

Why The CIA Microwave Torture Program Exists

Mind Control

Cell phone towers and satellites have been weaponized by the CIA, NSA and Space Force with precise beam steering electronics. The CIA has figured out how to make human beings emulate a cell phone - and then receive a signal directly to the brain. They do so through your acoustic footprint - and can easily track and target only you in a roomful of people using the resonance of your skull and AI computing.

They can then implement one of the many hundreds of Public Patents (below) that use microwaves for human voice and data transmission, take your vital signs, making you horny or destroying your libido. We can visualize what the top secret patents of the military grade weapons would look like - from the Public Patents listed below.

Here is a secret about how mind control works - the precise killing of of selective brain cells. And this is what happens. **You lose your sense of joy. That's right. You have no feelings anymore. You have ZERO**

libido - even if you were the horniest person in town! And you are finished as a human being with free will right there. Pure evil from the worlds greatest terrorists - the 'domestic terrorism' of your own CIA. Who's to stop them? They are KEPT invisible and in the dark by the US Government. But I will turn a couple lights on.

Why They Do It Is Shocking

Why do they use mind control military grade weaponry on civilians - and why are they typically older civilians? I figured out why they do this. It's **because Russia and China are using and testing "MIND CONTROL" weapons on their own people to create an obedient Nation, and the CIA wants to do the same to us** .. to your children and their children. The CIA fears a mind controlled people with no free will in China will beat America. They think obedient minds that do not question authority will be superior as a Nation of thought controlled people. But it will be a nation of selective drones - and you are the drone. Not an aircraft. Like "bee" drone.

Why Does the CIA TARGET Older Americans?

A quick simple answer: This program involves painful Directed Energy microwave radiation and inflicts injury on the tortured 'Targeted Individuals.' The injuries get explained by targeting an older population and get passed off as "aging related." The medical profession does not know the CIA is poisoning and injuring people with microwaves. To say so would be considered a 'conspiracy theory' and ones sanity get's questioned.

This recently happened to me where I have Havana Syndrome symptoms and just had a brain MRI. There were VAST WHITE MATTER changes. But because of my age they were considered age related and the MRI was marked 'normal' by the neurologist. The CIA really knows how to fuck people with impunity. But we can expose these criminals and save America if we band together and fight these CIA psycho-fucks.

The CIA is a domestic terrorist - they poison and torture innocent Americans for this reason. To test it on us. They want to use "mass mind control" on the entire population. They fear free will weaken America. But is them, The CIA, the filthy sluts that start and then lose every war in my lifetime - they not only weaken America but sicken it. I am 67 years old and stand witness that the CIA has waged every war in my lifetime. And the goal was never to win - it would be nice but not required. The goal is INCREASE the military budget. It works! Trump Military Budget is in the trillions. Plenty in there for your "unaccounted" mind control programs.

It is the end of YOUR free will. You will never act to stop it - so you are definitely "all done" as a free will people. Especially with all that debt the US government has financed - all for your children to pay back. That will play into this plan.

The great Persian people are wonderful innocent people (not the leaders - they are more like the CIA). You think Iran is a bad place when they've NEVER started a war in 5000 years. To think this is mind control. The countries we are supposed to hate and fear are surprisingly the same countries that threw out the CIA. Get the fuck out - they all said to the evil CIA. Then, all of a sudden Cuba, Iran, and Argentina are the biggest enemies of America. Worthy of threatening and perpetrating war crimes.

The US government is our bigger enemy - and that should be shocking - that the CIA has that much control. And evil will. Trump has embraced the CIA so he will not save you.

America has morphed into a very unsophisticated and self centered country that will become an oligarchy. That is the goal of the CIA. America may be "DONE" as a free will democracy.

Pain and torture from the CIA covertly testing DEW's and mind control / destruction on me. I suffer in physical pain - like getting you fingers slammed in a car door kind of pain. To the CIA I say: "Merry Christmas You Filthy Animals."
