pg 225)

What Else Is Above and Around Us That's Adding to the Load?

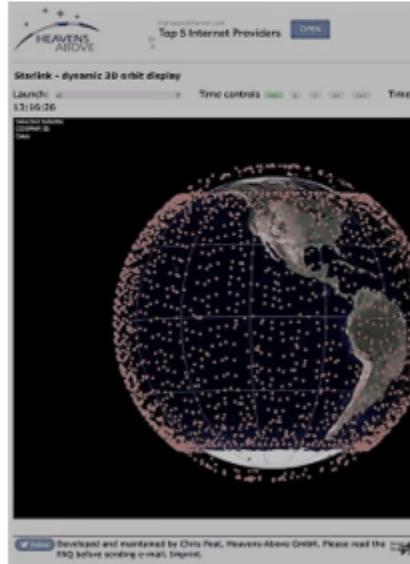

Satellites...lots and lots of Satellites!

I wonder how it looks now, 7 years later after a huge rollout of 5G antennas and Elon Musk's satellites of recent years.

As for the question of how many satellites in Low Earth Orbit, I've seen counts all over the map. One source reported 4952 and another source says 7500. "In total, there were around 7,500 satellites in LEO as of September 2021, according to the United Nations' [Outer Space Objects Index](#)." The following link will answer many of your questions: <https://www.livescience.com/how-many-satellites-orbit-earth>

Note: If the image below looks like fast internet downloads, you need to think again. Instead, think of facial recognition, social credit score, total tyrannical control of every inch of the Earth. Did you vote for this? No? Actually, we do it every day that we continue to buy, use, and accept this technology overreach!

"Elon Musk is hoping to send 42,000 of these satellites to space, 15 times the number of operational satellites in orbit today. It's part of Starlink, the expansive constellation from Musk and SpaceX that hopes to bring the world low-latency high-speed internet, promising no more buffering and nearly instantaneous internet in every corner of the world. But experts worry it may come at a hefty cost for space exploration." Here's the link: <https://www.businessinsider.com/how-elon-musk-42000-starlink-satellites-earth-effects-stars-2020-10> According to this site, big tech has received approval for 100,000 satellites! 3 min video: <https://safetechinternational.org/microwaving-our-planet/>

Elon Musk's Starlink Satellites Could Be Eroding Earth's Magnetic Field

and Slowly Poisoning Us All" Ex-NASA Scientist Warns

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/04/24/elon-musks-starlink-satellites-could-be-erodingearths-magnetic-field-and-slowly-poisoning-us-all-ex-nasa-scientist-warns/>

Particles from these satellites at the end of their lifecycle could 'distort or trap the magnetic field' that **keeps Earth's atmosphere from escaping**, the physicist said, 'with all of the highly-conductive metal trash that is all settling in one region.'

Although she notes it is an 'extreme case,' such a layer of charged metal dust could lead to 'atmospheric stripping' akin to **the ancient fates of Mars and Mercury**.

After working on NASA's comet-catching Stardust spacecraft research team in 2012, **Dr Solter-Hunt** spent three years at the US Air Force Research Laboratory.

There she studied the electromagnetic behavior of plasma plumes in low-Earth orbit (LEO), the region of the upper-atmosphere where Starlink's orbital network resides. She now consults on space weather's impact on the aerospace industry.

'We are at about 10,000 satellites [in orbit] right now, but in 10 to 15 years there are likely going to be 100,000,' Dr. Solter-Hunt told DailyMail.com.

'By the time we get to 100,000 I think it could be too late,' she said, 'in terms of this unplanned geoengineering experiment that is going to occur.'

The cause for her concern is that vast this fine-particle metal debris already vastly outweighs the weight of the magnetically charged particles that protect Earth from cosmic radiation.

The heaviest known portion of Earth's magnetosphere are the large loops of trapped particles called the Van Allen Belts — two donut-shaped regions of

Seattle-based scientist Sierra Solter-Hunt (pictured) believes floating, metallic space junk will likely settle in the upper part of the ionosphere - some 50 to 400 miles above the Earth's surface - weakening its magnetic field

Her concerns seem validated as the link below shows

120 satellites burned up in Earth's atmosphere in January of 2025 alone!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/02/11/120-satellites-burning-up-in-earths-atmosphere-in-january-alone/>

And then there's this site with an interactive map where you can see what's floating above you:

<https://www.dailymail.co.uk/sciencetech/article-12046925/Terrifying-interactive-map-reveals-space-junk-orbiting-Earth.html>

<https://www.youtube.com/@yourradiationthisweek6865/videos>

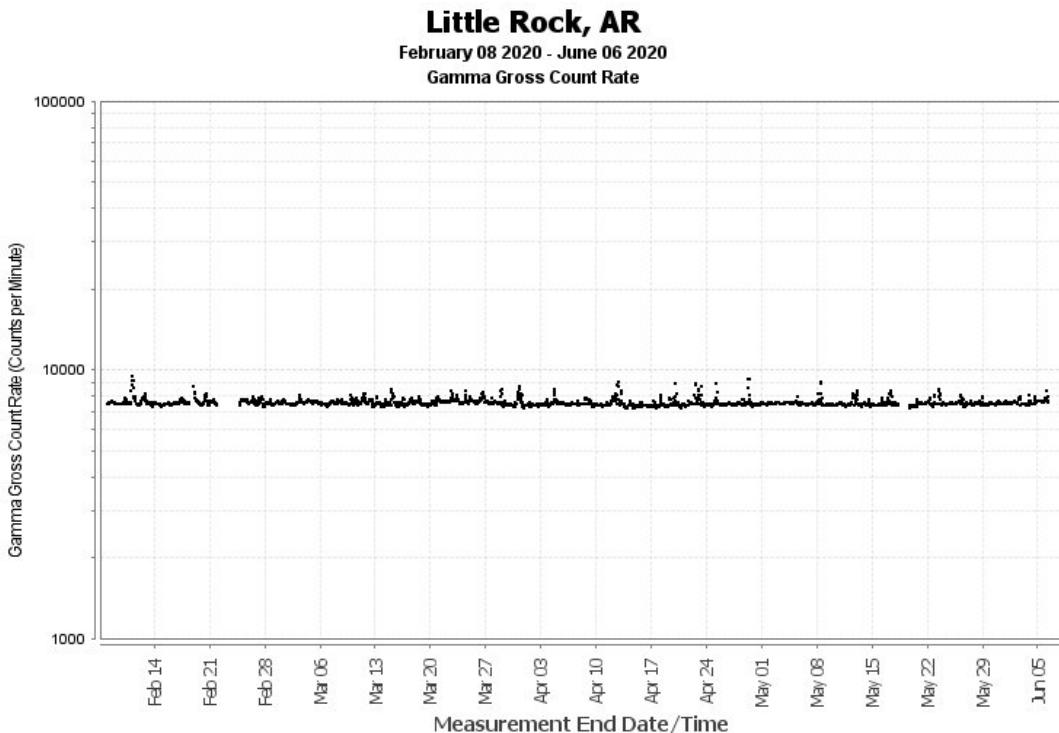

I don't see any new videos in the last year but the previous one's are still there sharing his alarming disclosures.

The image below is from the referenced facebook page showing the Gamma Radiation Readings in Little Rock, AR

Between February 8, 2020 - June 06, 2020

https://www.facebook.com/profile.php?id=100057508575460&sk=photos_by

The readings for many major cities can be seen there.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2018/09/07/confession-the-part-i-took-out-of-the-document/>

The link above contains several other articles you should see:

You can read an article there describing the impact of Fukushima as a "hell hole on Earth":

<https://www.collective-evolution.com/2017/12/06/hell-hole-on-earth-discovered-at-fukushima/>

One more report shows radioactive leaks found at 75% of US nuke sites including a "cave in":

<https://www.cbsnews.com/news/radioactive-leaks-found-at-75-of-us-nuke-sites/?fbclid=IwAR3fIQ52yepm3Ehg-t75hZzPY0pf12B3cu5TeG62RRuw28BWYL09nBEGiw0>

Here's a recent interview with Dr. Caldicott about the coverup:

<https://www.globalresearch.ca/fukushima-an-ongoing-global-radiological-catastrophe-a-huge-coverup-dr-helen-caldicott/5672265>

But we also have the "60-year downfall of nuclear power in the USA has left a huge mess:

<https://www.theatlantic.com/science/archive/2018/05/the-60-year-downfall-of-nuclear-power-in-the-us-has-left-a-huge-mess/560945/>.

Perhaps this would explain why Obama approved raising the levels of reporting for radiation in drinking water by 23,000 times just before leaving office. The gov't never fixes a problem, they just pass rules that say they don't have to tell us:

<https://www.globalresearch.ca/obama-approves-raising-permissible-levels-of-nuclear-radiation-in-drinking-water-civilian-cancer-deaths-expected-to-skyrocket/5331224>.

BUT, there is some good news on this subject of Nuclear Radiation Exposure in the USA!

Scott Adams, creator of the Dilbert cartoon, shared in an interview that we have the technology to build a facility next door to a leaking nuclear facility that will absorb and neutralize the radiation. It will then shut down the leaking facility and shut itself down.

I have no idea where this interview took place.

I just happened to walk through the room in time to hear him say this.

What I know is that we can't solve any situation we won't address.

Consistently as I moved towards whatever challenge presented, answers came.

What Else is Around Us?

A Problematic Not Smart Electric Grid

that has almost every home sitting in globes of radiation and contaminated power lines.

Here's a 175-page Analysis: Smart Meter and Smart Grid Problems from December of 2012

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/06/07/analysis-smart-meter-and-smart-grid-problems-dec-2012-and-rolled-out-in-spite-of-this-information/>

That analysis is not good!

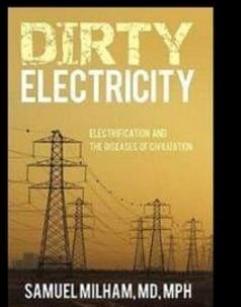

The link below is 253 pages of
people sharing their stories of injury and illness from a digital electric meter.
You may find your own health issues among their stories:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/05/smart-meter-health-complaints/>

Again, here's a symptom list I've found to be very accurate:

Symptoms of Microwave Illness		
https://www.microwavedvets.com		
Headaches	Difficulty Concentrating	Tinnitus
Dizziness	Memory Loss	Hearing Loss
Nausea	Brain Damage	Irregular Sleep Pattern
Skin Rash	Mood Disorder	Insomnia
Itchy Skin	Personality Disorder	Chronic Fatigue
Burning Skin Sensation	Increased Irritability	Deteriorating Vision
Tingling Sensation	Decreasing Trust in People	Pressure in/behind eyes
Tremors	Depression	Eye Damage
Muscle Spasms	Anxiety	Cataracts
Muscle and Joint Pain	ADHD/ADD	Immune Abnormalities
Restless Leg Syndrome	Digestive Issues	Altered Sugar Metabolism
Foot Issues	Abdominal Pain	Asthma Attacks
Low/High Pressure	Enlarged Thyroid	Bronchitis
Facial Flushing	Hair Loss	Pneumonia
Dehydration	Testicular/Ovarian Pain Low	Inflamed Sinuses
Body Metals Redistribution	Sperm Motility	Chest Pain/Pressure
Leukemia	Miscarriage	Heart Arrhythmia
Lymphoma	Electromagnetic Sensitivity	Heart Palpitations

"There is a high likelihood that most of the twentieth century 'disease of civilization,' including cardiovascular disease, malignant neoplasms (cancer) diabetes, and suicide, are not caused by lifestyle alone, but by certain physical aspects of electricity itself. The data to prove this has been available since 1930, but no one investigated it. Consequently, the 'wars' on cancer and cardiovascular diseases are doomed to failure, because a critical etiologic factor has not been recognized. What's more, these very diseases are now increasing in the population in direct proportion to our increasing exposures to high-technology electrical devices. The electrical part of this story begins with childhood leukemia..."

Featured Post
Public Health Warning

Everything you love is
being cooked by
technology. You need to
wake up and take action!

WHAT CHANGED IN THE LAST 30 YEARS?

DISEASE OR DISORDER	INCREASE SINCE 1990
ADHD	819%
Alzheimer's disease	299%
Autism	2,094%
Bipolar disease in youth	10,833%
Celiac disease	1,111%
Chronic fatigue syndrome	11,027%
Depression	280%
Diabetes	305%
Fibromyalgia	7,272%
Hypothyroidism	702%
Lupus	787%
Osteoarthritis	449%
Sleep apnea	430%

How Many People Are Affected By This?

The Nat'l Institute of Environmental Health Sciences calls this a
"world wide plague that began when technology was launched at an industrial level".

They estimate 1/3 of the population in the USA is affected.

Other experts estimated 50% of the population would be adversely affected by 2017.

"Prevalence of EHS occurrence is estimated to range from 0.7% to 13.3%, mainly affecting about 3% to 5% of the population in many countries, meaning that millions of people may in fact be affected by EHS worldwide... the increase in EHS prevalence is not restricted to a single country but is presently a worldwide plague, which started as soon as these industrial technologies became widespread."

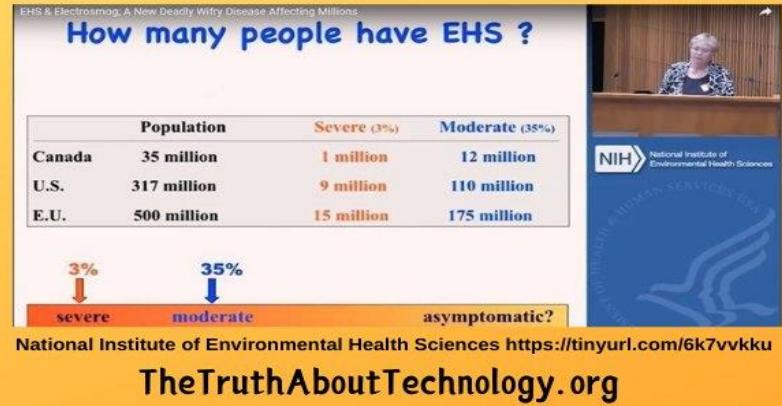

https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7139347/?fbclid=IwAR1DrLjrNI-Am9mUaag-8MiGyL7pAPI_y8SJDMpi635548J6MPOIhrsXFgQ

Technology aka Electromagnetic Radiation is making many of us sick!

**Can't work, travel, or live our lives! Many living in metal sheds!
Please Hear Our Plea For Mercy & Accommodations!**

That's Dr. Magda Havas at the podium in the picture.

You can learn more about her on her YouTube channel: <https://www.youtube.com/magdahavas>

There's Int'l Insurance Billing Codes for the condition known as ICD Codes.

If there's an insurance billing code, with physical symptoms associated like migraines and dizziness,
then it's not a psychological issue or mental illness.

You'll find the codes in the right-hand column of

TheTruthAboutTechnology.org

The W.H.O. calls it "Idiopathic Intolerance to the presence of electromagnetic fields".

To me that says, "We aren't sick, the environment is sick. We're just the ones who feel it."

"Kathy, why don't we all feel it?"

Remember our Creator Father made 10-20% of every species more vulnerable.

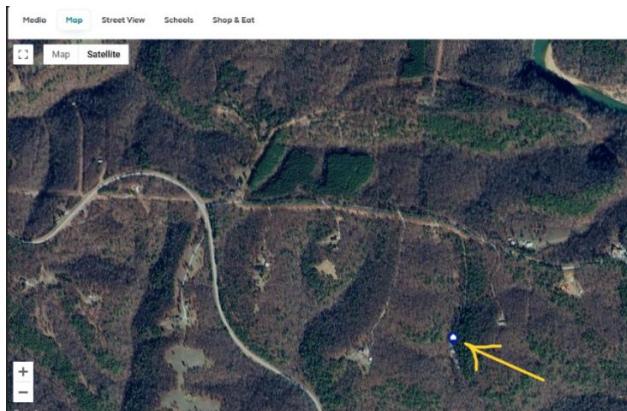

We are your early warning messengers that the environment is out of balance!

Consumers need to realize the tel-lie-vision sells advertising
to the purveyors of the toxin so they aren't going to tell you about those of us suffering
and what's happening to the animals and the ecosystem.

Every expert shared that any efforts to recover must begin with "PRUDENT AVOIDANCE"!
That wasn't possible in the tech-dense city of Austin, Texas so ...

We Moved to The Ozarks of Arkansas

where we live deep down in a hollow on 28 acres,
with no cell service on purpose. I work from a hardwired, grounded, shielded and filtered world.
The neighbors on both sides are about 150 feet above us so we aren't smashed between
"not smart" electric meters on all sides in a neighborhood subdivision.

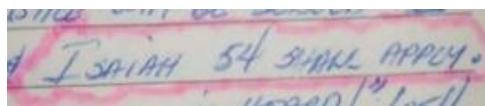

Of interest, being "moved here" was noted in a first adult journal on **May 27th, 1990**.
When God finally began speaking to me way back when, I began keeping a journal. About 10 pages
into the first one I wrote, "**Isaiah 54 shall apply**" referring to a message given to my now ex-
husband after I lost the lawsuit with the dirty lawyer in my murder charge. I thought he was a
dishonest creep with criminal clients and some creepy connections, but I was only mildly worried
about the loss as I half expected to lose when suing a lawyer.

It's pretty much a rigged system now, but it left John perplexed and angry.
I suggested he go spend some time with God on his family's rural land and he came back saying,

"God says we should read Isaiah 54, the whole chapter."

And here I am 33 years later (Feb 2023), when a poem forced its way into existence
to show me yet again the sovereignty of God.

The Itinerary of a Surrendered Life

May 27th, 1990, A.D.

I wrote down a message GOD spoke to me.

"Isaiah 54 Shall Apply" is what it read.

I noted it in a first adult journal and then I went to bed.

28 years went by before someone brought this back to mind.

When I went back to read it, I was amazed by what I'd find.

It was like reading a story of where all I had been.

It even showed my divorce, which I didn't see back then.

I remembered the idea that "I would be moved to a place with a gemstone foundation".

NOW, I know I'd be led to awaken people to a dangerous situation.

I had sought to live a PURPOSED LIFE seeking God's presence every day.

So He could tell us a story and help us find His way.

It's been a challenging but fruitful journey, an alternative path I took.

God then insisted I write an extensive book.

It had been out about a year when the story took a radical turn.

There were urgent things He needed to show me – we have a lot to learn.

Our launch of massive technology is the subject that's caught His eye.

If we don't stop this a lot more things will die!

As it turns out as we arrive at 2023, I found myself thinking about May 27th, 1990, A.D.

How I'm exactly where that chapter in Isaiah said that I would be.

I enjoy looking for God in my story as it assures this isn't "just me".

First thing I notice in 2023, is that journal entry is turning 33.

Realizing this year, 66 years I've been livin'

But realized too I wasn't actually 33 when it was given.

"But wait a minute" my mind ran ahead.

"How many days between those two?" I said.

I could hardly believe the answer when it was shown to me.

3 weeks and 3 days later I turned 33.

One step further, as I look around.

Another set of 3's is what I found.

February 2023 helps me to know.

We arrived here 3 years and 3 months ago.

*I can't believe my eyes as I look across the nations.
And see the boundless destruction caused by corporations.*

*Think of the seeding birds, the flora, and the bee
Living without them is a life we don't wanna see.*

*So, when I say "I've been sent" to help you see the error in humanity's direction.
I hope you too can see the thumbprint of God and know the information comes with deep affection.*

*Before I go, I just have one question.
What will it take before WE THE PEOPLE respond, does this need to be an even bigger lesson?*

**If you want to have these kinds of experiences, YOU have to start seeking and
yielding to His will for your life more than your own plans.**

Understand that God isn't here to be an adornment on our own efforts at life.

We are here to be an adornment to His plans for us and the world at large.

I hope my efforts will teach and inspire others in methods to get there faster than I did
because the world needs more conscious people!

A week after Mom signed the contract for purchase the seller told me in a phone call,
"I feel like I need to tell you to look up the meaning of the name of this town..."

It's a gemstone."

I laughed because I knew exactly why she felt that need.

I created a post about this story with a few more details that again show
the hand of God moving me around like a chess piece in a board game.

<https://gettingwellgodsway.com/2021/12/08/sent-the-back-story/>

What Happened After We Arrived in The Ozarks?

We arrived in November of 2019.

At this time, I was still under the impression that I was a "rare duck"
having this condition known as "electromagnetic hypersensitivity" or EHS.

But then, one month after our arrival,

December of 2019, the local Sheriff's 46-year-old happy healthy wife
dropped dead from a heart attack!

My eyebrows were raised but we'd just arrived,
and I still had many questions,
so I did nothing.

The next winter, December of 2020, another local woman, 60 years old,
whose family owns the hardware store and building that contains the grocery store
was found crawling on the floor and didn't know who she was.

They found several masses on the side of her brain, and she died three weeks later.
That's when I took readings in the electric outlet that was abnormally high up on the wall
by her desk, even with her head, and saw the reality about what's going on here.

Safe line noise readings are 20-30.

**The Stetzerizer line noise meter reading started in the 1500's,
jumped to the 1900's,**

then exceeded the limits of the meter, so over 2000 GSU's!

I found them in many buildings around town.

The Road Superintendent, Lexy Coontz, a local, borrowed the meter and found them
"...in the courthouse and every building I checked on the square...".

I created a 2-page document with active links on the NoATT.blog site
and passed them out in 20-degree weather fueled by the emotions of Lesa's death.

Little to nothing came of that effort.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/14/urgent-letter-to-our-neighbors-customers-of-carroll-electric-in-arkansas/>

December of 2021 came, and another healthy, happy 54-year-old dropped dead
of a heart attack while at work in the grocery store, the same building as Lesa
(death #2).

I expanded the document to 5 pages and put 100 of them in the door handle of every
car in store parking lots for weeks...again, not much came of it other than small talk.

It took a while for me to see that

while other people don't feel the many varied forms of technology unleashed upon us like I, (and many others) do,
you are being adversely affected.

The death of Lesa was my first acceptance of this reality.

How many times had I stood by her desk and never thought of checking that outlet? I thought I'd be blown off and heavily considered the idea that I was a rare duck.

That's not the case anymore!

Let's Talk About The Children

When I first got zapped by a new cell phone in 2016, every time I explained it to friends and family for 6 months I would get nauseated and hear this statement.
IT WAS NOT MY OWN VOICE!

**"You have no idea what you're
doing to the children.
YOU HAVE NO IDEA!"**

To see adults using cell phones in the car with kiddos is deeply disturbing to me BECAUSE this warning message came through my soul. It's embedded in me so I can't ignore it or forget it. To see it go on with neuro injured kids is even more unsettling. If I'm not yelling at you, it's not because it isn't warranted. I'm showing restraint.

Turn it off, put it in a faraday bag or wrap it in foil, only use it for emergencies, and help me get these towers pushed back!

Stop watching me and GET INVOLVED!

Go FOLLOW the NoATT.blog

IGNORING WARNINGS WON'T TAKE US ANYWHERE GOOD!

I would later learn that
children accumulate 10x the radiation of an adult.

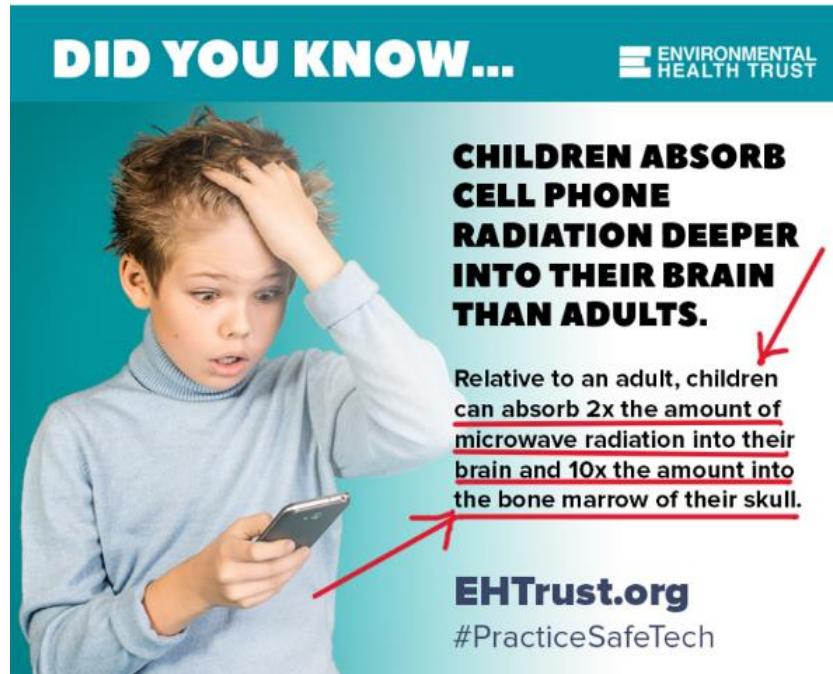

They have thinner skulls, they're developing an immune system, and are at a high rate of cell division.

This means sensitive systems are literally being developed and can be disrupted and interpreted as disease when they're actually

side effects of exposure to the many forms of radiation in our world today.

DID YOU KNOW...

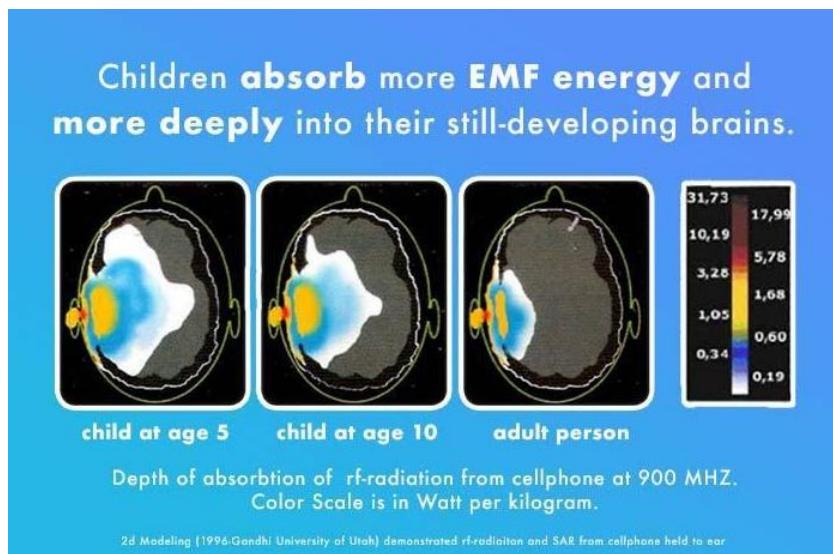

**ENVIRONMENTAL
HEALTH TRUST**

**CHILDREN ABSORB
CELL PHONE
RADIATION DEEPER
INTO THEIR BRAIN
THAN ADULTS.**

Relative to an adult, children can absorb 2x the amount of microwave radiation into their brain and 10x the amount into the bone marrow of their skull.

EHTrust.org
#PracticeSafeTech

I couldn't help but notice they simultaneously built three new "Memory Care" centers within 10 minutes of our home in about 3 years.

Hmmmm, couldn't this all be related?

After my own injury, our neighbor noted that their son had early onset Alzheimer's at 56 and they had 5 other friends in their 70's and 80's who had dementia or early onset Alzheimer's.

Then I saw this picture of this billboard and was horrified:

CHILDREN with Alzheimer's

They're also charting children with Dementia

And there's something called "Digital Dementia"

making a direct association between digital technology and hindered brain function.

There's A Epidemic Of Digital Autism

And It's Affecting All Ages

TERRA TIMES
DEC 07, 2025

19 3 11

Share ...

You may not have heard of Digital Autism, but it's been spreading like wildfire since 'Smart' phones were introduced, while its origins reach further back to computer screens, TV screens and other visual media.

In today's digital world, it's not uncommon for children to be introduced to screens at a very young age. While technology offers many benefits, too much screen time can sometimes lead to developmental concerns. One such concern is Virtual Autism, also known as Digital Autism—a condition where children show signs similar to classic autism due to excessive screen exposure.

https://terrattimes.substack.com/p/theres-a-epidemic-of-digital-autism?utm_source=post-email-title&publication_id=469815&post_id=177987475&utm_campaign=email-post-title&isFreemail=true&r=2dzmzc&triedRedirect=true&utm_medium=email

The link below is a post on the NoATT.blog reporting 2 cases of non-verbal children who began speaking after they were removed from wireless for 3 days:

"The moment we protect the sleeping location of autistic children, the children start recovering."

Dr. Klinghardt stated:

“ There are two kinds of autistic kids – the ones that recover and the ones that don't recover. The ones that recover are the ones that follow exactly this set of instructions. [the 3 points summarized above – eliminating cordless phones and Wi-Fi routers, and sleeping in a low microwave density bedroom]
[Recovery] is hardly done with the vitamins and the other things we do with behavioral therapies. [These things] have a minor effect. The moment we protect the sleeping location of autistic children, the children start recovering. [27]

I highly recommend listening to Dr. Klinghardt's presentation for all the details about the preceding comments. Specific information about the importance of preventing smart meter installation is in the second half of his presentation.

SMART METERS & EMF RADIATION → The Health Crisis of Our Time! – YouTube (43 minutes)

SMART METERS & EMF RADIATION → The Health Crisis Of Our Time!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/05/non-verbal-child-speaks-after-3-days-w-o-wireless-exposure-2-cases-in-story-below/>

**Note the comment about the children's behavior when the power was off...
"My ASD child was super calm..."**

Ok. Thank you so much. I knew all this couldn't be good for you but I'm just now starting to understand just how bad it is. We do not have any cell signal where we live, but we're on internet and not everything is hardwired. The rest of my family think I'm nuts. I knew for sure all this was bad when our electricity was off for a few hours down our street. I noticed how calm our kids were. My ASD child was super calm. Every time our electricity is off in our neighborhood I can tell a big difference in behaviors and even how I feel.

Did wireless radiation kill our son and our dog?

DECEMBER 5, 2020 ~ EDIT

<https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/05/did-wireless-radiation-kill-our-son-and-our-dog/>

This is an 11 min 33 second video titled, The Dark Future of iPad Kids, that should disturb you deeply!

The girl in the photo below is Jenny, a 17-year-old who hung herself after continuing suffering and the schools refused to accommodate her sensitivity.

Again, I will remind you that all of this tech saturation has never been done before!

When did we forget who we are to trust and who we shouldn't trust?

Should we blindly trust the government?

Should we blindly trust "for profit" corporations?

Should we trust the media?

Should we trust "science" without seeing who paid for the study?

Should we just arrest our critical thinking skills as if we're simpletons?

<https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/05/schoolgirl-jenny-fry-found-hanged-after-suffering-from-allergy-to-wifi/>

I remembered the Sam Milham quote from his book, Dirty Electricity, where suicide was listed as a side effect of an unhealthy electrical environment. Here's another article just posted about suicide rates doubling in children 5 to 18 years old between 2007-2015. "...suicidal ideation or suicide attempts each year...Diagnoses of either condition increased from 580,000 in 2007 to 1.12 million in 2015, according to the study, published Monday in JAMA Pediatrics. You can read that article here:

<https://www.wish.com/article/study-number-of-children-going-to-er-with-suicidal-thoughts-and-attempts-has-doubled/27083607?fbclid=IwAR1EHkCXcFIIoRL3BmczbUWmgbagTyAHa1ynMMwyrTti2CQ9rm5VOLrg8E>

Regarding an event at a junior high school in Arlington, Texas.

Since September, teachers and students at Nichols Junior High have reported similar symptoms, including nausea, trouble concentrating and dizziness. Some teachers have passed out in front of their students. Some have refused to return to work. Others say they're requesting transfers.

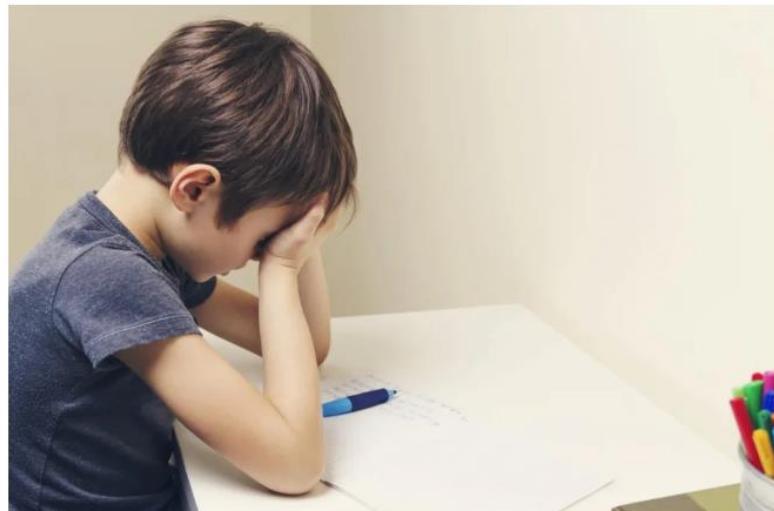

Now, they're speaking out to News 8 Investigates, on the condition

that we hide their identities for fear of retaliation:

<https://www.wfaa.com/article/news/local/investigates/parents-teachers-demand-answers-as-arlington-schoolhouse-rocked-by-illnesses/287-395907519>

Tuning in to Microwave Sickness From Wireless Radiation

DECEMBER 5, 2020 ~ EDIT

How wireless technology can trigger a devastating illness

BY CONAN MILNER May 23, 2019 Updated: May 28, 2019

In 2016, U.S. officials stationed overseas started showing signs of a mysterious illness. The list of symptoms included headaches, sensitivity to light, sleep and cognitive problems, and nosebleeds. Many heard strange sounds that seemed to come from inside their heads.

This 9-yr-old boy can no longer attend school due to the presence of Wifi:

[https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/05/tuning-in-to-
microwave-sickness-from-wireless-radiation/](https://neighborsorganizingagainsttrespassingtechnology.blog/2020/12/05/tuning-in-to-microwave-sickness-from-wireless-radiation/)

Below is a 26-page document created by Olga Sheean that's a quick study of common misconceptions:

[https://neighborsorganizingagainsttrespassingtechnology.blog/2019/05/24/no-safe-
place-by-olga-sheean-s-letter-to-her-mayor/](https://neighborsorganizingagainsttrespassingtechnology.blog/2019/05/24/no-safe-place-by-olga-sheean-s-letter-to-her-mayor/)

So, schools install Wifi routers and kids start having heart issues, headaches, insomnia and more and the gov't school solution is to install defibrillators instead of removing the Wifi?

Are you seeing the problem?

WIFI is 245 Billion Cycles per second of pulsed microwave radiation!

Megda Havas talks at NIEHS May 9, 2016 on Electrosomg and Electrohypersensitivity

Racing heart only in school ...

Ontario School: after Wi-Fi installed

- 6-year old girl, "musical heart", headaches (at school).
- 12-year old boy, tachyarrhythmia.
- 12-year old girl, insomnia, tachycardia (at school).
- 13-year old boy, heart pounding, insomnia, headaches, moved & symptoms abated.

Play (X) NIH National Institute of Environmental Health Sciences

PARENTS: require the school to pass an EMF Safety Review

Barrie Trower, Microwave Weapons Expert for the Royal Navy

Ontario School: after Wi-Fi : solution-defibrillators!

It's cheap to hardwire a school! Pull your children until premises proven safe. They lose federal money every day!

Rise Up Parents!

There's an 18-minute YouTube video regarding this at the link below:

<https://www.youtube.com/watch?v=bsPBUuwCfaI>

You're literally microwaving your children with technology!

This is a simulation of the Wi-Fi electrical field in six-year-old child facing a tablet.

We have the tablet at 150 mm from the head which is a little less than 6 inches. We can also take a closer look at the Wi-Fi field in the brain by using different scales. We use anatomically based models of people this means that we simulate the absorption of different parts in the body such as the skull regions of the brain the bones eyes and dozens of other tissues. These animations are slowed down by about five billion times. Most people are not aware that the waves of the Wi-Fi electrical fields oscillated two billion times a second through our bodies while devices emit microwaves. This image shows the intensity of the fields absorbed into the human body.

Fernandez & Ferreira 2017 Environmental Health Trust

Wi-Fi Tablet Radiation into 6 Year Old Child

19 minute video at this link: <https://tinyurl.com/5yjafk9a>

1-minute animated video of the above information

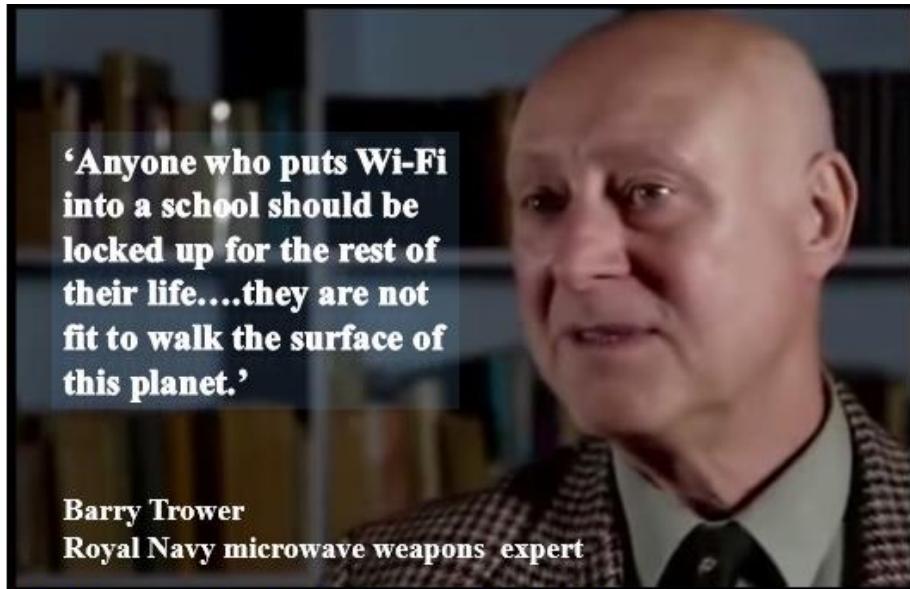

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/07/19/wifi-from-a-tablet-effects-on-a-6-year-old/>

I pulled a few of the links cited here from the "Wifi in Schools" section of the document I mentioned earlier that I created in the fall of 2022, after 7+ years of injury and isolation. It's titled Public Health Warning and is my effort, from a hardwired computer, away from MOST of the world's not smart technology, to show you what all is being built around you that you likely aren't aware of, and I didn't even capture it all.

You can view and print the 72 pages from this link.

Pages 18-20 cover the Wifi issue:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/04/18/public-health-warning-document-w-instructions-for-action/>

[Wifi, Microwaves and the Consequences to our Health](#)

Health Concerns from Wifi in Schools- 5 min video

JANUARY 20, 2025 ~ EDIT

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/01/20/health-concerns-from-wifi-in-schools-5-min-video/>

You'll find lots of links to studies on the NoATT.blog for the dangers but I want to point out the existence of this link where 150+ doctors, scientists, and universities are sounding the alarm about Wifi in schools. It's well-established that this stuff kills living organisms!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2019/11/18/150-letters-from-doctors-scientists-and-universities-sounding-the-alarm-about-wi-fi-in-schools/>

There's another one of those posts regarding cell towers at schools:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2019/12/07/150-letters-from-doctors-scientists-and-universities-screaming-about-the-dangers-of-cell-towers-at-schools/>

These are heavily referenced letters and the next to the last letter has 360 references.

I put a lot of the "Health Effects & Studies" posts at this link but could likely fill a train car or two with published studies on it's dangers:

<https://neighborsorganizingagainsttrespassingtechnology.blog/category/health-effects-studies/>

The FCC was sued by Robert F. Kennedy, Jr's firm and the suit was merged with one by the Environmental Health Trust. They filed 11,000 pages of evidence of harm!

Now that he's the HHS (Health & Human Services) Secretary he has not only become very quiet about it but is actually quoted saying that it's his "vision to have every American wearing wearables" so the government can track our biometrics.

The other chatter seems to indicate that the gov't wants to "prescribe" a diet for people who have health issues.

Is this the same gov't that has outlawed raw milk, crippled health efforts, and FORCED toxic injections on the most vulnerable citizens for decades now?

No Thank You!

Let's Talk About Your Pets

It doesn't take much imagination to wonder what these toxic devices are doing to smaller beings living in these homes like children and pets. THIS is where the claim that this is a mental illness breaks down. Here's two pm's I received that supported my posted concerns.

My elderly clasw-less cat literally moved outta' the house one summer; I hadda' get her her own little house in the yard, right near the cat door in which she occasionally hadda' discuss residency in with a stubborn 'possum; I hadda' keep gettin' up and watchin' her all might - for months! In the late evening I'd go out and sit with her, so she wouldn't forget she was loved. When the guy from the power company came to change out the smart meter, she was SO happy, like she knew what he was there for; she followed him around and supervised the whole thing. I then put remediation in the house and one day - voila! - she cam back into the house and resumed her senior post on the couch.

Like · Reply · 1d

there is a gal in one of my holistic healing groups for dogs. Her dog was having seizures. They had their smart meter removed and he is like a puppy again.

10:02 PM

shared a link.

Conversation Starter · December 26 at 5:54 PM

I (Linda) have talked to a surprising number of people whose dogs have come down with cancer within weeks to 6 months of a smart meter being installed on their home. These are often young dogs. I have also talked with humans who have had cancer that is in remission. A smart meter is installed and within a day (literally) to a week, the cancer recurs.

DRSCHOEN.COM

Animal Health Alert: Dogs Reaction to Smart Meters

Apparently there is a fair amount of controversy regarding the introduction of smart meters into residential homes through

<https://neighborsorganizingagainsttrespassingtechnology.blog/2019/12/07/smartmetersareharmingpets-whataboutyourchildren/>

So my neighbor's cat died while I was taking care of their animals. The cat had a stroke or heart attack. Not an old cat. Lived in the room closest to their smart meter.

Earlier this year, their young dog dropped dead for no apparent reason. That smart meter is in that dog's yard.

So I go online looking for symptoms and find cat after cat of all ages from kittens to 3 to 10 to older all dropping dead with the same symptoms: laying on their sides with their eyes open and a bloody nose.

Many mentioned that the cat either threw up just before it died or threw up once in a while. That could be commercial dog food, but maybe it is related to these deaths.

Since when do cats and dogs just drop dead like that? Maybe now they'll listen to me about getting rid of their smart meters before it is him or his son that dies.

Like · Reply · 2d · Edited

Oh, that is just awful. You know, I knew a kitten here who died shortly after (3 months) the smart meter was installed. But it started acting differently right after installation. Supposedly, it had a congenital heart condition, but I am skeptical.

Sad · Reply · 1d

I suspect that many have heart palpitations off and on -- both human and animal. Knowing that EMF affects blood, it isn't surprising that it can cause strokes and heart attacks.

Bleeding from the nose is a sign of radiation exposure!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2019/12/07/smartmetersareharmfultopets-whataboutourchildren/>

There's a 6-minute video at the link below showing what a group of cell towers, in the distance, are doing to some farm animals.

I couldn't finish watching it.

If you think I'm being extreme, go watch it:

It's on the NoATT.blog site titled,

[Cell Towers Maiming and Killing Animals](#)

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/03/01/cell-towers-maiming-and-killing-animals/>

Let's Talk About Environmental Damage a Bit More

From <https://nomoretowersintheozarks.org/>

- **Migratory Birds Affected by Electromog:**
<https://www.bbc.com/news/science-environment-27313355> "In essence, he found that birds exposed to electromagnetic "noise" between 50 kHz and 5 MHz lost all sense of direction. But when the field was blocked out, they found their bearings again. Prof Mouritsen said that migratory birds flying over towns and cities, where there are more homes and businesses that use electrical devices, would be most affected - and they would probably resort to back-up navigational systems."
- **Migratory birds being affected by magnetic fields:**

The Science

"The body acts like an antenna for ambient electric fields in the home and builds up electric tension against the ground which interferes with numerous biological and physiological functions.... Since our neurons operate at voltages between 80 and 120 milli Volt (mV), the threshold at which artificially induced body voltage interferes with our normal physiology is at a level at or above 80 milliVolts. The higher the body voltage, the worse[it is]".

Dietrich Klinghardt MD, PhD¹

There's so much science out there is no more excuse for accepting this and I have barely begun the process of shocking you about our modern world.

As a professing "Body of Christ"

WE ARE STEWARDS TO GUARD RIGHTEOUSNESS

AND DEFEND THE WEAK AND DISABLED.

That's not at all what's happening.

THE OFFENDER is the one being accepted, defended, and promoted
even within the churches!

The Federal Communications Commission (FCC) was recently sued by Robert F. Kennedy, Jr's Firm as Children's Health Defense and Environmental Health Trust (Dr. Devra Davis). The FCC lost and a Federal Appeals Court Judge in D. C. rebuked them for "ignoring the studies showing harm". They were told their safety standards were "capricious, arbitrary, and not evidence based" and ordered to immediately pay for the 11,000 pages of evidence showing harm presented by the plaintiffs.

Yep, they ignored the studies and

haven't updated their safety standards since 1996!

The Court Ruling Against the FCC

“.. we find the Commission’s order **arbitrary and capricious** in its failure to respond to record evidence that exposure to RF radiation at levels below the Commission’s current limits **may cause negative health effects** unrelated to cancer. That failure undermines the Commission’s conclusions regarding the **adequacy of its testing procedures**, particularly as they relate to **children**, and its conclusions regarding the implications of **long-term exposure to RF radiation, exposure to RF pulsation or modulation, and the implications of technological developments that have occurred since 1996**, all of which depend on the premise that exposure to RF radiation at levels below its current limits causes no negative health effects. Accordingly, we find those conclusions arbitrary and capricious as well. Finally, we find the Commission’s order arbitrary and capricious in its **complete failure to respond to comments concerning environmental harm caused by RF radiation.**”

Ignorance of electromagnetic radiation is causing some serious consequences.

If you consider yourself to be a “shepherd” or “steward”
then I strongly recommend that you become familiar with this prevalent modern weaponry
being unleashed on every living thing in God’s creation!

The book below, available on Amazon.com is a great eye opener.

The title alone says it all and it's
compiled/written by a Retired Electronic Warfare Specialist.

Hidden Dangers 5G: How governments, telecom and electric power utilities suppress the truth about the known hazards of electro-magnetic field (EMF) radiation Paperback – November 13, 2019

by Capt Jerry G Flynn (Author)

4.6  (66) See all formats and editions

How governments, telecom and electric power utilities suppress the truth about the known hazards of electro-magnetic field (EMF) radiation.

When is Enough Enough?

Below is the video that showed me that new cell towers look like this little box hung on the power lines. Then we won't SEE that they've put 849 towers in a 3-mile radius of our home.

Missouri Smart Meter Injury Story

NOVEMBER 27, 2023 ~ EDIT

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/11/27/missouri-smart-meter-injury-story/>

There are no ancient cell towers
with microwave drums.

THIS thing being done...
historic levels of airport, weather,
and military radar + a cellular
network of towers + cell phones +
digital electric meters + satellites
bathing Earth + Ionized Skies +....

THIS
has never been done before.
So don't tell me it's safe.
NO IT ISN'T
IT'S EPIC STUPIDITY

Go To TheTruthAboutTechnology.org
and see what's happening to our world

And if you think this is about making a phone call, you need to think again!

I no longer own a cell phone and can't and won't be around them.

Once you know they're emitting pulsed, modulated microwave radiation it becomes a concern.

Once you "feel" the very sick energy coming from them you'll know they are
more than likely "a weapon" than they are a product defect oversight.

Again, we were told to stay away from the fallen world and we didn't listen.

"Behold I'm sending you in as sheep among wolves.

Be ye therefore wise as a serpent..."

We have a copper landline and use only corded phones.

In fact, we should ALL DEMAND a copper landline
BECAUSE the FCC got sued and lost!

"The Irregulators" are a group of lawyers who came out of retirement just to sue the FCC!
They discovered they'd moved money for copper lines into the telecom industry on the ledgers to
make it look like the copper landlines were losing money to advance agendas.

Each state now has millions of dollars available for copper lines,

but they have to go ask for it:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/06/27/lawyers-freed-the-states-from-the-fcc-but-do-the-states-know-this/>

I work from a hardwired, grounded, shielded personal computer.

I have a blue light screen blocker on every screen in the home,
including our hard-wired Roku-enabled televisions.

We have a \$1500 filter on the electric panel, which is a "line conditioner"
soothing the chaos from these not smart "digital" electric meters,
and a Greenwave plug-in version,
about one per room, to filter inside the home issues.

We only use incandescent, halogen, or "healthy" light bulbs.

I have created an extensive post that can help you get started on this journey
but will put it at the end of this document in a Solutions section.

Turns out, there's a reason they put electric current in insulated wires!

We are energetic beings.

Our entire world is made up of electrical and magnetic energy
of a much different form than what's being pumped out today by profiteers.

Nature's waves are smooth, and they flow.

Outdoors is our food basket in every way, shape and form, even beyond most people's awareness!

If we destroy the environment with technology...an apocalypse will be a reality.

Many experts are already predicting a 6th self-extinction event from our

technology deployment.

This will be the first one created by human activity.

When you go to TheTruthAboutTechnology.org and look at the IMAGES THAT TEACH category, you're going to see what the media that sells ads for the stuff won't show you!

<https://nomoretowersintheozarks.org/images-that-teach>

It's beyond ignorance!

You'll find a book on Amazon titled Electric Ecosystem

that explains this quite well at this shortened link:

<https://tinyurl.com/25xc9nvh>

And in case you're wondering...

OUR GOVERNMENT KNOWS EXACTLY WHAT THEY'RE DOING!

This isn't a mistake!

In fact, below is a recent post showing 4000 documents over many decades...

Go to NoATT.blog and search "4000 documents"

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/02/24/4000-documents-reveal-govt-knew-decades-ago-about-health-impact-of-wireless-technology/>

There's also science from the US Navy Medical Research from 1971:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/11/25/navy-medical-research-institute-radiowave-brief-1971/>

Here's some more...almost 40,000 studies:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/06/16/38923-publications-and-7008-summaries-on-the-effects-of-electromagnetic-fields/>

Who's Doing This?

An uninformed consumer makes it all possible but who's putting this evil in play?

One culprit in this story is likely the CCP aka Chinese Communist Party who owns a lot of Hollywood, media, technology, and our political gatekeepers.

They are using media to spread misinformation, and it's working!

Better Call Saul was a Netflix series intended to make viewers believe that anyone who claims to "feel their phone" is a nut case.

If this is your source of information, you've been "programmed", not educated.

The Truth Is...

Over-exposure to manmade radiation sources, is known to kill things.

This did not change when cell phone technology came out.

Meter readings are how you verify the safety of your surroundings in this modern world.

You can't go by "feel" when the energy is invisible and cumulative.

You take readings, you filter, shield, create distance, and respond to the meter data.

Opinions, preferences, convenience should be secondary considerations, especially around anyone neuro-injured, children, pets, the elderly, and those of a weaker constitution.

And yes...

it seems highly likely that the CCP was involved in the safety certification of this not smart electric meter system FORCED on us here. The utility corporation here poses as a "member-owned cooperative" but doesn't answer how "members" go about forcing a toxic meter system on themselves.

When I asked if the meters had a UL Certification assuring their safety their response was,

"These meters meet ANSI standards".

My immediate thought was,
"Then ANSI is compromised".

ANSI is the American National Standards Institute.

You don't put out a piece of electronic garbage that contaminates the powerlines and leaves the air screaming 24/7 and electric current popping up in the air in front of homeowner's and be a reputable safety certification organization.

I'm new to newton country. I was Montgomery I had a home in mt. Ida. I won't go back to because there is electric in the air of the house. Both me and my daughter seen it multiple times. I'm not very educated so nobody listens I just wanted you to know I believe you. I can't explain it all because I don't understand. But I hear the sounds and see electric in the air. I about broke my knee cap trying to get away from it once. Popped up right in front of us. I'm so thankful somebody else knows what I'm saying. Things have changed I can hear sounds I never heard before and I've been thinking I was nuts to! Just wanted to reach out and say hello and I appreciate the article

I went online and looked up, "Is ANSI corrupt" and found Daryl Guberman.

He makes videos about how corrupt they are and brought me to the awareness that

ANSI was overseen by a CCP member from 2015-2021

so essentially Communist China is certifying the safety of the electric meters here even though they were "banned in two countries at the federal level by the Austrian Chamber of Physicians and the Swiss Physicians for the Environment for fear that they are deadly with immediate and cumulative effects with the most vulnerable feeling it the soonest".

I created this post titled, When the Safety Accreditation Bodies are Corrupt!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/10/23/when-the-safety-accreditation-bodies-are-corrupt/>

There are only 8 low EMF hospitals in the entire world.

So where are those of us who are already injured supposed to go for medical care, dental care...? There's 9 of us in this local area!

I can't help but ask, "Who lets a foreign adversary into their electric grid?".

Most people aren't even aware that

CCP satellites were identified starting the fires in Maui.

Read that again!

How is it possible that three CCP satellites are charted
and identified igniting three fires
that started the Maui destruction and yet it's not an act of war?

You can view the 4-minute video that confirms this at [NoATT.blog](#):

[CCP Satellites Over Maui.](#)

Now I wasn't that surprised during the Biden administration because he was such big
buddies with China,

but when the new administration came in and 175 NEW fires are charted in the Carolinas
where a mining company is planned to process the lithium "discovered" in Western North
Carolina where Hurricane Helene conveniently washed out the towns that were resisting
selling out to these corporations they'd been in negotiations with. You can learn more
about that at this link:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/09/30/if-they-find-lithium-youre-subject-to-being-burned-out-by-satellite-lasers-or-a-biblical-flood/>

As these kinds of things have continued, I began to consider more heavily that someone
above our POTUS (President of the United States) seems to be moving forward with the
roll out of "15-minute cities" in the USA and could even be describing the
"freedom cities" mentioned by Trump.

Is he complicit or playing possum until he can come up with a counter play for some
reason?

You may recall that he blocked China from access to our power grid in his first term with
EO 13920.

<https://www.federalregister.gov/documents/2020/05/04/2020-09695/securing-the-united-states-bulk-power-system>

Remember "rip out and replace" speaking of transformers made in China that could have
embedded software and hardware that can be remotely accessed, enhancing China's

ability to commit cyber attacks. Biden then lifted the EO for 90 days on his first day in office.

Can you see something going on here?

I think DOGE (Dept of Gov't Efficiency aka Elon Musk) is showing...

What happened to our safety oversight agencies and our judicial system...

It's all corrupt!

That's how corporations and government agencies get away with this?

We've been invaded by feckless stewards and the CCP!

THEN, this little 4-minute video turned up revealing that Christopher Wray, upon his departure, that we may be "being held hostage" by malware installed throughout our critical infrastructure by the CCP (Chinese Communist Party).

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/01/15/so-china-has-malware-installed-in-all-of-our-critical-infrastructure-holding-us-hostage-per-christopher-wray-4-min-video/>

I started a category on NoATT.blog for items related to the CCP's presence in our electric world:

<https://neighborsorganizingagainsttrespassingtechnology.blog/category/ccp-chinese-communist-party/>

I found a few odd things.

One is that we allow 501C4 "Dark Money" in our electric grid.

That means people and "foreign adversaries" can invest and HAVE INFLUENCE in our electric grid,

and who they are doesn't have to be disclosed.

Why would you need to hide that?

Are you beginning to see how our electrical environment can become a silent weapon? Technology is being used like a steering wheel to direct storms, to ignite homes from the inside and to steer humans where "someone" wants them to go and whomever

this is doesn't care about life or morality...it's like a killing machine. In the meantime, if you survive you can look forward to living in one of these adorable "cells" where you're every move is monitored and your environment controlled.

**BREAKING EXCLUSIVE:
Homeowners Devasted By The
Manufactured Maui Wildfires
Forced Into FEMA Camps &
Refused Permits To Build Again
On Their Own Land**

"They paved paradise and put up a parking lot...oh la la la" Joni Mitchell

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/02/21/maui-homeowners-forced-into-fema-camp-smart-cities-from-paradise-to-a-parking-lot/>

You'll also find these not smart electric meters are heavily implicated in the recent fires where homes burn but trees do not and other anomalies.

Since these smart meters are remote controlled, they can send frequencies to the smart meter and set your home on fire at any time. Isn't it peculiar that all these homes in the LA fires were burning from within first before outside?

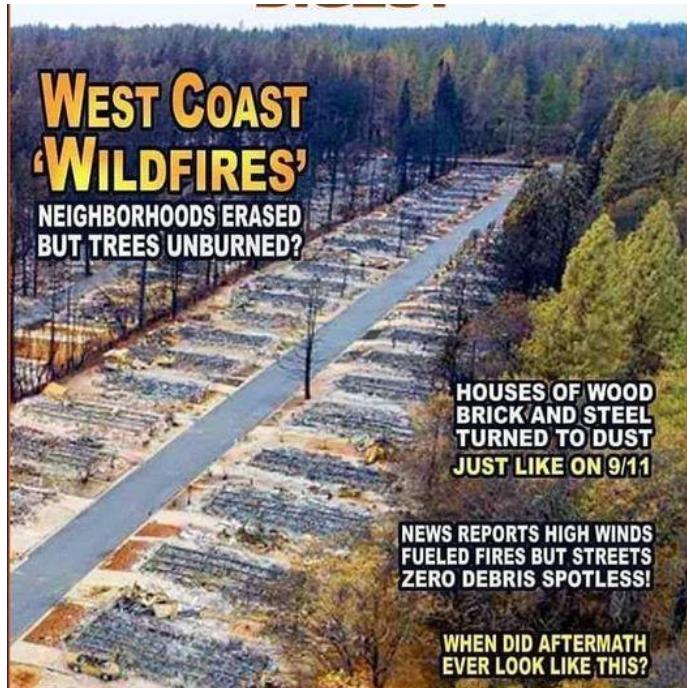

Matt Landman

1h ·

Smart meters have lithium ion batteries. When these batteries catch fire they have what's called "thermal runaway" where they will go from 140 degrees Fahrenheit to 6000 degrees Fahrenheit in just a few seconds. The smart meter is connected to the copper wiring of the home which is designed to travel electricity due to its conductivity. Along with being conductive, the copper wires are also great at heat transfer via convection. So when these supposed forest fires hit neighborhoods but burn more homes than trees, the culprit in the unusual fire forensics looks to be the lithium ion batteries. It's no wonder these homes are burned to dust while trees are standing within feet of the houses. These homes are burning from the inside out, literally. The copper wires in the homes are insulated and carrying extreme heat to every corner of the home... Meanwhile the hydrants are empty and the winds engineered... Welcome to Agenda 2030.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/03/02/south-carolina-175-fires-scorching-4200-acres/>

Drones from China Involved in the Carolina Fires?

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/03/04/drones-and-the-carolina-fires/>

On the NoATT.blog site you'll find a post titled:

A recently leaked database has revealed that 1.95 million registered members of the Chinese Communist Party (CCP) have been employed at universities, major corporations, and British consulates around the world.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/12/14/ccp-members-hold-positions-at-british-consulates-major-uk-us-firms-leaked-database/>

The post below contains a link showing that these digital electric meters are in fact "Surveillance Capitalism"

devices so MONEY is a HUGE motive to have them in place as DATA is THE NEW "GOLD RUSH"!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/02/15/surveillance-capitalism-includes-utility-smart-meters-utility-companies-collect-customer-usage-data-24-7-are-yours-selling-it-to-3rd-parties/>

You know what else China was Involved In?

The link below is a

PubMed, National Library of Medicine, NIH (National Institute of Health) article
making a distinct connection between the deployment of 5G technology
and the appearance of COVID-19.

<https://pmc.ncbi.nlm.nih.gov/articles/PMC8580522/>

here's a few excerpts from the article

The China Coronavirus 5G Connection

is a very important factor when trying to comprehend the coronavirus (formerly abbreviated 2019-nCoV, now COVID-19) outbreak. Various independent researchers around the web, for around 2-3 weeks now, have highlighted the coronavirus-5G link despite the fact that Google (as the self-appointed NWO Censor-in-Chief) is doing its best to hide and scrub all search results showing the connection. The **coronavirus 5G connection** doesn't mean the bioweapons connection is false (it's not a case of either-or), but rather broadens the scope of the entire event. [Wuhan was one of the test cities chosen for China 5G rollout](#); 5G went live there on October 31st, 2019, almost exactly 2 months before the coronavirus outbreak began. Meanwhile, many scientific documents on the health effects of 5G have verified that it causes **flu-like symptoms**. This article reveals the various connections behind the coronavirus phenomenon, including how 5G can exacerbate or cause the kind of illness you are attributing to the new virus. The rabbit hole is deep so let's take a dive.

Remember earlier I shared that 4 babies were born without hands, and 30 calves were born blind when a 5G tower was installed nearby?

That's only one of many issues with 5G.

Note: WCR in this PubMed/NIH article refers to Wireless Communication Radiation

This paper points to the need for further research on nonthermal WCR exposure and its potential role in COVID-19. Moreover, some of the WCR exposure bioeffects that we discuss here — oxidative stress, inflammation, and immune system disruption — are common to many chronic diseases, including autoimmune disease and diabetes. Thus, we hypothesize that WCR exposure may also be a potential contributing factor in many chronic diseases.

When a course of action raises threats of harm to human health, precautionary measures should be taken, even if clear causal relationships are not yet fully established. Therefore, we must apply the Precautionary Principle [138] regarding wireless 5G. The authors urge policymakers to execute an immediate worldwide moratorium on wireless 5G infrastructure until its safety can be assured.

Here's another excerpt:

COVID-19 began in Wuhan, China in December 2019, shortly after city-wide 5G had “gone live,” that is, become an operational system, on October 31, 2019. COVID-19 outbreaks soon followed in other areas where 5G had also been at least partially implemented, including South Korea, Northern Italy, New York City, Seattle, and Southern California. In May 2020, Mordachev [4] reported a statistically significant correlation between the intensity of radiofrequency radiation and the mortality from SARS-CoV-2 in 31 countries throughout the world. During the first pandemic wave in the United States, COVID-19 attributed cases and deaths were statistically higher in states and major cities with 5G infrastructure as compared with states and cities that did not yet have this technology [5].

There is a large body of peer reviewed literature, since before World War II, on the biological effects of WCR that impact many aspects of our health. In examining this literature, we found intersections between the pathophysiology of SARS-CoV-2 and detrimental bioeffects of WCR exposure. Here, we present the evidence suggesting that WCR has been a possible contributing factor exacerbating COVID-19.

Each time new technology has been deployed, a new “illness” showed up

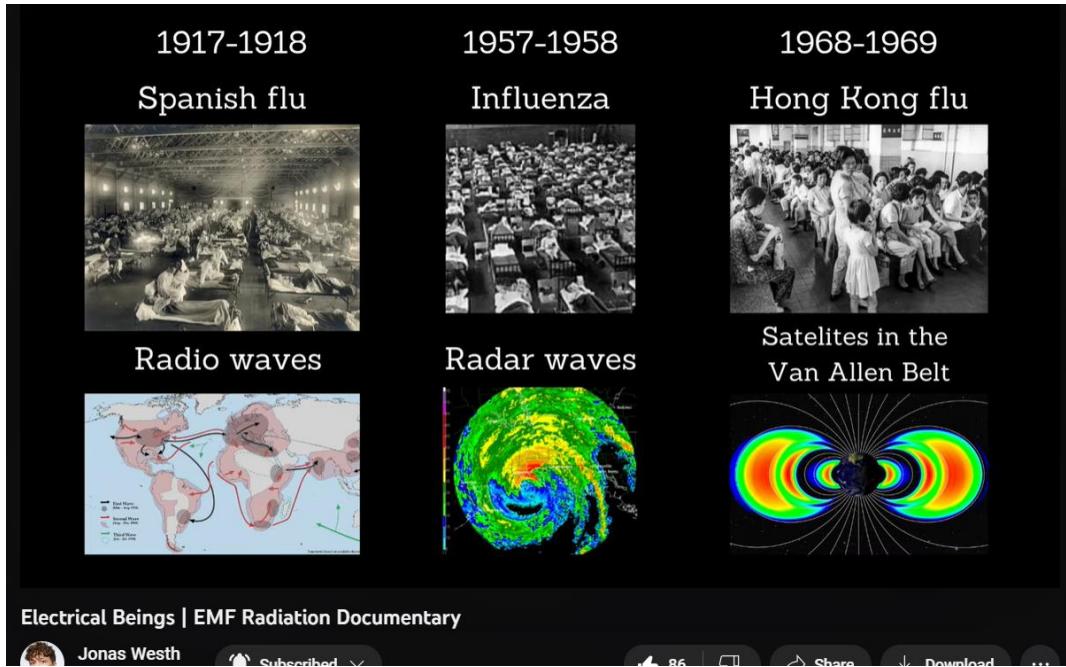

Because we are

ELECTRICAL & FREQUENCY BEINGS.

This is important to understand as we move forward!

If our electromagnetic environment is altered, it's felt around the globe!

Wireless Tech is Electromagnetic Radiation!

When I wrote Getting Well God's Way,

I shared information in the Introduction about how the Baby Boomers were the largest demographic to ever go through the system and that they're sicker than ever and have no idea how to get well or stay well. I also shared that the estimated costs to care for them was ten times our national debt and that it's an "Unfunded Liability" along with government pensions, which spelled disaster for our economy. I should've known this would force a response and "they" were going to do "something" to correct the ledgers, but I honestly wasn't prepared for the level of cruelty and insanity we witnessed.

It sure makes that quote,

"A nation of sheep will beget a government of wolves"

much more literal.

But that's not the only reason for a "Plannedemic"!

It can be used for all kinds of mayhem

as you'll see detailed in the 26-page introduction to this 190 page document asking if it was planned, by who and why where they examine if it was done in order to steal a presidential election:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2020/11/02/covid-19-pandemic-the-election-was-it-planned-why-by-who/>

I did find it odd that Dr. Fauci stated so adamantly that Trump WOULD face an epidemic during his first term. It was a statement made with absolute confidence because it was all planned and accomplished many agendas that are not in our best interest.

OR

it might be that you have BIG PLANS for humanity...

Like merging them with machines,

Turning them into cyborgs, "trans" humans...

Humans being "transformed" into robots!

No, I'm not kidding and will show you where we are in this evil mission

And

how your acceptance of our modern world is paving the way.

having people line up to kill themselves with poison.....known as a "soft kill" method) is the only legal way to make sure such eugenic operations can be executed on mass and in plain sight."

DNA vaccines are a disturbing new advancement for transhumanism. After all, the objective of the transhumanist agenda is to merge man with machine, and in doing so, wipe out what fundamentally makes us human, so we can be controlled and overtaken by a deeply sinister and negative force. It's all about changing us at the fundamental level, or attacking human sovereignty itself. DNA vaccines fit right in with that – literally changing your DNA by forcefully inserting foreign DNA to change your genetics, with consequences no one could possibly fully foresee and predict.

One Last Coronavirus-5G Connection

I apologize but in the flurry of creating I've lost the link this image above came from.

It does however share a commonly shared idea, so I'll leave it and label it if I find the reference.

GREAT WEBSITE:

<https://greatmountainpublishing.com/2020/11/15/covid-19-is-a-smokescreen-for-5g-radiation-poisoning/>

(I left the side panel so you can see some of the other articles offered and be sure to view the comments)

5G as a Cofactor in Causing COVID-19

5G-as-Cofactor-for-COVID [Download](#)

Conclusion from Research Study:

There is a substantial overlap in pathobiology between COVID-19 and WCR [wireless communications radiation] exposure. The evidence presented here indicates that mechanisms involved in the clinical progression of COVID-19 could also be generated, according to experimental data, by WCR exposure. Therefore, we propose a link between adverse bioeffects of WCR exposure from wireless devices and COVID-19.

Specifically, evidence presented here supports a premise that WCR and, in particular, 5G, which involves densification of 4G, may have exacerbated the COVID-19 pandemic by weakening host immunity and increasing SARS-CoV-2 virulence by (1) causing morphologic changes in erythrocytes including echinocyte and rouleaux formation that may be contributing to hypercoagulation; (2) impairing microcirculation and reducing erythrocyte and hemoglobin levels exacerbating hypoxia; (3) amplifying immune dysfunction, including immunosuppression, autoimmunity, and hyperinflammation; (4) increasing cellular oxidative stress and the production of free radicals exacerbating vascular injury and organ damage; (5) increasing intracellular Ca^{2+} essential for viral entry, replication, and release, in addition to promoting pro-inflammatory pathways; and (6) worsening heart arrhythmias and cardiac disorders.

WCR exposure is a widespread, yet often neglected, environmental stressor that can produce a wide range of adverse bioeffects. For decades, independent research scientists worldwide have emphasized the health risks and cumulative damage caused by WCR [42,45]. The evidence presented here is consistent with a large body of established research. Healthcare workers and policymakers should consider WCR a potentially toxic environmental stressor. Methods for reducing WCR exposure should be provided to all patients and the general population.

Abstract

Systematic analyses of observable real-time injuries at the cellular level in recipients of the "safe and effective" COVID-19 injectables are published here in a peer-reviewed context for the first time. The global administration of these often-mandated products from late 2020 triggered a plethora of independent research studies of the modified RNA injectable gene therapies, most notably those manufactured by Pfizer and Moderna. Can people with COVID-19 be safe and effective? The results of this study show that the answers are no and no, respectively.

Here are some pictures from their post showing the technology they're finding in the vaccines:

<https://x.com/toobaffled/status/1834111306577690714>

One post showed what looked like a circuit forming specifically when the vaccine sample was placed near a WIFI router!

This should help you see the connection between these things.

Electromagnetic Radiation aka "Wireless tech" amplifies metals and chemicals.

Inject metals and chemicals and now "nano tech" and put that person in the presence of multiple sources of electromagnetic radiation

(phones, towers, antennas, not smart electric meters)

And you have a recipe for disease and death,

which can be very profitable if you're in the right place in the game.

At this link you'll see where they "Intentionally" added magnetism to the COVID-19 vaccine.

<https://odysee.com/@BannedVideos:8/EXPOSED-Magnetism-INTENTIONALLY-Added-to-'Vaccine'-to-Force-mRNA-Through-Entire-Body:a>

Because of my injury experience by wireless and my ability to FEEL its dark and destructive power, AND the warning message, "You have no idea what you're doing to the children!", I've carried a deep concern that there are things going on with the phones that we aren't aware of that we would not be okay with if we knew. After the COVID shots were deployed, people began to discover they had become magnetic. Literally. The woman who runs the site cited below had this experience even though she didn't get a COVID shot. But then that goes to the reality of "shedding" which happens when people receive them, specifically the live virus versions. At this link you'll see a 35-minute video where she's teaching about this and what she did to demagnetize herself, BUT THEN, at the 33-minute mark of the video she shares that after doing the routine, she was using her cell phone for a while, only to realize that she had again become magnetized.

I don't think it's a good idea to subject the body to any technology that has this effect.

<https://christianobserver.net/magnetized/>

At this link you'll see the patents showing how they will hook up humans to the internet of things via 5G & IoT (Internet of Things) where EVERYTHING will be tracked and traced:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/04/08/patents-how-they-will-hook-up-humans-to-the-internet-of-things-iot-via-5g/>

At this link you'll find an hour and 45 minutes explanation in layman's terms explaining the plan for the complete takeover of humanity!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/03/02/internet-of-body-iob-technology-explained-the-complete-takeover-of-humanity/>

At this link you can see a thorough explanation of their plans and how they all weave together:

Through the use of Nanotech Biosensors or Smart dust, it is possible to electronically link humans into a brain-to-brain interface, for the purpose of Synthetic Telepathy, surveillance, complex simulations, as well as the ability to customize specialized Mind Control at individual levels.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/04/03/evil-has-plans-for-you-wanna-see-their-playbook/>

At this link you'll see that all the way back in 1995 they had already created "liquid crystals" in vaccines and knew that when they were subjected to very low frequency it produced "zombies" because "they" did it in Rwanda!

1995 "Vaccines w/liquid crystals + very low freq = zombies." 1 min clip

APRIL 10, 2024 ~ EDIT

GREG REESE REPORT: (3 minutes)

The Canadian theology professor Dr Pierre Gilbert during a lecture in 1995 warned of a coming mandatory vaccine containing liquid crystals that, when exposed to magnetic frequencies, turn vaccine recipients into "Zombies"

1 minute excerpt from that 1995 lecture:

"In the biological destruction there are the organized tempests on the magnetic fields. What will follow is the contamination of the bloodstreams of mankind creating intentional infections. This will be enforced via laws that make vaccination mandatory. And these vaccines will make possible to control people. The vaccines will have liquid crystals that will become hosted in the brain cells, which will become micro receivers of electromagnetic fields where waves of very very low frequencies will be sent. And through these low frequency waves people will be unable to think, you will be turned into a zombie. Don't think of it as a hypothesis... this has been done. Think of Rwanda."

They were already experimenting with it 30 years ago using vaccine injections (Tricking them it is for HEALTH) and microwave radiation being blasted at them from above aircraft on the vaccinated Rwandans to where they turned the Rwanda Tutsis into zombies and fighting each other with ANGER. "Eyes glazed, the mood of the Hutu crowd went from simple anger to uncontrollable rage, and within minutes, hundreds of assorted Tutsi body parts were flying through the air".

Now many are showing the link between 5G network & the nanotech they inject people with.

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/04/10/1995-vaccines-w-liquid-crystals-very-low-freq-zombies/>

There's much more, but I'm pointing you to some resources so you can get a basic idea of what's planned and do some of your own research now that you realize there's a war going on! The bottom line is the elite families intend to get rid of a bunch of humans, replace us with lots of robots, and the remaining humans will be put in "SMART" cities (prisons) where every move and thought will be monitored.

I shared the following information in the book about a "vaccination" that kills "the God gene".

While it's claimed intentional use is for religious extremists in the middle east,

How can we have any assurances that it won't be used on us?

You also need to know this so you understand the mindset of the people ruling over us.

Here's the link where you can view the 4-minute video.

https://www.wanttoknow.info/health/funvax_fundamentalist_vaccine

what is being called FunVax – a fundamentalist vaccine. As explained by Pentagon researchers, the FunVax uses an airborne virus to indiscriminately infect populations considered high risk for religious fundamentalism. The virus in this vaccine purportedly has been tested and shown to reduce fundamentalism and religiosity in all who are infected by damaging what is called the "God gene."

Though this may sound like some bizarre science fiction novel, the four-minute Pentagon video presentation and official FunVax report below show that this vaccine against fundamentalism is actively being tested for implementation. As it has been a number of years since this date of this video and report, it is entirely possible this program has already been started.

Four-minute Pentagon video presentation of FunVax dated April 13, 2005

https://www.personalgrowthcourses.net/video/health/pentagon_vaccine_modify_behavior

Government report on the fundamentalist vaccine: Quarterly FunVax Review, June 1, 2007

<https://www.WantToKnow.info/health/funvax070601.pdf>

There is some possibility that the above video and document are faked. But if they are, it is very intelligent disinformation. Who would spend all of the time and money required to come up with such a sophisticated and coherent story? And why? Knowing how science and the military often work together, a program like this is all too possible. I once attended a lecture by Al Gore's science advisor in which he said he had been invited to see some of the most secret biological research programs being undertaken by the U.S. military. He said it gave him nightmares for months.

For those who doubt the government would carry out such a campaign, consider a July 12, 2011 [New York Times report](#) that the CIA organized a fake vaccine drive to get Osama bin Laden's family DNA. It appears that health care workers were used knowing or unknowingly on a clandestine mission as part of a deliberate policy of the U.S. government. An article in the [Washington Post](#) quotes a senior U.S. official as stating, "The vaccination campaign was part of the hunt for the world's top terrorist, and nothing else."

According to the FunVax report above, the fundamentalist vaccine is prepared using "a viral vector that will inhibit/decrease the expression of VMAT2 within a human population. The VMAT2 gene, also referred to as the ["God gene"](#), has received wide coverage in the media. It is the gene which has been shown to have the most relationship to spirituality. [Time magazine](#) featured the God gene story on its [front cover](#) on Oct. 25, 2004. For the fascinating article on VMAT2 in that issue of [Time](#), titled, "Religion: Is God in Our Genes?", [click here](#).

So the Pentagon has found a way to decrease religious fervor using an airborne vaccine. What are the ethical implications of this? Do we really want to get involved in manipulating people's genes, especially when those subjected to this are not being informed? Do we really want to decrease spirituality in unknowing citizens through a vaccine? And why isn't this disturbing news being reported and debated in the major media?

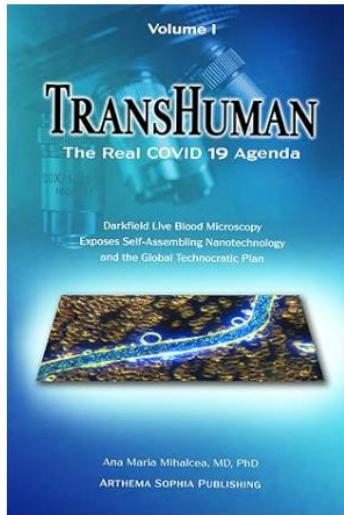

The Pentagon report states that tests have been conducted on six different methods of dispersing the virus: "high altitude release, water supply release, insect transmission, diffusion by a ground level object such as a car, diffusion from a stationary object such as a bottle and infection of food supply such as cattle or produce." You have to wonder where these tests were conducted and on whom. The minutes of the report also mention discussion of a "proposal for a suicide gene."

**In the meantime, they have to convert us from human to a brain-to-brain interface
I suppose with AI, Artificial Intelligence.**

The stage between being human and being a machine is known as being a

"Transhuman"

You'll also find lots of books on Amazon.com about the subject like the one below:

TRANSHUMAN: The Real COVID 19 Agenda - Volume 1: Darkfield Live Blood Microscopy Exposes Self-Assembling Nanotechnology and the Global Technocratic Plan

Paperback – October 15, 2024

by Dr. Ana Maria Mihalcea (Author)

4.6 ★★★★★ (11)

[See all formats and editions](#)

TransHuman is a two-volume collection of research performed by Dr. Ana Mihalcea and scientists from around the world into the COVID 19 injections and the self-assembling nanotechnology that was found. Alarming live blood changes have been observed in humanity's blood since the roll out of the COVID 19 injections. Volume 1 outlines Dr. Mihalcea's research collaboration with Clifford Carnicom into these blood changes and the strange, rubbery clot formations seen all over the world. It is a microscopic investigation of the overlap between the technology developing in the COVID 19 injections and geoengineering operations spraying smart dust and advanced nanomaterials from the sky. Investigations into the rubbery clots seen by embalmers are included. Other vaccines and medications are also investigated revealing microrobots and self-assembling nanotechnology and synthetic biology in human and animal blood.

If you go look up the book shown above you'll be shown the many other titles related to this subject.

Be sure to investigate the subject of "Technocracy"!

Gates Insider Presents Proof: Vaccinated People Emitting Bluetooth Signals with Secret 'Death Dates'

For over a decade, Bill Gates and his network of unelected technocrats have poured billions into merging man with machine - not through open innovation, but through covert experimentation on the global population.

In recent months, a growing number of independent researchers, tech-savvy citizens, and even curious skeptics have made a startling discovery: vaccinated individuals are emitting Bluetooth signals - complete with unique MAC addresses.

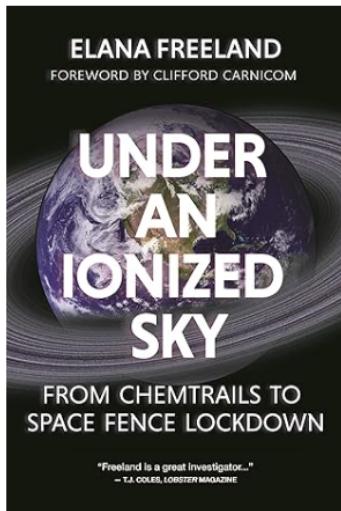

We're talking about bodies - living or dead - that are suddenly detectable by Bluetooth scanners. And in some cases, those MAC addresses are reportedly labeled with a single, chilling identifier: "Vaccinated."

15-minute video of interest

Then there's this author, Elana Freeland, with her trilogy on the subject of how even our atmosphere is being manipulated to support this Transhumanist agenda:

Under an Ionized Sky: From Chemtrails to Space Fence Lockdown

Paperback – March 6, 2018

by Elana Freeland (Author)

4.6 (406) 4.3 on Goodreads 59 ratings

[See all formats and editions](#)

How many 'conspiracies' must be proven true before you believe what is happening?

It is difficult to believe that our planet has been weaponized before our very eyes, but that is exactly what has happened. First, we were seduced by the convenience of a wireless world; then, atmospheric weather experimentation in the guise of carbons "climate change" converted the air we breathe into an antenna. Now, the geo-engineering we've been subjected to for two decades is being normalized as the "Star Wars" Space Fence rises around and within us. Inside the electromagnetic lockdown of the Space Fence, humanity is to be neurologically herded toward a Transhumanist future. Is this the Space Age we were promised?

In June 2014, Feral House published Freeland's bestselling, *Chemtrails, HAARP, and the Full Spectrum Dominance of Planet Earth*, the book that connects how the chemical aerosols whiting out our skies and ionospheric heaters around the world work together to assure seven major military operations of global control. *Under An Ionized Sky* is the long-awaited sequel.

Is this the Space Age we were promised? *

Geoengineered Transhumanism: How the Environment Has Been Weaponized by Chemicals, Electromagnetics, & Nanotechnology for Synthetic Biology Paperback – October 20, 2021

by Elana Freeland (Author)

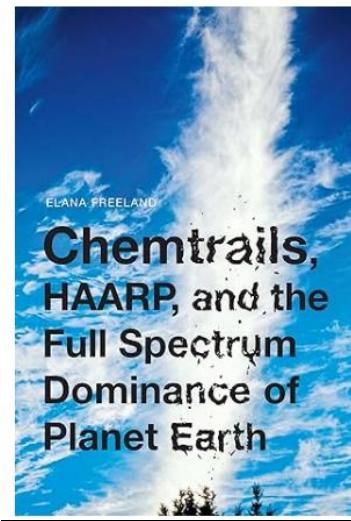

4.8 ★★★★★ (260) 4.6 on Goodreads 29 ratings

[See all formats and editions](#)

Geoengineered Transhumanism is the third book in Elana Freeland's trilogy on geoengineering. It completes the picture of what geoengineering has been from its very inception decades ago: to control the ionosphere with phased array heater blasts so as to maintain an ionized atmosphere in which chemicals, nanotechnology, and *synbio* synergies can be continuously laid by jets, drones, and rockets in the name of "climate change."

Thus, the groundwork for the *synbio* (synthetic biology) neural network inside Human 1.0 began by manipulating the *macro* environment upon which our extraordinary interior *micro* environment depends. The air we breathe, the soil we grow our food in, the water we must replenish-all have been commandeered by biotech and Big Pharma for Human 2.0 Transhumanism. Chemicals, nanotechnology, and electromagnetics are manipulated for geoengineering, genetics, and vaccinations, all in preparation for the software phase of the brain-computer interface (BCI) we now face after decades of "quiet war" preparation.

[Report an issue with this product or seller](#)

Chemtrails, HAARP, and the Full Spectrum Dominance of Planet Earth Paperback – June 10, 2014

by Elana Freeland (Author)

4.6 ★★★★★ (392) 4.3 on Goodreads 55 ratings

[See all formats and editions](#)

We are entering a Space Age, but not the kind President Kennedy originally envisioned. This Space Age is replacing resource wars and redefines planet earth as a "battlespace" in accordance with the military doctrine of "Full-Spectrum Dominance."

This book examines how chemtrails and ionospheric heaters like the High-frequency Active Auroral Research Project (HAARP) in Alaska service a full-spectrum dominance. This "Revolution in Military Affairs" needs an atmospheric medium to assure wireless access to the bodies and brains of anyone on Earth from heat-seeking missiles to a form of mind control.

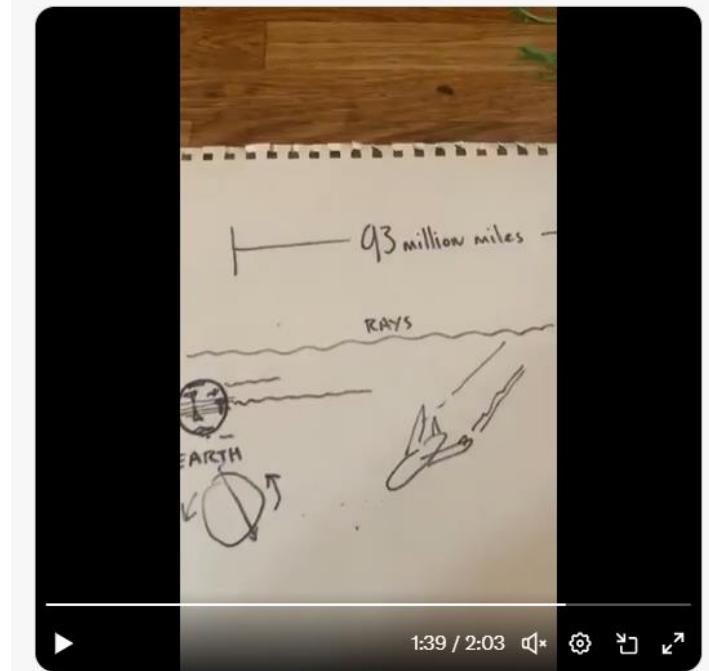

How sinister are these technologies? Are we being prepared for a "global village" lockdown? The recent release of NSA records have reminded Americans that "eyes in the sky" are tracking us as supercomputers record the phone calls, e-mails, internet posts, and even the brain frequencies of millions.

Elana M. Freeland's startling book sifts through the confusion surrounding chemtrails-versus-contrails and how extreme weather is being "geo-engineered" to enrich disaster capitalists and intimidate nations.

A deconstruction of Bernard J. Eastlund's HAARP patent points to other covert agendas, such as a global Smart Grid infrastructure that enables access to every body and brain on Earth, a "Transhumanist" future that erases lines between human and machine, and Nanobiological hybrids armed with microprocessors that infest and harm human bodies.

The Lines in the Sky!

Galactic Zoo  @TonyMarrese · Apr 28  ...
If the **#Geoengineering** was genuinely devised to cool the planet, those maniacs responsible would be spraying around the equator where the earth is much hotter. Not over the **#uk** etc where it's already cold and cloudy. why? Because it's nothing to do with **#ClimateScam** it's ALL to do with spraying the people.

Chemtrails versus Condensation Trails...Geoengineering, Solar Radiation Management, Cloud Seeding...
Or just Bill Gates "sun-blocking" efforts.

Bill Gates Admits China Is Helping Him Spray Radioactive Chemtrails on US Cities

...

You've heard of chemtrails. You've probably even seen them - those streaks in the sky that linger a little too long, and give you a sore throat and brain fog. But what if I told you they're not just spraying aluminum and cloud seed anymore?

What if I told you China has been perfecting powerful chemtrail formulas for decades - spraying its own cities with a weaponized fog laced with neurotoxins designed to pacify an entire population? And now... that technology is being shared.

According to insider reports, Bill Gates is merging his own aerial experimentation with China's chemical payloads - and in return? He's giving them access to American airspace.

The link below is where the above image/info came from where you'll find a 16+ minute video that you need to watch!

<https://x.com/tpvsean/status/1912140760981401895>

If you want any further education, just go to X.com and type "Chemtrails" in the search box but don't do this while you're supposed to be watching the video above or you'll miss important visual content.

An essential video to watch related to Chemtrails!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/02/21/the-dimming/>

What Are They Spraying on Us?

What's in the "dry fog" witnessed in Florida (early 2025)?

What is "SMART Dust"?

Are they vaccinating us from the air?

Where is the Informed Consent for all of this?

Who elected Bill Gates, Anthony Fauci, and...?

This link will answer several of those questions where you'll find a 14+ minute video you should watch:

<https://x.com/tpvsean/status/1911522816752484554>

Trump's Chemtrails Task Force Busts Federal Op, Begins Prosecuting Spray Chiefs

The Trump administration's newly launched Chemtrails Task Force isn't wasting time. Against the mockery of the mainstream and the silence of captured institutions, they've already uncovered a key source behind the chemical assault raining down on our cities.

Insiders are now confirming: rogue chemtrails operations have been running out of shadowy sub-departments within the National Oceanic and Atmospheric Administration - or NOAA. These units are being dismantled as we speak.

And the Deep State players responsible? They're on the radar and losing their jobs is going to be the least of their concerns... they're about to face justice.

I have a disturbing update on the Barium fallout from chemtrails and "weird fog" events. In our mass spec lab, using ICP-MS analysis, we are seeing Barium-137 at estimated levels exceeding 150 ppm (semi-quant scan via ICP-MS, and we are now acquiring external standards to run full quant on this element in the near future) is Barium-137, which means it has an atomic mass of 137. This isotope of Barium is known to be largely created by the beta decay of Cesium-137, which is a highly radioactive "death powder" that's used in dirty bombs and is one of the byproducts of nuclear detonations. As Cs-137 decays (half life of approx. 30 years), the beta decay transmutes Cs-137 into Ba-137 (through another interim step of Ba-137m). It is this Ba-137 that we are detecting in the chemtrails fallout sample provided by [@RealDianeRuby](#), and we are seeing it at alarmingly high levels. Even higher than the lead and cadmium also found on the same sample. What this means is that the Barium falling out of the sky in Florida could be, in part, the result of decayed Cs-137 from previous nuclear tests. Literally, this could be actual nuclear waste transmutation products being dropped from the sky, perhaps as a way to just get rid of them, or perhaps as a way to harm the population with latent radiation that's still present. Since we are not a radiation lab, I'm not able to test for radiation in a comprehensive, ISO-accredited way, but I would certainly hope that somewhere in Florida, there would be radiation detectors that would sound the alarm of high levels of radioisotopes starting falling from the sky. I'm not claiming there's a radiation emergency right now, but somebody should check just to make sure. Then again, in Fukushima, they just TURNED OFF ALL THE DETECTORS and said everything was safe. So who knows... What I'm saying for sure is that we are counting Barium-137 elements in very high numbers in the Jane Ruby sample from Florida, and I do not know where all this Barium-137 might be coming from, but I am incredibly concerned about the picture emerging here. What sort of chemtrails fallout contains Mercury, Lead, Cadmium, Aluminum, Copper, Nickel and also Barium-137 (likely derived from Cesium-137 at some point)? This mystery just gets more disturbing by the day... And why does NOBODY from the Florida state government, nor the U.S. government, seem interested in getting to the bottom of this? ICP-MS is the most reliable mass spec test you can run. When I say we are seeing Barium-137 elements, that's an irrefutable fact. We have the counts (CPS) on the detector, and we have all the logs, the calibration curves for the other masses, the saved

There are many nefarious agendas facing us.

Most of us, especially the church crowd, are aware of the

New World Order

and have associated it's coming with

the Mark of the Beast and not being allowed to buy or sell (function in the world)

unless you have some kind of designated mark. Most of us assumed this would be a micro-computer chip injected in the hand or the forehead that can be scanned by some device to determine our "worthiness"

such as our vaccination status, our social credit score (online behavior), or whatever

the powers-that-be determine is the criteria.

Here's what we already see as their goals, and I can tell you as a 68-year-old that I've seen many of these either already come to fruition or I see the infrastructure being built or already in place but not utilized fully.

The above shows you the push for Control of Humanity.

Next, I want to show you the plans for "Synthetic Biology".

In case that's not clear...the replacement of humans with silicon beings!

Yep, it sounds like science fiction but so does much of what's being accepted by a compliant and uninformed consumer.

"If you don't object, you agree,"

is the rule of evil.

From what is revealed in this dense content video interview on YouTube.com the goal to replace humans with robots aka silicon beings dates back to the 1500's. Volumes of art and literature shared the "declarations of intent" by the "13 elite" families. They've deemed the rest of us to be "useless eaters".

You'll find a 1.5 hour video on the NoATT.blog site titled:

Hang on...

I'm about to tell you the story of my long-time family friend
who's been sitting in a typical church for 25 years and what happened to her
because she wasn't properly trained by church leadership to
LIVE IN A FALLEN WORLD.

I expect she'll represent MOST modern church goers
and her story is therefore
yet another warning.

Most people are finally becoming aware that the pharmaceutical industry heavily influences what doctors are taught and not taught. First, you should know that they take zero to one class on nutrition and know zilch, nada, nothing about vitamins and non-pharmaceutical options Unless they take it upon themselves to get that training. Sadly, many are so overwhelmed with college debt and other duties that they rarely have time to pursue this and if they do, there are instilled consequences such as social disdain, being passed over for promotions and other punishing methods to create a disincentive to do so.

Clearly, if they're taught to give different disease names and a correlating prescription drug instead of looking at a patient's diet, lifestyle, relationships, and electrical environment, it would seem their "convenient omissions" are instead to prioritize selling their drugs?

This does not mean that every doctor is evil!

What you need to understand is that there are evil entities involved in training your "good doctor" and evil is also deeply embedded in that industry as has become much clearer in recent years (2020-2023).

There is a time and place for mainstream allopathic medicine, such as trauma, but you should also be keenly aware that you're in dangerous territory in that system. This REQUIRES you to have some basic understanding so you can advocate for yourself.

I've watched bad things happen to patients because money was the motive instead of restored health. You need to know when to say "No" and "Not today but thank you" and steer around some pitfalls.

It's also true of what's taught, and what isn't taught, in "seminaries" that helped me understand why I couldn't find needed answers through church leadership.

Apparently "elite families" like the Rockefellers and Rothschild's infiltrated the medical industry

AND the seminaries,

Can you imagine the control you'd have over an entire culture if you control Just those two sectors of society, and do it as well as it's been done?

And that's not a compliment, just an acknowledgment.

And they actually control EVERYTHING.

Schools, the curriculum, and textbooks to be used.

For the record,

mainstream medicine has avoided identifying sources of disease for most of its existence because it would challenge their idea that our health challenges are prescription drug deficiencies.

And now it's time to talk about an almost unbelievable direction technology has taken us:

Targeted Individuals

Are you aware that fellow Americans who file a complaint against a corporation, the government, or speak out on social media, or email newspapers about issues of concern are being targeted by technology?

This is not just happening at the Cuban embassy in Havana!

It happened to me when I wrote 7 newspapers about what's going on here!

We were still in Austin, Texas and I suspect they used the neighbors' not smart electric meter to send a directed energy signal into our home for about 10 minutes that peaked out my RF meter.

Someone more in the know said,

"They were trying to give you a heart attack".

The neighbor's meter was 25 yards from my bedroom.

If you go to NoATT.blot you'll find a "Targeted Individuals" category.

One post is titled, [Targeting Americans with Energy Weapons](#)

Now you might begin to understand why I am creating this off-the-beaten-path approach to connect with my readers.

An Interesting Side Note About The Cabin Mom Bought Here in The Ozarks

The sellers of this cabin were a couple that built many houses in Mississippi and here.

This cabin was "built and inspired by the story of Corrie Ten Boom", The Hiding Place.

She was a powerful witness for Jesus Christ. Her family "hid Jews" from the Nazi's. They were eventually all rounded up, her parents killed, and she and her sister were taken to a P.O.W. camp.

Her sister would later die there.

Early in my marriage someone gave me about 5 cassette tapes with her telling her stories.

I had no idea I'd end up living in a cabin dedicated to her life.

Many people here in The Ozarks are aware that Corrie Ten Boom was flying over this area and prophesied that "this is where the next great revival will happen" or similar wording.

Just keep this little tidbit in mind as we go forward.

~~~~~

I've spent 5 years here writing, calling, and begging for resolutions from local, state, and federal level politicians and environmental groups. I've notified every member of the state board of health and the Newton Country Health Department, Arkansas Electric Cooperatives Assoc, law firms, Game & Fish Commission, Arkansas Fair Housing, HUD, the EPA, FCC, Arkansas Public Service Commissioners, Disability Rights, DOJ, DOE, Office of Electricity at the federal level...

### **NOBODY WILL MOVE AGAINST ANY TECHNOLOGY**

and at the federal level jurisdiction has been pulled from every oversight agency!

That means they sent the sheriff's home so there's nobody to report the crime to as they continue rolling out a historic number of sources just in towers and satellites!

I keep asking

"who gives a foreign adversary access to their electric grid or allows them  
air space with satellites comprised of high-powered lasers"?

Compromised, greedy, ego-driven, power-hungry, delusional humans,  
many of whom actually profess to be "Christian" politicians who attend church regularly  
while denying mercy and justice to their own constituents  
because CORPORATIONS are bigger donors.

I can't help but be horrified by our complete lack of regard for the effects of what we're doing.

So please don't let a tel-lie-vision turn you into a stooge for nefarious agendas!

Reading books that matter is spiritual warfare!

Remaining healthy and off of Rx drugs is also spiritual warfare!

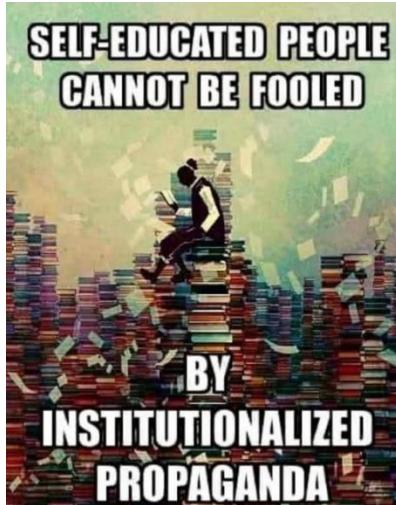

Books reveal truth not in the mainstream and is one of the  
ways my spiritual life became very active.

I was not a reader of books until I chased God down

and it just happened, incessant reading...one led to another to six at a time.

It makes sense that "God" would have a hard time finding a purpose  
for a uninformed person but evil sure doesn't.

In fact, being ignorant is a prerequisite to evil and from what I can tell, our country now looks  
like a whole bunch of the citizenry stopped self-educating and thereby lapsed into  
A very dangerous level of accepting ideas without considering them fully.

You need to recognize that Wisdom and Knowledge are not inclined to come rub your feet while appealing with you to make better decisions in life.

I, and the information I have created for you may be the closest thing to that happening.

I'm personally interested in connecting with people who truly want to save the world, or at least their own life and that of a few deserving friends and family members!

I doubt many will find their life purpose if they aren't reading and seeking, and they sure won't be prepared for the spiritual battle going on in this modern world.

For those who aren't clear, THE COSMIC GAME has escalated recently and these cell phones have everyone under a spell.

**The entire world has taken up chain smoking  
with microwave radiation!**

**This is what happens when people stop self-educating  
and staying close to their Creator for guidance.**

as if this technology has always been around and we're just whiny sickly people.

**No, WE ARE YOUR WARNING MESSENGERS!**

Wait until you see how many were "perfectly fine" until a not smart meter was put on their home/office or a cell tower added, or they upgraded their phone and suddenly, they were no longer fine!

You need to realize

there are no ancient cell towers with microwave drums mounted on them.

You know little to nothing about these new digital/electronic utility meters stuck on the wiring of almost every building with electric service.

The one in use here they FORCED on the customers in the Arkansas Ozarks...well

The FCC released a video and 3 pdf's showing that it

"contaminates the power lines"

and yet...here it is!

In the right-hand column of [TheTruthAboutTechnology.org](http://TheTruthAboutTechnology.org) site you can view the [FCC Lab video 7.5 minutes](#) demonstrating this and the 3-part pdf explaining this is just below that listing.

So, if the FCC isn't in favor of it....HOW DID IT GET PLACED IN OUR WORLD?

Who's controlling the FCC or overriding them?

It has the entire Ozarks screaming with a 24/7 squeal the locals say began upon installation. According to EMF mitigation experts this is due to a data signal being carried on an electric line only designed to carry current and the data signal apparently has an inherent whine.

Five years of effort to have this addressed here in the Ozarks of NW Arkansas seems to have failed.

I even found a 70-yr-old Chief Electrical Inspector for the state who said adamantly, "If y'all are hearing a squeal, that means there's a problem up there".

He tried twice to get someone to come check on us.

As he was retiring, he finally showed agitation and gave up the name of the man he asked to come.

**Randy Hooten!**

Who is Randy Hooten of Carroll Electric Cooperative Corporation and why didn't he come check on us when a state level electrical inspector asked him to...TWICE?

It's like I've discovered a bad secret, and nobody wants to "be the one" to call out the guilty parties, because they're all going to look stupid or evil.

They're willing to let people, animals, the eco system...be sickened, injured, and killed to preserve the perception that all is well.

**No, it isn't!**

And unless your doctor/practitioner is AWARE they will misdiagnose patients, subject them to injurious testing and return them to their unhealthy electrical environment.

In fact, I was heavily considering the launch of the podcast recently and was contacted by a medical doctor who zealously wanted to participate.

He's a Pediatrician, a Pediatric Neurologist, a Sleep Specialist, and studied Physics (self-funded) for 14 years to understand how these EMF's (electromagnetic fields) were affecting his young patients.

Many parents began reporting their child was "playing with the Wi gaming device" when they had a seizure.

He closed his practice and began measuring and mitigating his patient's environment instead of giving out Rx pills.

Frankly, I don't see how it's possible to get an accurate lab test on patients when their blood is altered by exposure to these not smart electric meters alone, never mind the cumulative mess:

You'll find a 3-minute video on NoATT.blog

"effect of smart meters on our blood" search will bring it up

<https://neighborsorganizingagainsttrespassingtechnology.blog/2019/12/07/effect-of-smart-meters-on-our-blood-3-min-video/>

I've also seen people given the "all clear" status from their doctor when they were being cooked by exposure to their cell phone.

One reader who had already hardwired her computer and changed her electric meter to an old-style analog was getting sicker every day. This began 3 weeks after she upgraded her phone, like so many of us. Doctors were running all kinds of tests and found nothing but her stomach and heart were telling her different.

I challenged her to turn her phone OFF, not airplane mode, which allows some emitters to continue pushing out toxic current...

Her husband's phone was to be outside if on...no smart watches around...for 3 days... don't get in someone's late model car who may have GPS or a phone... for 3 days and 7 days would be better!"

NO WIRELESS in her presence  
and in 48 hours her health did a complete turn around.

Why 3 days?

Because several non-verbal kids began speaking after they were removed from a wireless environment for 3 days!

You'll find a post on the NoATT.blog titled: [Non-Verbal Kids Began Speaking](#)

Sadly, when I pointed out gently to several parents of vaccine-injured kids that having their cell phone on in the car with these kids is the likely explanation for why they're banging their head on the window and crying, they simply unfriended me.

Another disturbing story is about the 4 babies born without hands after a 5G tower went up in Germany and another one about 30 calves born blind...

NoATT.blog & TheTruthAboutTechnology.org site:

[4 Babies Born Without Hands, 30 Calves Born Blind & more](#)

Only after my own injury did I recall that young mom who gave birth to the stillborn son and I could then see that three other women were being adversely affected by that electric substation, all with female reproductive issues.

We've known since the 70's that children were getting leukemia from power lines across school property and yet... our govt stewards continue to not apply the knowledge specifically to protect corporate interests and shareholders?

## How far are we willing to let this go?

Seems like "taxation without representation" to me!

For me, this was a cumulative condition that led to an acute event and it is accumulating in more and more people and will likely continue to do so.

I was the right genetic makeup; I just needed a trigger to set dis-ease in motion. Mercury amalgam dental fillings and eating and drinking in accordance with the stupid CULTure, didn't help!

Over time, my body was becoming overloaded with free radicals from chronic exposure to "electromagnetic field radiation".

When those "free radical" aka "oxidative stress" levels hit a certain saturation level, BOOM! My entire electrical system got hit and my very life was under threat by this invisible toxin everyone is using.

It's sold on the television, given to babies to play with, and teens who stick this MICROWAVE RADIO in their pocket next to their sexual and elimination organs, and sleep with it under their pillow.

Is it any wonder that colorectal cancer is on the rise in young people.

Just wait, because little girls are born with all the eggs they'll ever use for reproduction and those eggs in their ovaries are now being subjected to 24/7 pulsed, modulated microwave radiation.

It's becoming a REQUIRED device if you want to travel, do banking, participate in some social media

platforms, to rent equipment at Home Depot, or even use a parking meter in St. Louis,

Missouri...YOU WILL NEED A CELL PHONE.

YOU SHOULD OBJECT LOUDLY AND OFTEN AND DO NOT COMPLY!

During "COVID" The government admitted they were reading your text messages and would be deleting any that shared "misinformation" about COVID shots. They also notified you that they were tracing your contacts with other people, and I still couldn't get anyone to simply put their phone in a faraday bag or turn it off and wrap it in foil as an act of resistance and sending a message to our overlords.

Nope!

During COVID, it was also being used to REQUIRE proof of vaccination status. You couldn't enter some restaurants unless you had proof, you'd taken the gov't-approved "shot" ... on your phone.

You can't use many payment processors unless you have a cell phone number.

**You can't "buy or sell" without it!**

**Does this sound familiar?**

**Biblical even?**

When the signs read "Chicago 30 miles"  
"Chicago 10 miles" ...  
you shouldn't be surprised when you end up in Chicago!

**Are you aware the former CEO of Nokia stated that  
"by 2030 you won't need to carry a phone,  
the phone will be in you".**

Hello?

Are you aware that they can hook us up to "the Cloud" aka "The Internet of Things" by accessing our energetic anatomy, without consent via low earth orbit satellites.

You need to learn about the Internet of Things (IoT)  
and the Internet of Bodies (IoB).

NoATT.blog post COVID-19 category and the AI/Transhumanism categories  
are where you'll find those posts.

One post titled: [Internet Of Body \(IoB\) Technology Explained-The Complete Takeover of Humanity](#)

stresses this point!

We have work to do that shouldn't be done on social media and there will come a time when I'll need you to further identify yourself by joining as a subscriber and paying a small monthly fee to weed out trolls or moles in the tribe who could work to thwart our efforts or subject me and others to more electronic torture.

NoATT.blog has a featured post titled

### Public Health Warning

<https://neighborsorganizingagainsttrespassingtechnology.blog/2023/04/18/public-health-warning-document-w-instructions-for-action/>

I created that document in the fall of 2022 after 7+ years of injury and isolation from the world, to help you see what's being built around you, and

being done to children in schools where no incident reports are allowed,...

page 17 or 18 is where you'll see

### Events in schools with powerful Wifi routers.

Go to [TheTruthAboutTechnology.org](#)

and see how modern technology is affecting our world.

Be sure to view the [IMAGES THAT TEACH](#) category on the site.

What I want you to see is how this is all leading us directly into an AI/Transhuman agenda, quickly.

You, carrying a phone, and accepting all this technology, is saying

**"Yes! I want to live and be controlled in a Dystopian Technocracy!"**

At this link on the NoATT.blog site you'll see a post titled

### Having a cell phone is saying YES to an AI world

The launch of 5G is when I felt the first major shift here in the Ozarks in December of 2020.

They moved the satellite tv providers to the C band part of the electromagnetic spectrum to accommodate 5G and for reasons I can't articulate it began sending a microwave reading through the hardwired satellite tv box that lit me up and maxed out the microwave/radio frequency meter I use to take readings.

We went w/o television for 5 months until I figured out the work-around. Funny but I have a very smart niece who had a 4-year degree and her high school diploma at 18. She was given an almost full scholarship to Mary Baldwin College for Girls and is now a Captain/navigator in the US Air Force. When I asked her about their plans to move the satellite tv providers to the C band and she was of the strong opinion it would have no effect. God made sure she was pulling into the driveway for a visit when all of this transpired.

Then, Arkansas launched five new PBS transmitters in January of 2022, bragging that they covered 95% of the state with electromagnetic radiation to accommodate home learning for COVID-19 where they also provided free Wifi Hotspot devices. Of interest, that Hidden Dangers book revealed that the Supreme Court of Italy, in 2011, ordered Vatican Radio to pay 41 people who died of Leukemia and lived within 6 miles of their broadcast transmitter.

We live 15.6 miles from the nearest one and I woke up in severe vertigo upon launch! Again, it was a past remedy I grabbed that stopped it immediately but I do wonder how the people in the 6-mile radius of these transmitter/repeaters are feeling. How many went to the doctor sent home with a prescription drug? And why is Arkansas allowed to do this without consent and when is a lawyer going to show up and stop this?

A little tidbit the mainstream news isn't likely to share with you, and yet another reason this is going to demand a WE THE PEOPLE response instead of sitting on your hands and letting Trump and Elon, me, or whoever, handle everything...MAYBE!

This is an American Disability Rights Discrimination action,

a product liability, property rights violation, personal injury, and fraud legal action against ANSI who approved the meter system and the electric companies who are violating civil and human rights not to mention moral code of "Do unto others as you'd have done unto you". One lawyer in Australia has had success with a criminal assault charge to stop placement and remove some towers but in the corrupted by corporations USA, I know of a man who spent \$188,000 dollars trying to stop a digital electric meter and lost in federal court.

And that's not all...

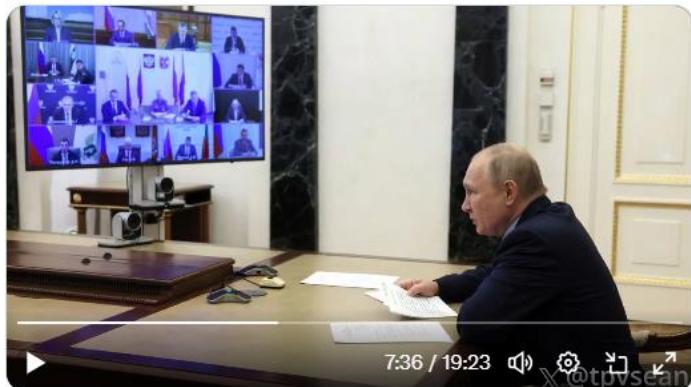

TPV Sean  @tpvsean · 7h  
Putin's Adrenochrome Unit Intercepts Jet Trafficking Children Through Greenland to D.C.

This week, whispers from the frontlines of the Ukraine war have turned into screams - gruesome secrets uncovered by Russia's elite Adrenochrome Taskforce, a unit handpicked by Putin himself.

Mass graves. Shallow pits filled with the broken bodies of children, their fragile frames marked by the unmistakable scars of adrenochroming - ritual cuts, hollowed eyes, and signs of torment no human should endure.

Even the hardened soldiers of Putin's elite crew found themselves retching at the sight. One taskforce member called it 'a slaughterhouse for innocence,' and the videos they smuggled out?

We have to warn you in advance: they are not for the faint of heart.

How did WE THE PEOPLE get here?

It was these questions that led to the awareness of what happened to "Common Law" here in the USA.

Got to the NoATT.blog and find the category for The USA is a Corporation Issues to get started down this road of discovery:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/09/14/the-usa-d-c-is-a-foreign-corporation-99-of-us-dont-owe-income-taxes/>

Yes, we still need to talk about gamma or nuclear radiation.

For brevity and so I don't alarm you unnecessarily, let me just say that I saw Scott Adams, the creator of the Dilbert cartoon on television.

He said we have the technology to build a facility next to a leaking facility that will absorb and neutralize leaking radiation and shut it down upon completion.

On the NoATT.blog site you'll find a category for Nuclear Radiation:

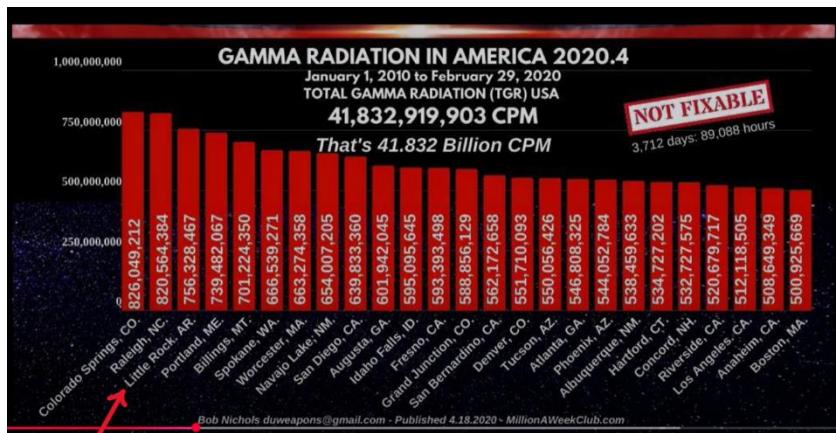

<https://neighborsorganizingagainsttrespassingtechnology.blog/category/nuclear-radiation/>

And if you search "Confession" on NoATT.blog you'll find this post where I show what I took out of an early document because I thought it would immobilize people but later decided to share it:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2018/09/07/confession-the-part->

[i-took-out-of-the-document/](#)

Again, we can't fix what we won't acknowledge!

### One last thing I want to share

You will learn in the book about this "gift" in healing acquired early in my journey!

I was chasing God for information by prayer, fasting, reading books that mattered, and changing my lifestyle to one of health as a means of honoring my body as a spiritual temple.

It was hard but it made spiritual insights happen, so I kept doing it...more and more and more.

I didn't realize God was seeing these as "acts of worship" and this gift showed up!

He brought people and situations that allowed me to practice and told me that it was more about teaching me than it was, "Hey, I can heal you" thing so I didn't use it very often.

It was A TOOL in the toolbox that provided a few physics defying events and some quantum healing confirmations that helped me learn about frequency

and being led to attend massage therapy training taught me even more about our energetic anatomy, our "biofield" that extends out about 6-8 feet around us. It's the explanation for feeling anger on someone or walking into a room where an argument happened you didn't know about. It's the 'ENERGETIC FIELD' where we FEEL GOD, who is ENERGY!

It also revealed to me a deeply disturbing view of humans that I wasn't willing to facilitate... self-indulgence to a point of offense.

They preferred their ignorance and lack of responsibility.

**It was quite disappointing and resulted in my leaving organized religion.**

I actually had hoped to teach others how to develop this gift as I believe this to be an innate skill, but the timing just never seemed right.

And every session didn't produce healing so, I had to figure out why and see the lesson being taught.

Most often, the issues were due to not only a lack of knowledge resulting in nutritional deficiencies, but also self-indulgence, entitlement, cultural conformity, preferences, and massive willful ignorance about what's in the grocery store these days presented as food.

I saw the need for a book, but I certainly didn't intend to write one.

I just stopped offering the healing work because the reality is, **if you sow the seeds of sickness and disease, sickness and disease will be the harvest.**

Anyone offering health advice that doesn't also teach you isn't doing you any good but they mainly enrich themselves and are keeping you dependent upon them and their advice.

Both parties need to be invested in a good outcome or it can feel like giving cpr to a corpse as a practitioner.

I did a few "Healing Prayer" sessions between 1990-2000 that were interesting, but that was about it.

Then in 2001 I was working on a fellow therapist when the gift spontaneously showed up.

I was practicing a new modality where my hands were still instead of moving with massage strokes, and BAM,

so, I began exploring it a bit more and later learned to heal at a distance without the participation of the recipient, at least on a conscious level.

One girl damaged by vaccines told her mom,  
"I feel better when Ms. Kathy visits me in dreamland"  
Though she had no awareness I was doing the work.

A baby started breathing on her own when her parents were told to  
"Make the arrangements, we've done all we can".

You can see those stories and any screenshots at:

<https://gettingwellgodsway.com/category/client-healing-testimonials/>

There's a few more but  
the one that sends the loudest message to mankind is related to the technology issue and is the reason I stopped offering it.

A facebook "friend" read a post I shared about a healing session I did on someone and wrote me a private message telling me that she had a dear friend named Christine who was battling cancer and "if I feel inclined...it would be appreciated." I'd been up working very late on a new website and needed to defrag so I decided to at least initiate a connection with her (energetically or in the energetic realm) and then actually DO the session the next morning as I've learned when I do this I'm often met with a very willing subject at that later time. For clarity, I was in Austin, Texas and the woman with cancer was in California. I woke up the next morning and began the session and IMMEDIATELY began vibrating pretty radically and crying. I was clearly processing something pretty dramatic so I sent a pm to the woman and to Charlene so they'd have an explanation on their end in case something similar happened to her.

I was excited to hear back from the woman with cancer that she was literally "vibrated awake".

She jumped up, threw up, and was apparently instantly healed.

I had no idea of the severity of her state when Charlene,  
presented this opportunity.

**This woman was literally on her death bed.**

What was unexpected was that Charlene also woke up vibrating radically.

I expect the death energy was soooooo strong that God had to spread it out to keep any one of us from having too vivid of an experience.

Christi "did laundry, danced to the radio, went for a walk,..." and thanked me profusely. She then went to Chicago to visit family for three weeks and wrote an amazing testimonial.

It truly looked like she was well.

Even Charlene, her friend, wrote

**"every time I see her, she looks healed".**

You can see the related screenshots they sent on the following post:

<https://gettingwellgodsway.com/2016/02/17/why-i-stopped-using-the-healing-prayer-gift-this-womans-miracle-ended-in-death-by-cell-tower/>

But then she returned home to California and started getting sick again and six months later she was dead leaving us with many questions.

In the meantime, I had my acute event when I touched the screen of Mom's phone in October of 2016 and was in a fight to survive and relocate.

It was my own injury that queued me in to the idea that there was some technology in her environment responsible for her death.

I reached out to Charlene with my idea, and she responded,  
**"You must be reading my mind. I even went over to her house to see, and she lived right by two towers. I even mentioned it to my mom."**

That screenshot is there too.

You'll find other testimonials at the category for "Client & Healing Testimonials"

<https://gettingwellgodsway.com/category/client-healing-testimonials/>

Again, the doctors were subjecting this poor woman to toxic therapy with zero consideration for the health of her environment!

## **This is when I stopped doing the Healing Prayer!**

There's no point in doing any kind of healing on people who are carrying around a device that's microwaving them, in their pocket no less, rampant WIFI in their world, and accepting towers and electric meters and watches and ear buds and hearing aids... that emit pulsed microwave radiation and dirty electricity,

while ignoring and mocking sound warnings and mitigation options.

God taught me that "as a vessel of healing you are not to try harder than the person who needs the healing...meet them according to their own efforts".

I have found people unwilling to change their wireless habits so...I quit using the gift.

It seems clear to me that humanity has chosen manmade tech over God's gifts, facilitating and allowing a toxic invader to their own detriment.

FYI, This is me, continuing my effort to wake you up!

For those who wonder, I was rarely paid for this work, which wasn't INSTANT very often. I actually have to do a session, which typically lasts 2 hours, sometimes more than one session was needed as we continue to live in a toxic world and embrace toxic habits.

I now realize if I charge several hundred dollars per session people might think twice about wasting my time or God's and may in fact put their stupid devices in a bag and hardwire their world and if they don't at least I was paid instead of being used and disregarded. This would also allow me to detach from the outcome.

For instance, if I give you a car and you wreck it I'd likely be upset but if I sell you a car and you wreck it...no skin off my nose as I'm not emotionally involved.

This kind of work should actually be thought of as one method of "health maintenance" for your energetic anatomy but sadly many don't even know they have this energetic anatomy system as part of their being.

**They can accept wireless technology but not "wireless healing"?**

Sadly, people are actually more comfortable popping a chemical pill they know nothing about. But it, and the practitioner dolling it out, don't mind if they continue in their detrimental habits as it assures a return customer.

**A true vessel of healing does mind and won't facilitate that kind of nonsense.**

## For those who aren't clear...

we were given what I see as a "mandate" in several scriptures that we are to take care of our body as the "temple of the Holy Spirit", not an amusement park!

Romans 12: 1-2

A Living Sacrifice to God

12 And so, dear brothers and sisters, <sup>[a]</sup> I plead with you to give your bodies to God because of all he has done for you. Let them be a living and holy sacrifice—the kind he will find acceptable. This is truly the way to worship him. <sup>[b]</sup> <sup>2</sup> Don't copy the behavior and customs of this world, but let God transform you into a new person by changing the way you think. Then you will learn to know God's will for you, which is good and pleasing and perfect.

Did you notice...DISCERNMENT is a result of honoring your body as a temple!

"...Then you will learn to know God's will for you...".

It's true!

My book and story are living proof of this!

1 Corinthians 6:19-20

The Living Bible

"Haven't you yet learned that your body is the home of the Holy Spirit God gave you, and that he lives within you? Your own body does not belong to you.

<sup>20</sup> For God has bought you with a great price. So use every part of your body to give glory back to God because he owns it."

Phillipians 3: 17-21 reads, "Let me be your example here, my brothers: let my example be the standard by which you can tell who are the genuine Christians among those about you. For there are many, of whom I have told you before and tell you again now, even with tears, that they are the enemies of the cross of Christ. These men are heading for utter destruction—their god is their own appetite, their pride is in what they should be ashamed of, and this world is the limit of their horizon. But we are citizens of Heaven; our outlook goes beyond this world to the hopeful expectation of the saviour who will come from Heaven, the Lord Jesus Christ."

And now, let me show you what happens when you sit mindlessly on a church pew and fail to "chase God" and read books that matter and **ASSUME** there are some things He'd like for you to know **AND** that He'd like **YOU** to pursue them as part of your claims of devotion...**PROVE IT!**

When people don't know how to take care of their health, how to steer out of the disease state, they become potential victims for predators in the sick-care industry.

People need to learn how to use doctors without allowing them to use you.

When you're "lacking in knowledge" you surrender power to others and that can lead you to wrong actions.

## What Happens When We Fail to Honor Our Body as the TEMPLE?

Well, it's that discernment thing...

If you want to read a meaty but confronting message about this from scripture you'll find it at: <https://gettingwellgodsway.com/2024/06/27/are-the-church-folks-a-lost-cause/>  
OR you'll find it pinned at the top of the page as the Featured Post on  
GettingWellGodsWay.com

Or search it by title if I move it for some reason: [Are the Church Folks a Lost Cause.](#)  
Wait until you see some of the scriptures I shared there that should shatter some illusions about how God responds to our unfaithfulness, laziness, and putting our faith in the wrong people and ideas because it's easier. It's not pretty.

## Here's What Ignorance Does to You!

Recently, a longtime family friend who actually likes to brag that she was the first one to buy the book went to her doctor and was told they wouldn't renew her thyroid Rx medication unless she did a mammogram. She caved in and submitted and five months later one of her breasts was ANGRY and she called me crying and scared. She wanted me to use my "Healing Prayer" gift but I refused because she knew my stance on this and saw that I mean it when

she called a few years ago, YELLING AT ME, and demanding I use it on her friend. Her friend was a pastor who held an active home church and I asked her, "Does she carry a cell phone that I know causes cancer?...Does she use Wifi in her home when she could hardwire or put a faraday bag on it?...Has she read the book I wrote at great personal price?..."

In other words, "does she plan to change any of these health-destroying habits"? I suggested that she buy the book and SHOW GOD that she was willing to do her part and IF God asks me to intervene I will but I will not help her so she can continue to ignore wisdom and self-discipline and becoming knowledgeable.

A few weeks of effort revealed that her pastor friend wasn't willing,  
and she died a few months later.

She knew my position on this and why as I'm fighting this technology that has almost killed me several times now, has killed several of my friends, and is doing vast amounts of environmental damage and is changing the very dna of humanity permanently.

So, now here she is with her angry breast...

I told her to buy the newest version of the book and  
"THIS TI, READ IT and APPLY WHAT YOU LEARN..."

I'm not using the gift so you can continue living in a manner that has you  
Walking through a now dangerous world with spiritual blinders strapped on".

I'm going to skip a lot of details here for brevity but suffice it to say that this friend had BIG TIME taken me and this gift and the book for granted.

Like so many church goers, she's just CERTAIN that God is pleased with her because she's a nice person, a truly GOOD person, and goes to church regularly.

Uh huh, but she's also a person who refused to educate herself when she had a teacher living it out right in front of her who wrote a book that took 29 years to finish.

I asked her, "How is it that you were able to not be offended by this demand made on you by a medical person without even looking at your patient file?

Did you remind her of your history and reconfirm her demand"?

BTW, she had a history of "bloody nipple syndrome" and had surgery about 20 years ago.

About 3 years ago she called asking me to "pray" and God revealed that she needed to change to a wired mouse instead of a wireless mouse. It took her 3 months to heed this advice. I asked God if I could just mail her the \$15 item and He adamantly responded,

"No, she needs to learn to take responsibility for her health, not you."

I shared His response, she changed the mouse,  
and the breast immediately calmed down.

So, a patient with this kind of history should NEVER do a mammogram and any medical practice that has such widespread "policies" is a BUSINESS, more than they are a health care provider. There is NO test or pill that everyone should have without regard to their specific medical history.

**THIS IS ABUSE OF POWER and IRRESPONSIBLE!**

I continued by asking, "How is it that a person who claims to be a 'Spirit-filled' Christian was able to make or keep the appointment, get dressed for said appointment, drive to said appointment, undress, put your fragile breasts between metal plates and allow them to shoot radiation into it and you never heard the Holy Spirit warn you not to move forward with this"?

Her answer, "I don't know".

"Well I do. Your spiritual headlights are out!"

**NO DISCERNMENT!**

Because she hasn't made LISTENING AND TRUE WORSHIP a priority.

She's been sitting in churches for 30 years, sings in the choir, and I bet she doesn't even read or study her Bible on a regular basis, so she certainly doesn't read books that matter.

There are MANY on the church pews living this way.

"Study to show thyself approved" is a pretty strong indication of what God expects of us.  
"My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children."

**Hosea 4: 6**

"Be nice and share Jesus" is as deep as the faith goes of most professing ChRxtians today, which is a nice way of saying They're functionally illiterate in the modern and vile world...

Potential victims for all kinds of predators

AND

A 'FAILED' report card for the modern pastors.

You need to be turning sheep into lions instead of lapdogs for evil agendas.

Again, IGNORANCE MAKES US ALL VULNERABLE

So please...stop preferring this mindless way and

do the discipline of making your inner child read books that matter!

## How is my friend doing and what advice did I give her?

If you want to know what advice I gave that calmed her breast down

I suggest you sign up for my newsletters and buy the book

And read it!

As I roll out more and you submit to self-education you'll learn how to

"Possess your vessel in sanctification and honor".

You'll know how to take care of yourself.

Kathy can get hit by a bus.

You NEED your connection to God strengthened.

Most shocking is when I told her,

"I'm pretty sure God is much more concerned that you couldn't hear Him

than He is about your angry breast.

It's like a dog running out into traffic and not heeding their masters command...".

If people don't master HEARING GOD's SPIRIT DIRECT THEM, WARN THEM...

WELL... a verse in John chapter 10 comes to mind:

**"My sheep hear my voice"**

## So What Am I Going to Do Now?

I'm making moves to hopefully make it possible to remain in Arkansas at least until my mom passes away but realizing in my family that could be another 5-10 years.

I will hopefully finalize GETTING WELL and resetting my system, yet again.

I'm likely going to launch a podcast to help raise awareness of the teachings I hold

And in an effort to create a SAFE HAVEN SANCTUARY

For people with this condition of essentially being "allergic to modern technology".

I'm contacting some governors, and a few other people are jumping in and willing to help so we'll see.

I'm also looking into some technology that may be able to transmute the toxic electrical environment as an "agricultural" application, which would ease my dis-ease.

Many forms of "free energy" are hitting the market including several hydrogen generators so it may be possible to REPLACE this utility provider altogether.

MAYBE I'll have to go around and convert all my neighbors...and MAYBE I'll decide I've invested enough time here doing what God sent me to do and leave, especially if mom passes away.

Since we arrived and the state of Arkansas launched 5G to this already toxic mess with the electric meters, and then added the 5 PBS transmitters covering 95% of the state, and lately something else is going on at night that has substantially increased the intensity of what I feel. As they now begin launching "wind farms" I don't have much faith in them figuring out that their methods are having a harmful impact on the people, the environment and the wildlife as you'll see

on [TheTruthAboutTechnology.org](http://TheTruthAboutTechnology.org).

I decided not to spend time on a podcast last year and took some time to consider where my efforts would have the most impact.

I woke up in severe vertigo the morning of July 24th, 2024 from an unknown source.

I was again able to put an immediate shielding remedy in place, but I've noticed in recent months that the air feels and sounds more electric here now than when we arrived.

The squeal is definitely louder and I'm no longer willing to accept this.

This woman contacted me back in 2021.

I can't imagine how this has progressed as more tech was added to our world.

THIS is evidence that all is not well here and NOBODY WILL TAKE ACTION!

I'm new to newton country. I was Montgomery I had a home in mt. Ida. I won't go back to because there is electric in the air of the house. Both me and my daughter seen it multiple times. I'm not very educated so nobody listens I just wanted you to know I believe you. I can't explain it all because I don't understand. But I hear the sounds and see electric in the air. I about broke my knee cap trying to get away from it once. Popped up right in front of us. I'm so thankful somebody else knows what I'm saying. Things have changed I can hear sounds I never heard before and I've been thinking I was nuts to! Just wanted to reach out and say hello and I appreciate the article

**I have no future here as I can't enter any buildings,  
go shopping, go to restaurants,  
friends' homes, and the most egregious,  
I'm essentially blocked from access to any medical care,  
which I find to be completely inhumane.**

**FYI there are only 8 low EMF hospitals in the entire world!**

I live with my wonderful 89-yr-old mom and if/when she was to need medical intervention I won't even be able to enter the building with her. I could ask people to turn off their cell phones and Wifi to allow me to enter for care, but I can do nothing to turn off the deadly not smart electric meters.

Sadly, the state of Arkansas, and two "Christian" governors, aren't interested in doing the right thing.

**A facebook friend visits the Ozarks and spends a few nights in electrical "hell"**

Thanksgiving of 2024 a facebook "friend" wrote me a private message telling about her visit to our area in an Airbnb cabin describing her horrifying experience electrically. She's been in southern Arkansas for a while with a friend who was passing away but has decided she wants to buy land and rent out some yurts here, so she went exploring for her possible location. Two weeks later I got yet another message describing yet another horrible experience and both times she

was in the service area of Carroll Electric and within an hour of leaving the area, her dizziness, headache and ringing in the ears had stopped.

This made it very clear that this is in fact a TOXIC POCKET and helped me make a decision to use my time towards forming a safe haven community for People with this condition and those who will honor our limitations.

For those who wonder solar isn't an option down in a hollow covered with dense forest so leaving seems the only option to get away from the tech insanity going on in this state plus they spray the Ozarks so much that it will shock you. I'm telling you EVIL IS PRESENT!

Here's the link to my friend's private messages about her two visits here or you can find it on the NoATT.blog by searching "visits the Ozarks".

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/12/31/a-friend-visits-the-ozarks-spends-a-few-nights-in-hell/>

**Can you imagine having this condition in today's world?**

**And the response of the culture is to buy the latest phone and offer little to no help!**

"Hey, let's all call the governor on the same day and..." crickets

Post card mail-out efforts...more crickets

A few helped by sending money and a few passed out the Public Health Warning.

Not enough.

I recognize that God often uses me to simply "**deliver notice**" and have done that here where there's a church every 1000 yards, but discernment and ability to respond is severely lacking. I get it because I understand that **electrical current actually anesthetizes the nervous system** so you CAN'T respond but that doesn't mean we should just accept that and not do anything about it, so I continue to plead.

In hindsight I realized church attendance effectively outfitted me with a pacifier, put me in a tutu and sent me out on the battlefield ill-equipped for the actual battle at hand.

The consistent theme of my life is that God uses me to "deliver notice" giving "His people" an option to "do justly" or "do the right thing".

I see Him providing an option for people to  
**"turn away from serving evil"**

by funding the harming of people and the environment through their consumerism.

And while professing "Christian" politicians and "stewards" attend church  
they apparently don't read their Bible.

...Amos 5: 23-24 reads,

"Away with your noisy hymns of praise!  
I will not listen to the music of your harps.

Instead, I want to see a mighty flood of justice,  
an endless river of righteous living."

Going to church is a lazy man's path if they do nothing else to provide  
justice and mercy in the world!

It could even be a "condemned" man's path.

If stewards deny mercy and justice when they have the jurisdiction to act,  
and "have notice"

I doubt their church attendance or other do-good efforts will count for much.

Ultimately, I'm not responsible for the response or lack thereof and expect those He's had  
me "notify" will be hearing from Him later on the issues presented.

Since I have no future here in the Ozarks  
it makes sense to create a world where I do and if I can help others  
too then it seems a worthy project to pursue.

A fire pit, outdoor movie theatre, a large multi-use building, a stocked pond or lake,  
community garden, community chickens, a teaching facility for speakers, a craft room,  
and a community of people who understand and respect  
the technology limitations of others will offer sanctuary, friendship,  
and support for those who can't live in this modern world.

I can see the wisdom of creating a health clinic setup so we can receive services from local  
practitioners such as massage therapy, dental care, chiropractic...

The idea at this time is a small, private effort, with a few proven friends but something

others can learn from and develop to any scale they like.

We'll see what happens as I move forward and announce this effort to attract other ideas and possible resources that can be presented.

Another recent idea came from watching YouTube videos...

**To buy a dying or defunct town in the USA and set it up as a SAFE ZONE.**

No cell phone service = No Towers.

No WIFI...hardwired stations around town like the payphones used to be...

***One Absolute: NO DRAMA!***

My current plan is to put this book out and start a podcast for the express purpose of attracting talent and resources to create this dream of a safe haven, NOT to teach people how to get well. I wrote a "dense and intense" book for that purpose, so I don't feel the need to also read it to an audience. The book is a paperback and for the best results it should be drug around with you, written in, and highlighted with lots of dog-eared pages.

I have the ability to build out a blog and start a membership community on the same platform where the book is offered but it makes sense to see what kind of feedback this effort generates.

If it's more crickets, then I can tell God, "I tried!"

If people start dropping to their knees again from reading the new version of the book, we'll follow that lead.

I have a vendor for 100% organic cotton t-shirts and hoodies, mugs... I can put a design on.

This software has all kinds of features but for now, if you're interested...

buy the book and see where that takes you/us.

I'll continue learning how to develop the site between the other tasks.

If you aren't clear, I'm not trying to sell a book and derive a financial legacy for my family. I'm growing tired of being broke but I'm also a cheap keep as I'm not into clothes, jewelry, cars or travel...just trying to get my life purpose met before I go Home.

My biggest expenses are my nutritional supplements that have absolutely helped me navigate back to health detailed in the book.

I WANT to live a life surrounded by good souls, love, laughter, pain and support.

We can build something sweet in the presence of a bitter world.

If you've been cheering as you read, and want to be part of whatever gets created here,

Go to [ConfrontingTheCulture.com](http://ConfrontingTheCulture.com) and subscribe to my emailed newsletters.

Please share the book, this site, the emails I send and encourage others to SIGN UP as it will help move these efforts forward and expand our reach.

**Now is when the online trainers say, I'm supposed to "try to run you off".**

That's right.

In fact, I hesitated to share this next part and considered doing so in a later email but then saw the wisdom of sharing it now.

The truth is that I'd rather have 10 solid "I get it, how can I help" people on board than 100 people who want to see how I might entertain or bless them in some way.

It also hurts my platform when I send emails that aren't opened so inactive people will be removed over time.

**I believe God is looking for a labor force to change the course we're on!**

We have work to do if we hope to "save what remains".

**Ultimately, I bring a message of hope!**

It's wrapped in a bit of disturbing reality and a need to roll up your sleeves and get involved but HOPEFUL as we do.

I also live in a world of miracles.

If I'm doing what I'm supposed to be doing

I EXPECT GOD to show up and He has a pretty great track record thus far.

Maybe some will happen through someone who reads this!

## **About The Book**

If you plan to order the book from the site [ConfrontingTheCulture.com](http://ConfrontingTheCulture.com)

there's a few details you should know.

Many of you recognize we're in an information war that is spiritual in nature.

For me this has resulted in Amazon doing a targeted hit on the book by

allowing 12, 1-star reviews,

all by non-verified purchasers, within a 24-hour period.

This was done one week before launching their Rx pill delivery service

and mine wasn't the only book hit.

I put that story on the original book blog along with screenshots of these fake reviews.

GettingWellGodsWay.com:

Amazon Targeted The Book.

Three requests to have these fake reviews removed were denied so I pulled it from their site and took the opportunity to rebrand and retitle it for a broader audience and put it with a private printer and built a marketing site after a very smart niece read it and said,

**"You're an icon for the millennials and they don't even know you're on the planet. You need to fix that."**

I determined the church crowd had their chance to embrace it so it was time to bring it to a wider audience thus the new title, cover, website...

At this time, the only place where you can obtain this book is from the website or through me so please forward the emails I send to the people you think will enjoy it or benefit from it.

When Stripe (like PayPal) cancelled my payment processing account and I refuse to use PayPal after they literally stole money from three friends and never returned it, has meant using a less familiar payment processor, but they're happy to have me and are a listed option by the website software company so they certainly have met some criteria for that to happen.

**GoCardless is the new payment processor.**

They have a little different system that asks you to set up with basic information before it will ask for your card information.

You can also reach out to me by email to see if there are other methods to pay.

I hope you'll find this book worthy of trudging into a bit of unfamiliar territory and

BE SURE to open the THANK YOU FOR YOUR ORDER page where you'll

find a button that allows you to read that "dropped 'em to their knees" introduction

and another button to Join the facebook page!

I launched the site on 08-08-24 and an introduction happened a week later  
that feels like the person and company I've been looking for, for 2 years.

Stay Tuned!

And remember...

"Have nothing to do with evil but rather, expose it." Ephesians 5: 11

In the meantime, be a blessing by putting your phone in a faraday bag (turned off or it will drain your battery) and use them only for emergencies and away from people and pets that you love! Recognize and act upon the reality that not smart watches and other devices also emit harmful radiation so please stop wearing them for your own safety as well as for others. This is exactly like teaching people not to smoke cigarettes around others except the entire world has now taken up smoking (with pulsed, modulated, microwave) in public.

Please take this information to heart!

*"Then if my people who are called by my name will humble themselves*

*and pray and seek my face and turn from their wicked ways,*

*I will hear from heaven and will forgive their sins and restore their land."*

2 Chronicles 7: 14

In service,

Kathy

If you aren't tired of reading here's that post...Are the church folks a lost cause?

<https://gettingwellgodsway.com/2024/06/27/are-the-church-folks-a-lost-cause/>

"The health of the flock is a reflection of the shepherds' faithfulness."

Henry Blackaby, Experiencing God

I still wonder why the pastors didn't do what I did when they saw their congregants becoming sickly and no healings happening in the churches.

Why didn't they chase God down like I did?

"We've arranged a society based on science and technology in which nobody understands \*anything\* about science and technology.

And this combustible mixture of ignorance and power sooner or later is going to blow up in our faces."

-- Carl Sagan,

American astrophysicist & cosmologist in his final interview on 5/27/96

I'm not intending to be mean or retaliate here but I do want the churches to stop and recognize that when they rejected the message, it weakened my marriage and damaged my credibility with my child who ultimately declared, "I want to be like them" and she didn't mean "closer to God".

She was saying "free to do what I please with little to no regard for what God wants, what the Bible teaches, or its effect on my health or the culture".

A big regret is that I didn't realize the extensive damage being done to us sooner and no, we didn't survive it.

Today most people recognize the truth about food dyes, chemicals, and artificial sweeteners so I wasn't wrong and yet the Coke machines, junk food, and Rx doctor worship remains at what I now see as "false churches" and now many of them have added cell towers on the property, in the steeple, or mounted on the front of the church with Wifi provided and everyone in the building has a cell phone on them and a digital electric meter they know NOTHING about.

I can't help but ask,

What part of Romans 12:2 "Be not conformed to this world" wasn't clear?

How to Tame Your Wireless World!

<https://neighborsorganizingagainsttrespassingtechnology.blog/2025/02/11/how-to-tame-your-wireless-world/>

Nutritional supplements have also saved my life and I've kept the book updated with all of these efforts, what I use, and where I get them and will continue updating these efforts through newsletters you can sign up to receive at [ConfrontingTheCulture.com](http://ConfrontingTheCulture.com).

At this time, I think there's only 1 or 2 affiliate codes as that has not been my focus.

#### full disclosure:

If you decide to buy a SATIC whole house filter or other SATIC products using my affiliate code I will earn a commission.

"Making money" when I see what I see, feels like I'm busy selling floatation devices on the Titanic, a bit predatory and yet YES, I do need financial support to continue.

Buying the book, reading it, and applying what you're shown is a great starting point. I tend to survive every calamity and my efforts of building a safe haven community for those of us suffering is the final agenda, so I need support to make that happen, emotionally, financially, spiritually and tangibly.

Currently, I'm about to be a 68-year-old woman living on social security, paying for all the sites, domains, printings, and trainings so it's a bit much.

## Solutions

I created a non-commercial SOLUTIONS category on the NoATT.blog to help you and you can also go to [LessEMF.com](http://LessEMF.com) and request a paper catalogue for free that will give you quite a bit of information. Get 5 and share them with others.

They've been in business for 26+ years, and nobody thought of telling us we needed to be shielding our body using the products they sell? Hmmmm

Safe Living Technologies is another provider, but LessEMF has the paper catalogue that will teach you a lot about this stuff just by thumbing through it.

My book also contains a lot of information, and I didn't put every supplement I take or what I do on the site due to what is often pure overwhelm as I currently live in an environment with a 24/7 high-pitched screeching noise and have been trying to survive the journey, but it's in the book.

I created a "HOW TO TAME YOUR WIRELESS WORLD" post

so you can get started on that:

<https://neighborsorganizingagainsttrespassingtechnology.blog/2024/01/03/how-to-tame-your-wireless-world/>

~~~~~

So many readers commented that they "could hear God more clearly" or "felt closer to God" after reading the book and that's why. He sees that we're moving into deeper awareness, and it simply brings us closer to our "Source", our Creator so you can feel God more clearly and with practice you can rightly discern that inner guidance more easily. You'll likely make a few wrong turns, I did, but you'll learn to feel and hear how you're guided to turn around or wait.

~~~~~

**Here's some basics:**

First, this condition is known as "electromagnetic hypersensitivity" or EHS. It's also known as "Radio Wave Sickness" which was easily recognized after WWII. It's also known as "Microwave Sickness" and even the "Yuppie Flu" back in the early 90's as it affected mostly young urban professionals known as "Yuppies" who were on their phones and computers a lot.

A scroll through the NoATT.blog site will show you many posts that reveal

~~~~~

THIS IS EVIL

Pure evil.

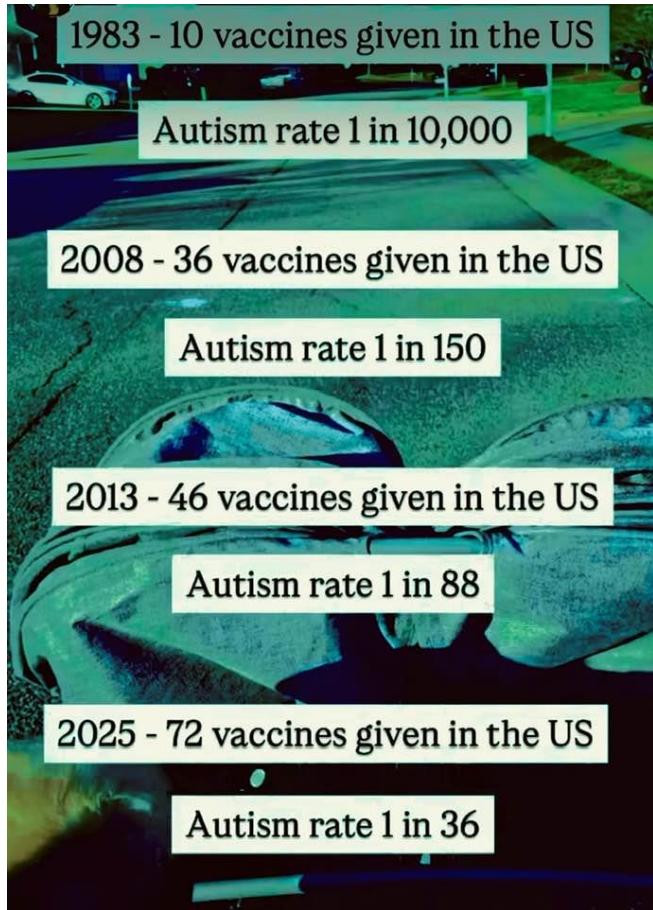

And our Bible says we are to,

"Have nothing to do with evil but rather expose it"

Ephesians 5:11

FYI you can still buy an old-style analog watt hour meter on eBay.com for \$25-\$40.

I suggest having one on hand in case WE THE PEOPLE win this battle.

HAARP - WEATHER WARFARE

High Frequency Active Auroral Research Program

@Endtime.Signs

HAARP located in Alaska is one of the elites secret weapons for weather modification. With this machine they are able to heat up the ionosphere, which in turn alters the weather to a point where they can create & control man made weather disasters (Earthquakes, Tornadoes, Hurricanes, etc...) & strange sky anomalies.

Someone explain how this is not a National Security Threat and Health Crisis

- 60% of all pork is produced by 1 company in the US and that is 100% owned by the Chinese
- 4 companies control over 80% of the meat industry in the United states
- More than 10,000 different additives are allowed in the US food supply
- 99% of chicken, 95% of hogs 78% of cattle in the US are raised in confinement buildings or feed lots means they're not moving around freely
- 80% of the antibiotics consumed in the US are fed to animals
- In 2016, 18.4 million pounds of antibiotics were sold for livestock

And that's what you're eating. Suicide rates amongst farmers are the highest than any other profession, and that includes veterans. Believe it or not, I found that alarming. - Shawn Ryan

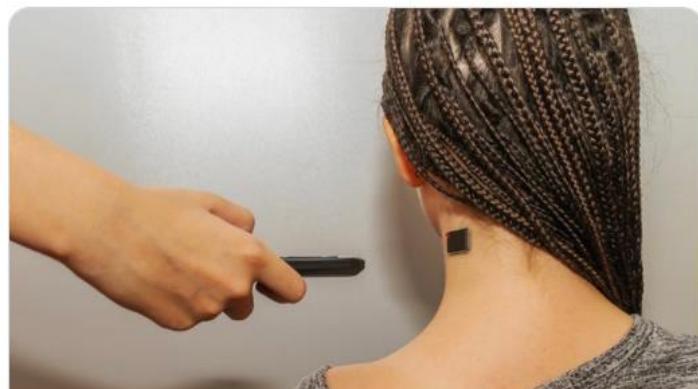

Experts now say it's only a matter of time before we are all microchipped.

Imagine if you could make purchases, clock in and out of work, and even ride the subway with just the wave of your hand. Well, that's the idea behind human microchips. This is a technology that first burst loudly onto the media scene in and around 2017.

Note the comment about the children's behavior when the power was off...
"My ASD child was super calm..."

Ok. Thank you so much. I knew all this couldn't be good for you but I'm just now starting to understand just how bad it is. We do not have any cell signal where we live, but we're on internet and not everything is hardwired. The rest of my family think I'm nuts. I knew for sure all this was bad when our electricity was off for a few hours down our street. I noticed how calm our kids were. My ASD child was super calm. Every time our electricity is off in our neighborhood I can tell a big difference in behaviors and even how I feel.

With this TV, I will no longer have to think for myself. I look forward to adopting the ideas and perception of reality that is broadcast from this signal. A life of mindless trivia, sports, celebrity gossip, insecurities, and material possessions are just a click away now.

32m ·

Here's how it works. They inject nanotech in you, and the nanotech is programmed to self-assemble (and self-replicate and self-repair) once it's inside of you. As if that's not bad enough, they don't need to inject you -- they're putting it in the food you're eating, they're putting it in the water you're drinking, they're spraying it from the sky (so you inhale it and it goes into the food you're growing yourself), and they're putting it in an increasing number of medications, supplements, personal products, etc.

So this self-assembling contraceptive injection is just the tip of the iceberg. And they aren't about to launch this -- they've been doing it for a while.

Bill Gates Launches 'Self-Assembling' Contraceptive Injections for Women

Frank Bergman.

April 25, 2025

Microsoft co-founder Bill Gates has developed a horrifying new contraceptive injection for women that "self-assembles" inside the body.

The new injectable platform was funded by the Gates Foundation and developed by researchers from MIT, Harvard Medical School, and the Broad Institute.

"A decorated World War II veteran, orthopedic surgeon, and trailblazer in the study of bioelectricity, Becker's legacy was shaping up to be as luminous as the electric currents he spent his life studying. Twice nominated for the Nobel Prize for his groundbreaking work on tissue regeneration, Becker uncovered a powerful truth: our bodies respond not only chemically but electrically—and these natural electrical processes can be profoundly disrupted by man-made electromagnetic fields (EMFs)."

How a Nobel-nominated scientist was cancelled for exposing the invisible danger we face every day

i

**The word "SMART" refers to
"self-monitoring, analysis,
and reporting technology**

**It is a "smart" illusion of safety and
convenience, but in reality it is about
tricking the masses into accepting a system
of digital control and surveillance.**

This past July 5, 2022 along the central Oregon coast, one individual took to collecting a 1/4 Pint sample between the hours of 03:00 to 05:00 of rain water after 4 days of very dry weather with heavy Chemtrail spraying, the results from the 3 separate lab tests were done to confirm each metal amount:

- Aluminum 3090 ppm
- Lithium 507 ppm
- Barium 67.8 ppm
- Zinc 58.9 ppm
- Copper 55.1 ppm
- Cadmium 54.1 ppm
- Lead 52.9 ppm
- Silver 28.3 ppm
- Sulfate 22.0 ppm
- Silica 8.67 ppm
- Mercury 1.06 ppm

As the author notes; "There should be 0 - Zero of any of these chemicals in ground level fog, moisture or in any rain, except for Sulfate and that, only if a volcano is exploding nearby will this amount of sulphur be found."

This was merely a simple rain water collection and sent to a lab.

"Putting aborted fetal cells in vaccines falls into the same category as putting monkey kidney tissue in vaccines. We're dealing with an ancient black magic satanic death cult that laughs at us as we inject our own ground up babies and other black magic concoctions into ourselves and our children. We passed clinical insanity a long time ago. Anyone believing that any of this is legitimate science, is literally clinically insane. It's black magic. So they're saying that we need to kill our own children and inject that material into ourselves to stay immune? Really? Turn off the TV, stop listening to the highly paid assassins in the white butcher coats, start thinking a little harder and start recognizing pure evil when you see it...."

6-7 JEREMIAH

27-30 GOD gave me this task: *count all the good servants alive now I have*
“I have made you the examiner of my people,
to examine and weigh their lives. *and to see if they are good or bad*
They’re a thickheaded, hard-nosed bunch, *and to see if they are good or bad*
rotten to the core, the lot of them. *and to see if they are good or bad*
Refining fires are cranked up to white heat, *and to see if they are good or bad*
but the ore stays a lump, unchanged. *and to see if they are good or bad*
It’s useless to keep trying any longer.
Nothing can refine evil out of them.
Men will give up and call them ‘slag,’
thrown on the slag heap by me, their GOD.”

THE NATION THAT WOULDN’T OBEY GOD

1-2  The Message from God to Jeremiah: “Stand in the g
